### They Lack Life

There are twines sold to fishermer on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being-they lack strength-life -evenness-and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't, They cannot.

### THE PRESIDENT DECLINES.

Washington, June 18 .- Wilberforce Untwashington, June 18,—waberforce Uni-versity, the oldest institution in the country for the education of negroes, a few days ago conferred the degree of LL. D. upon President Cleveland. The president has sent an autograph letter to President Mitchell, of Welberforce, de-

lining the honor. The Wilberforce University is conduct ed under the auspices of the African Methodist Episcopal Church, and was founded by Bishop D. A. Payne. The president has recently shown the insti-tution flavors, and it was in return for tistion favors, and it was in return for these favors, and in recognition of his worth, that the university destred to confer upon him the honorary degree. President Cleveland recently made a colored man a leutenant in the army, and detailed him as special instructor in military trickies at the university. Then, too, when a postmanter was to be appointed at Wilberforce, Ohio, where the institution is located, the president selected a colored man endorsed by the faculty of Wilberforce.

Bollin has been drinking heavily of late and has also fost money in stock speculations. Tonight Comptroller Olean, after a hurried checking of Bollin's accounts, reported a shortage of \$15,888 ourside of the amount said to be lacking in the account at the Midland State Bank. The deposit blanks indicated that Bollin had \$19,000 deposited there, white the actual deposit was only \$10,000.

THE VENEZUELAN QUESTION.

Washington, June 18.-Sir Edward Gray's statement in parliament yester-day that Ambassador Bayard had been anformed that Great Britain would consent to the arbitration of the Venezuela question under certain conditions cra to shiw that Great Britain has accepte the suggestion of the United States whereas it has been declined. The desire of Venezuela is to arbitrate the en-tire boundary question, and the request of Mr. Bayard in behalf of the United States was in this direction. But the an-swer of Great Britain was that no arbitration was admissable as regards certain territory which Great Britain asserts is indefensibly hers, though she offered to arbitrate concerning certain territory to which apparently Great Britain regarded her title as less clear. The practical er-ect of this was to reject the only proposi-tion the United tSates had presented.

### A RED HOT LETTER.

San Francisco, June 18.—Chief Justice Beatty, of the California supreme court, today sent to Presiding Judge Bebbard, of the superior court, a sed hot commu-nication upon the recent report of the San Francisco grand jury. He says that while the grand jury did not opinly while the grand jury did not opiny charge the supreme court with gross cor-ruption in connection with the election frauds cases of Steinberg and Coben, it cid so by implication. Chief Justice Beatry defends the action of the supreme court and bitterly attacks the grand jury for what he terms its reckless desire to besmirch the reputation of the jurists.

CASH DISCOUNT CONTROVERSY

Why Jobbing Houses Believe the Cannerymen Should Never Have Fought Their Propositions.

C. Buttolph, director of the Wholesale Grocers' Association and a member of the Grocers' Association and a member of the well-known house of W. M. Hoyt Co., Chicago, was received at this office yesterday. The editor of the Astonan is glad to give space for its publication, feeling inhat no britter presentment of the Jobbers' side of the question at Issue could have been made. The Commercial Astorian will have some remarks to make concerning this communication in its next issue. Meanwhile Mr. Buttolph is assured that these columns are open to him at any time, freely and willingly, for the discussion of this or any other matter of intrest to the trade:

"We are in receipt of a cony of the

matter of intreat to the trade:

"We are in receipt of a copy of the Commercial Assorian hearing date of May Isth, in which you refer to the Wholesale Grocers of Chicago, relative to the question of a cash discount on canned salmon. In our judgment, the article does not state the case fairly, and for this reason, we appeal for a small space in your paper, so the jobbens side of the controversy may be heard.

The wholesale trade throughout the United States have felt for a long time that salmon should be classed in buying with California canned frults, so far as

with Californ's canned fruits, so far as a cash discount is concerned. The Jobbers of Chicago took the matter up more than a year ago and entered into correspondence with the various wholesale grocers' associations throughtout the states, to get an expression on the question. to get an expression on the question. The replies received practically indicated a unanimous indorsement of the proposition. By the time these replies were received, a number of the packers had made the price for the opening season of 1894, on the usual cash basis. It was decided in view of this not to request the o scount on the opening prices, as it would not be fair to the camers, as they had not been requested to base the opening prices subject to the discount. In January of this year the agitation was renewed and the camers were requested. renewed and the canners were requested before the opening of the season to so adjust their prices to admit of the desired discount. The trade did not request the canners to sell their goods on ame or at specified prices, but wanted hem to change their method from cash quourious to discount quotators. The carriers depend upon the jobbers to dis-ribute their product, and we are sur-prised that any objection could be made o a r quest that would benefit us, without any expe we to them. It is the custom of jobbers to set all kinds of carned goods, including salmon, to the retail dealers on therty and sixty days time, with a cash discount, and it is sold on a very close margin of profit. A cash discount would we believe benefit the other at least to the extent of the discount, as it would not be daken into account, as it would not be daken into account.

spher at least to the extent of the discount, as it would not be taken late action; in figuring the cost of the goods. At a largely attended meeting of the National Wholesaie Grocers' association, held in Chicago April 1, a recolution was unanimously adopted, requesting sitmon canners to concede the discount, and the actionary was instructed to mail a copy of the resolutions to every jobber in the United States (64) and up to April 25, 950 replies were received, indersing the action of the convention. We believe it would have begn in the best interests of every salmon canner on the coast to have declared themselves in favor of the jobbers' request and awanged opening prices accordingly. Happily a large number, however, are offering the discount from the opening cash price, amongst them are the following: Hanthorn, Warren, Booth, McGowan, Megler, Ellmore, Samborn & Co., Cook, Gorman Commission Co., and others. The few who are kicking against the pricks are standing in their own light and must suffer the consequences. There should be no contention boween the packers and jobbers, and an amigable adjustment of this question is needed to protect the interests of all concerned."
