Tide Table for June, 1895.

Table with columns for DATE, HIGH WATER, and LOW WATER, with sub-columns for A.M., P.M., and F.M.

ALONG THE WATER FRONT.

The Eclipse will be given a trial run today. Three carloads of salmon went up the river last night.

THE OCEAN WAVE.

The Ocean Wave will make her first trip down the river on the 30th of July and will run during the summer months, continuously three times a week.

THE GATZERT.

The Gatzert will come down the river on Monday night and will take the early morning run from this city in opposition to the Thompson, leaving the Telephone and the Potter on their present time tables.

PORT CANBY NOTES.

Port Canby, Wash., June 27, 1895. To the Editor. On the 27th was overlooked the most essential of all the events to take place at Port Canby on the 4th of July, namely the football game between the Astoria High School team and that of Ilwaco.

ASTORIA TO SAN FRANCISCO.

Astoria, Wednesday, July 3. Oregon, Thursday, July 5. State, Saturday, July 13. Oregon, Thursday, July 18. State, Tuesday, July 23. Oregon, Sunday, July 28. State, Friday, August 2.

ASTORIA AND PORTLAND STEAMERS.

Hereafter the O. R. and N. Co.'s boats will run as follows: between Astoria and Portland, the Thompson will leave Astoria at 6:45 a. m. daily except Sunday, and Portland daily at 8 p. m. except Sunday. The T. J. Potter will leave Astoria at 7 p. m. and Portland at 7 a. m. daily except Sunday.

ASTORIA TO SAN FRANCISCO.

Three more British iron ships of 1,741, 1,800 and 1,824 tons, respectively, have been chartered to arrive at San Francisco from Europe in the late autumn.

THE MANZANITA LEAVES.

The Manzanita leaves this morning for Tillamook Rock to obtain the annual report from the lighthouse keeper at that place. She will come back to the buoy depot tomorrow and will go to the buoy depot to complete loading stores and material for her Puget Sound trip. She will not leave for the Sound before Monday night.

IT WAS UNDERSTOOD ON THE WATER FRONT.

It was understood on the water front yesterday that Mr. Kamm, principal owner of the Ocean Wave, and in the late call off the lease of the steamer to the C. R. and P. N. Co. He was not consulted by the owners in the making of the contract. It is believed, in retaliation for his actions with the Ocean Wave last summer when the running of the boat was under his particular charge. His attempt to kill the crew was unsuccessful, as the balance of the stockholders were solid against him.

SAN FRANCISCO ADVISES.

San Francisco advises state: "Robert Robertson, a union sailor, with four others shipped on the barkentine Arago to Astoria to load lumber for the steamer in the town of Astoria. Robertson and the other men were ashore and gave him a genuine welcome. The Colma encountered strong northerly winds on her way up. She is in ballast and will go up to Portland in the lead for China. Captain Noyes, not happening to find a pilot or tug handy, sailed his vessel in and up to her anchorage without any outside assistance. The Colma brought up Mrs. Henry McCracken and Miss Nellie Noyes, of Portland, and Miss Mabel Norris and Miss Hastings, of San Francisco."

THE BARK COLOMA.

The bark Coloma, if days from San Francisco, Captain Noyes, arrived in last night, surprising the ship's friends many of whom crowded round him to see him ashore and gave him a genuine welcome. The Colma encountered strong northerly winds on her way up. She is in ballast and will go up to Portland in the lead for China. Captain Noyes, not happening to find a pilot or tug handy, sailed his vessel in and up to her anchorage without any outside assistance. The Colma brought up Mrs. Henry McCracken and Miss Nellie Noyes, of Portland, and Miss Mabel Norris and Miss Hastings, of San Francisco."

THE MANUFACTURER PREFERS HARD WOOD.

The manufacturer prefers hard wood because it does not require so large a box, can be turned down smaller and yet retain sufficient strength and can be ornamented more cheaply and artistically. Brooms with hard wood handles sell more readily than do those made of soft wood. Any kind of insecticide hard wood, such as beech, birch, maple or ash, makes acceptable handles, while spruce woods like elms are not suitable, because one seedling of a great broom is a straight handle.

CHILDREN CRY FOR PITCHER'S CASTORIA.

The manufacturer of broom handles can only be made profitable when the time he runs largely clear. In the eastern states the timber waste in making broom handles exceeds 50 per cent, while in the southwest it is usually less than 25 per cent. There are four factories in Amsterdam, N. Y., one of which has a capacity of 1500 finished brooms per day. They use hard wood handles from the south and west and get them from the boats ready for the lathe can be furnished from native hard wood. The handles are turned green and dried afterward. The large end of which the brush is wired must be thoroughly dry, or the broom will work loose. The drying of the upper part of the handle is of less consequence, except in the saving of freight.—Southern Lumberman.

THE BANNER OF LIGHT.

Editor of a Great Paper Cured by Paine's Celery Compound.

Mr. Day's portrait is given above. He is a member of the Masonic, Odd Fellows, Grand Army and other fraternal organizations, and is highly esteemed by his brethren and others in the social walks of life.

The Banner of Light is, as every one knows, one of the most successful denominational publications issued in this country.

In its 7th volume it is at once conservative and bright, discussing not only modern Spiritualism, but frequently lending its influence fearlessly in matters of public importance outside its principal field.

Mr. John M. Day, who is the editor and one of the proprietors, writes in The Banner of Light as follows to the proprietor of Paine's celery compound: "I owe you a debt of gratitude in placing on the market such a nerve-curing and soothing remedy as Paine's celery compound. It was brought to my notice by a friend who had himself been greatly relieved by its use, as I have also been."

"I have frequently taken occasion to commend Paine's celery compound to others, and I do not know an instance where it has failed to give relief. It is a truly beautiful, John M. Day."

THE POINT OF THE PISTOL.

In an effectual persecutor, and there are many persons so unkindly of the symptoms of rheumatism, that it would indeed take that deadly argument to induce them to adopt precautionary measures. The best of these is a recourse to that fine botanic restorer, Houshater's Stomach Bitters. It vanquishes malaria, rheumatism, kidney and bladder troubles, falling digestion, biliousness and irregularity of the bowels, and completely fortifies the system against their further inroads. Its ingredients are drawn from nature's storehouse, consequently it is free from the objections attaching to many abortive or semi-mineral remedies. For the delicate, infirm, convalescent and elderly it is peculiarly beneficial. It well merits conspicuous and extensive use. Take it at bedtime to induce sleep, and between meals to stimulate appetite and digestion. The medicinal efficacy is in factoring it.

IT MAY DO AS MUCH FOR YOU.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so-called kidney cures but without any good result. About a year ago he found the use of Electric Bitters and began relief at once. Electric Bitters is especially adapted to the cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c for large bottle.
