They Lack Life

There are twines sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.

What the Gambrinus Beer Hall tried to do in selecting their liquors was to pick out what intelligent people would want if they knew it as experienced people should know it. Make a note of this if you want pure liquors. George Bartley, Proprietor.

## THREE MEN DO IT

### Southern Pacific Held Up at Grants Pass.

### SECRETARY MORTON FIRES HIM

### Disagrees With Prof. Harrington—Spokane Sensation Develops New Phase.

Special to the Astorian.

Grant's Pass, Or., July 2.—The Southren Pacific overland, northbound, was stopped tonight at 10:15 p. m., by three highwaymen, near Riddles, about 30 miles south or Roseburg, and thoroughly robbed. Sticks of dynamite were placed on the rail, which disabled the engine by blowing the flanges off the pony trucks, and brought the train to a stop. Taking the fireman, two of the highwaymen proceeded to go through the train, and every car, from the express car to the rear Pullman, was searched. Nothing was obtained from the express car, for there was no treasure on board.

In the mail car better success was met with, and the Portland-Tacoma-Seattle and Victoria B. C. registered sacks were rifled. The passengers were also searched pretty thoroughly, but just what success was met, is not known. One highwayman took a hasty shot at Conductor Kearney, who was in charge of the train, but no damage was done. A description of the men, or rather one of them in particular, is given as height, 5 feet 11 inches, light complexion, light mustache, projecting upper jaw, very heavy pointed chin, two upper front teeth projecting, and high cheek bones. He wore about a No. 8 shoe, with tacks in the bottoms. Had on a pair of blue overalls. The description of the other one is that of a man about 5 feet 8 inches in height, but as he kept in the background, a definite description could not be had.

Superintendent Fields, of the Southern Pacific, lost no time, and in an hour after learning of the hold-up, had two parties on the way to the scene of the robbery. A posse of officers was hastily made up at Roseburg, and started at once, and another of rough and ready mountaineers started from here. Both will reach the scene by daylight. Every effort will be made to capture the robbers. The men of the party starting from here are thoroughly familiar with every foot of the ground in the neighborhood of the robbery and pretty good hopes are entertained of capturing them.

The train was delayed several hours, having been compelled to turn the engine around and go into roseburg backwards.

The robbers obtained $320 from the passengers and about $150 from the registered mail. One of the robbers went through the entire train while the other two stood guard and fired cartridges to terrify the passengers and train men. The Southern Pacific has offered a reward of $2,000 for the arrest and conviction of each robber. There is also a standing reward by Wells, Fargo & Co., and the government. Several posses are in the field after the robbers.

COLORADO DEMOCRATS.

Denver, July 2.—The Democratic state convention met today to consider the financial question. Chairman Arbuckles' address was as follows:

"Democrats of Colorado, by direction of a large majority of your state central committee you have been called together in mass convention for the purpose of considering financial questions. When the agitation favoring a state convention was raised, I, as state chairman, wrote a letter to each member of the state committee strongly advising against a convention being held at this time for reasons therein stated. But being a thorough believer in party discipline, and the majority rule, your wishes have been complied with. I stand upon the broad proposition that any and all relief which may come to Colorado as well as the United States must of necessity be through Democratic doctrine and administration, and that it is the supreme duty of the Colorado Democracy at this time to hold fast the respect and confidence of the national Democracy by proclaiming allegiance and devotion to its principles of "bimetallism," "a tariff for revenue only," "rights of states," etc.

"In 1892 resolutions of censure and condemnation were adopted by our state convention. Party demoralization resulted. We cannot retain party discipline and respect of national Democracy by such a course.

In my opinion the action of the Illinois Democracy in passing a resolution of condemnation was impolitic and disgraceful."

SPOKANE SENSATION.

Spokane, July 2.—Further sensational developments in the bogus Chinese registration certificate conspiracy that were expected today have not come to a head, owing to United States District Attorney Brinker not arriving this morning as expected. He will arrive tomorrow, when it is said, additional warrants will be sworn out for other members of the conspiracy. W. Floyd Pollard, who is charged with assisting in making the bogus seal used upon the bogus certificates, was arrested today. Deputy United States Marshal Thompson left for Kendrick to arrest Henry Tolton, another one of the parties implicated.

THE CERTIFICATE FORGERS.

Seattle, July 2.—The first information which led to the arrest of James Graham, of Idaho, for forging Chinese certificates, came to J. P. Gleason, deputy collector of internal revenue in this city, last May. One of Graham's accomplices confessed, and from him and another man affidavits were obtained that Graham furnished money for them to do the work and he received the bogus certificates from them. Gleason reported to Washington City and special Agent Yarborough was sent for. Yarborough went to Coeur d'Alene and obtained confirmatory evidence, and then confronted Graham with it. Graham vainly tried to explain. Special Agent Schuyler was then put to work collecting evidence with instructions that in case anyone tried to leave the country he should cause the arrest of all suspects. A few days ago he received information which caused him to have Graham, Rick, Tolton, and Pollard arrested. About 20 persons are supposed to have been in the gang, the principals being Graham, and an ex-Chinese inspector, while the others were merely employed to copy signatures and do the other work. It is believed that another gang is working in Southern Oregon and Northern California.

RUSSIAN DOCTORS.

Arrive in San Francisco and are to Investigate Cholera.

San Francisco, July 2.—Among the arrivals here today were Dr. T. Somiznoff and Dr. N. Satrowick, of St. Petersburg, physicians of the Russian Czar, who are bound for Vladivostock.

They say that for some time past the Russian government has been receiving telegrams that there was cholera, or at least indications of it, at Nagaski, Yokohama, and other points close to the Russian possessions. These two have been sent to Vladivostock to make a study of the condition.

Dr. Somiznoff was asked as to the report received from Tacoma, that 80,000 Russian soldiers were massed at Vladivostock, and that the harbor was set with torpedoes, with other indications of trouble between Russia and Japan.

"There is no such number as 80,000 there," he said. "That dispatch is exaggerated. There are about 60,000 troops there, but the government has had most of them there for some time. Thy have been gathering from all over Siberia and the country towards St. Petersburg.

"It is true that there are many warships there, too, and it is true that there are torpedoes in the harbor at Vladivostock. What they are there for you will have to ask the Czar."

HARRINGTON REMOVED.

Washington, July 2.—Prof. Mark W. Harrington, chief of the weather bureau, has been relieved from duty owing to a disagreement with Secretary of Agriculture Morton.

A call was made June 19th for Professor Harrington's resignation. He declined to resign, and subsequently was removed by the president to take effect July 1st. James F. Cook, chief clerk of the weather bureau, is acting as head of the bureau until a successor is appointed. The relations between Secretary Morton and Harrington have been strained for many months and the correspondence between them has been carried on in the most formal language. Professor Harrington himself said today:

"On the 19th of June the president asked for my resignation because of public interests. I declined to give it on the score of personal interests, and my removal, which followed, was to take effect July 1st. The personal interests involved were discussed by me in a letter to the president and I feel that I have not received fair treatment.

"Among the public interests which I have steadily in view were the preservation of a scientific corps and the protection of that bureau from spoilsmen."

PORTLAND RACES.

Portland, July 2.—The 2:40 pace unfinished from yesterday, was won by Pathmont; Glen Arthur second, Carrie S. third; best time, 2:19 1-2.

2:25 pace—Geo. Ayres won; Duvis Boy, second; Encounter third; best time, 2:19¼.

Running, three-eighths mile, selling—Vallidore won; Dr. Morris second; Black Prince third; time, :35 3-4.

Five-eighths mile, selling—Carrie Crook won; Tammany second; Verdie Paul third time, 1:02 3-4.

Owing to a mistake on the part of the flagman, who was in front of the starter, all the horses, with the exception of Carrie Crooks were compelled to run over the course twice.

The flagman, thinking that the starter had given the word, dropped his flag and all the horses got away except Carrie Crooks, whose rider waited for the starter to give the word. Tammany passed the wire first, but when the starter informed the judges that he had not started the horses, there was loud complaint from the holders of Tammany tickets. The horses were returned to the five-eighths post to run over again and the fresh Carrie Crooks took the race.

LAWYERS DISBARRED.

Jefferson, Mo., July 2.—Judge Sherwood filed an opinion in the supreme court today in the disbarment proceedings instituted by Attorney General Walker against Col. E. M. Harbor and A. G. Knight, of Trenton, two of the best-known lawyers in the state, in which both are permanently disbarred from practicing before the supreme court.

The action was based on a murder trial pending as a review by the the supreme court. When the case was called for argument the attorney general discovered that a transcript of the testimony had been mutilated so as to destroy all identity of the murdered person. In brief, the record had been so doctored as to leave the state without a case.

ST. LOUIS TRIAL.

Washington, July 2.—Commander Bradford and Lieut. Milligan are preparing for a trial of the steamer St. Louis, to see if she will come within the terms of the subsidy act. She will be given much the same trial as is given the warships. She has already made the required speed, but not with officers on board to report it to the navy department. The regulations of the department require the ship to make 20 knots per hour for four consecutive hours.

FOR SOUND MONEY.

Atlanta, Ga., July 2.—The Cordell Sound Money League has received from Secretary Hoke Smith his acceptance of an invitation extended to him to deliver an address there on the currency question. The League promises the secretary a big crowd and an enthusiastic reception and announces that the sound money sentiment is rapidly growing in this state.

RELIEF TO FARMERS.

Spokane, July 2.—Cool weather and light showers are general in this section. The change from hot days and dry northern winds, is a great relief to the farmers. Spring wheat which was suffering from the heat, is reviving. It is now believed that the crop will be quite up to the average all through the Palouse and Potlatch countries.

RAILROAD SOLD.

Toledo, Ohio, July 2.—At noon today the Toledo and Ann Harbor and North Michigan road was sold at auction under a decree of the federal court. It was purchased for $2,627,000 by R. C. Martin, representing the bondholders. The company will at once be reorganized.

SENATOR VEST ILL.

Sedalia, Mo., July 2.—Senator G. Vest, left tonight for Carlsbad, Germany, for the benefit of his health. He has been ailing for two years.

## RAILROAD SITUATION

### Mr. Hammond Expected to Arrive Today.

### ATTORNEY SAYS ALL IS READY

### Seaside Railroad Complication May Detain Him Longer—D. K. Warren Goss to Portland.

The time is approaching when construction upon the railroad will commence. The latest advices indicate that Mr. Hammond will arrive today. His attorney, Mr. Fred Strong, of Portland, was in the city yesterday and it is understood that he thoroughly examined the guaranty bond on the right of way and other legal documents connected with the enterprise and that he advised his chief by wire that all the papers were in proper shape and that everything was ready for his acceptance. It is also stated by those in position to know that Mr. Strong advised Mr. Hammond to come to Astoria at once.

Late arrivals from Portland state that the Flavel Land Company subsidy matter, concerning which exclusive information was given in Sunday's Astorian, has been arranged to the entire satisfaction of Mr. Hammond, and that the corrected papers are now on the way from Boston.

There is one matter, however, which may interfere with Mr. Hammond's arrival today. Mr. D. K. Warren, who while in Portland last week, made a proposition to the O. R. and N. Co. to lease and operate the Seaside railroad for the season of 1895, according to previous agreement, left last night for Portland to confer with that company in regard to closing the deal. Mr. Hammond will have to formally accept the Seaside road today and deposit the money in the Astoria bank or lose the use of the road this season. As he has been advised of Mr. Warren's trip to Portland he may possibly think it best to remain with Mr. Warren, should he desire to prevent the O. R. and N. Co. from acquiring the lease of this property.

In any event active operations are near at hand and as Mr. Hammond stated in his telegram Sunday, when he does arrive in Astoria he will not keep the people waiting.

THE WATER COMMISSION.

The water commission held a regular meeting last evening all members being present except S. Elmore.

The clerk's report showing water rates for month of June, amounting to $1,477.85, was read and ordered filed.

The superintendent's report was read and ordered filed.

The treasurer's report, showing cash on hand of $146,374.38, was referred to Messrs. Fisher and Elmore.

Proposition from Astoria Transfer Co. to furnish engineers with horse and cart was accepted.

Proposition from James Alexander for removal of earth in old reservoir lots was accepted.

Communication from Wolf & Zwicker, of Portland, relative to hydrants was read and ordered filed without action.

The monthly estimate of the Pacific Paving Company, for June, amounting to $6,198, was read and ordered that $5578.20 be paid.

Money due Simon Normile for street clearing in city limits amounting to $1531.13 was read and order made that $1530.59 be paid.

The engineer's pay roll amounting to $502.20 was ordered paid.

The pay roll of the city water works for the month of June, amounting to $348, was ordered paid.

The following bills were ordered paid, after which the commission adjourned: C. S. Gunderson, $9.70; D. W. Burnside, $6; Willamette Tent and Awning Company, $15.50; Lars Bergevik, $9.25; A. L. Adams, $3.10; Charles Schiossen, $3.50; Gas Light Company, $1.95; E. R. Hawes, $1.42; West Shore Mills, $2.25; Astoria Transfer Company, $14.25; R. Strauss, $5.40; Griffin & Reed, $21.55; J. S. Dellinger, $4; B. F. Allen, $2.50; Budget Publishing Company, $2; W. T. T. Co., $3.25; C. J. Palmberg, $4; O. R. and N. Co., 50 cents; Fisher Bros., 45 cents; Astoria Railway Company, $175; Astoria Iron Works, $79.65; Finlayson Shipping Company, $5.50.

IN THE CIRCUIT COURT.

Yesterday in the Circuit Court in the suit of F. A. Powell vs. the Astoria and Portland Railroad, judgment was rendered for the plaintiff and ten days given for motion for new trial.

In the matter of the application of F. Feakes for habeas corpus, after argument the case was taken under advisement by the court. In this connection it may be said that Mrs. Feakes Sunday returned from San Francisco. She stated that she had made a satisfactory settlement with the street car company of San Francisco for the death of her little girl. She said she was willing to pay the amount of the debt for which her husband was arrested.

"It is a great wrong for any one to say that we intended to leave the state, and that my husband desired to shirk his debts. All my property interests are here and it would be ridiculous to go away and leave it. I have paid the last installments to the building association, and I own the store where my husband carried on business—the business is mine and not his. Great damage has been done me by the constable closing my place. Goods have spoiled and new goods on the dock are rotting for want of a store in which to dispose of them. I think it will be my turn now to get some damages for the injury imposed upon us."

In the case of C. M. Cutbirth vs. C. P. Graham judgment was taken by default.

In the suit of L. Lebeck vs. Charlotte Fosberg the demurrer was overruled and until Monday given in which to file an answer.

THE WATER WORKS.

Chas. Lucas, contractor, of Portland, was yesterday awarded the contract for the stone work on the water gate, power house and the lining of the tunnel. Mr. Lucas returned to Portland last night and will arrange his forces and plans for the work. Some twenty men will be engaged in this part of the work, which will commence about the middle of the month. Three barge loads of rock, sand and gravel will be sent down from Portland in a few days, for this part of the work. Mr. Behm is still in Portland but will return before long to Astoria.

Mr. Parelli, the contractor on the head works, has gone to Portland on business and will return with fifty more men who will go into the new camp at the 12-mile post.

The reservoir excavation is now within three fet of the bottom, and all of the dirt will be out of the large basin by the 10th inst.

RECEPTION TO MISS BAYLES.

Last evening at the residence of Mr. C. E. Bayles, a pleasant reception was given by the teachers of the Court street school, with the assistance of the neighbors, to Miss Maud Bayles, recently returned from school at Monmouth, where she carried off the honors in a class of fifty-five. The event was a complete surprise to Miss Bayles, and a delightful evening was spent in music and recitations.

The Misses Trumbull, McCue, Ross and Busey, and Mr. John McCue assisted in the entertainment.

During the serving of the refreshments numerous toasts were responded to by Prof. Wright, Miss Bayles, Miss Trumbull and Mrs. Gearhart.

The night editor was also most agreeably surprised at midnight by receiving a generous dish of ice cream and a basket of cake. Such surprise parties do not come amiss.

THE MAZAMAS.

Mr. A. J. Johnson, the well known botanist, will leave Astoria the evening of the 5th for his trip to Mt. Adams. At Portland he will join the party of Mazamas and all will proceed to Mt. Adams. After making the ascent of this peak, they will go to Hood river, where they will be joined on the 12th by those who were unable to make the entire trip, and go to the summit of Mt. Hood. The trip to the snow line of Hood will be made by special stage by moonlight and the ascent commenced next morning. Two days will be spent on the mountain. Mr. Johnson is particularly anxious that as many Astorians as possible will go with him, or meet him at Hood river. Mt. Hood is the pride of Oregon and the trip will be a grand one.

READY TO DO HIS PART.

"And now will somebody in the audience accommodate me with the loan of a cavalry sword, asked the professor of magic, stepping to the front of the stage and rubbing his hands in pleasant anticipation.

There was no response.

The professor repeated his request. Same result.

"I am sorry," he said at last, after waiting several minutes, "that I shall be unable to perform my advertised feat of swallowing a sword, but you will see, ladies and gentlemen, that it is not my fault. I will now proceed with the wonderful performance of the magic egg-bag," etc.

MORE IMPORTANT BUSINESS.

Breathless Messenger—Ruggles, I have been looking for you everywhere! Your house is on fire.

Ruggles (intently watching something across the street)—I'll be along in a minute. I want to see how they're going to get that safe into that fourteenth story window.

HUNG TO A TREE.

Guthrie, O. T., July 2.—At Pine Hollow on the line of the Creek reservation, two unknown men were found hanging to a tree. Pinned across their breasts was a placard reading: "So perish all horse thieves." Scores of horses have been stolen in that neighborhood and it is supposed the farmers caught the men and lynched them as a warning to others.

SPAIN WATCHFUL.

New York, July 2.—Spanish officials keep a close watch of all steamers arriving at Cuban ports from the United States. The Norwegian fruit steamer Kongfwod, which arrived today, reports that while at the port of Banes, she was boarded by Spanish soldiers who kept a vigilant guard over her until she sailed for this port.

ATTEMPTED SCARE.

New York, July 2.—Renewed efforts were made today to depress values on the stock exchange by circulating rumors of prospective gold shipments. It is true that a banking house which does business with Cuba expects to send gold to Paris, which has been received here in transit from Havana.

LETTER FROM CLEVELAND.

New York, July 2.—A letter from President Cleveland will be read with the Tammany Society's Fourth of July celebration. It is said that in this letter the president touches upon the financial and political condition of the country.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE
