Jupites or Saturn may be able to discount it Perhaps, and perhaps not. It is pretty full of people who are continually tinker-ing with themselves—patching themselves up—so to speak, in a medicinal way. If they are constipated, bilious or dyspeptic they rush to the nearest druggist for a violent purgative. If they are malarious they fly for relief to that ancient but ineffectual reliance—the sulphate of quinine. This is what they shouldn't do. What they should do is to begin and pursue a course of Hossetter's Stomach Bitters.
