MUNICIPAL PATRONAGE.

The New York Evening Post says that "four months' experience in an office which has 1500 places to dispose of has made Mr. Brookfield, the commissioner of public works, an earnest advocate of civil service reform."

WHAT FREE SILVERITES WANT.

Chicago Tribune. Representative James E. Cobb of Alabama is reported by a Washington newspaper to have made the following declaration:

"The one issue in Alabama politics at present is the silver question. I am in favor of the free coinage of silver and gold at a ratio of 16 to 1, and I see no necessity for waiting for an international agreement."

There is a complaint from the police that a certain would-be fast set of young men, some of whom hold respectable business positions, and have respectable parents and connections in this city, while out on a carousal on an early hour yesterday morning, were guilty of a series of acts of hoodlumism and lawlessness which may operate to send them to the jail or penitentiary.

The New York Commercial List attempts to deny the correctness of statements made by the Astorian in regard to the 1 1/2 per cent discount terms offered by Messrs. in reply to the Interstate Grocers of St. Louis, says: "Our very esteemed contemporary, the New York Shipping and Commercial List, is still harping about the National Wholesale Grocers' Association and the salmon discount."

from their opening price, but that the terms of sale so far as the option is concerned are identically the same. Already one packing concern, with a view of advertising without cost, has announced that they will give this year, and next year, and all time to come, a discount of 1/2 per cent, but the proviso that the goods will be shipped eight draft bill of lading attached, is still adhered to, and to cover the discount they have advanced the price of their product from \$1.50 to \$1.52. And yet the Shipping List states that the salmon discount has been definitely settled. It has not been settled. Some few wholesale grocers have made 1/2 per cent on their previous purchases for the present season's delivery, given more as a sop to allay the outcry than anything else, but the main question—that of placing salmon in the same category and terms as other canned products, namely, sixty days or 1/4 per cent off cash, has not yet been attained.

There are sixty-eight bank officials serving sentences in the Kings county penitentiary, of New York; seven men convicted of embezzlement were presidents of National banks; twelve men were cashiers of National banks; and forty-nine other prisoners, who were, when arrested, clerks or tellers in banks. Warden Hayes says: "I have here in my population as able financial and expert accountants as ever lived. If there should be a strike of tellers, cashiers and clerks in any one of the banks of greater New York, I could furnish a complete staff on one hour's notice. I could fit the bank out with a president and a full force down to, but not including the janitor. It is a remarkable fact, which I have verified by looking over the records, that although there it began to receive United States prisoners, twelve or fifteen years ago, a total of 130 bank officers and clerks, we have never as yet had a janitor or watchman or runaway messenger."

ANOTHER GOOD ROADS LAW

New York Tribune.

Connecticut is the latest state to enact a good roads law. The act is a simple one. It provides for a commission of three members to be appointed by the governor, whose duties it shall be to oversee the work of maintaining roads, and assess the cost of the improvement in three equal parts, on the town, the county and on the state. The state's outlay is limited to \$75,000. This is a modest sum, but sufficient to permit a valuable experiment to be tried. The road improving is to be initiated by the towns themselves; after the roads are selected it is for the commissioners to see that the work is properly done and the cost duly apportioned. But even this scheme is not viewed with entire approval throughout the state. One local journal ill-tidely remarks that "the new road-improvement law might be entitled an act to relieve country towns of two-thirds the expense of maintaining their roads. This new law will make the people who live in them and who own most of the stock of the principal business corporations pay most of the state's county taxes. This new law will make the cities virtually pay half the expenses of the small towns for maintaining roads."

DEO PAVENTE.

If out of life the flowers that bloom in death, and the roses that bloom in life, kindly words could find no room. 'Tis the trials of each day; If love should die and come no more 'Tis sweet, cajoling tenderness To heal the hurt of woundings sore And touch the lips with no caress.

Pronounced by Physicians the most Favorable in America for Sufferers from . . . Lung Diseases and Rheumatism

Many Remarkable Cures

The objections urged against Indio in the past by the large numbers who otherwise would have been glad to take advantage of its beneficial climate, has been a lack of suitable accommodations. The Southern Pacific Company, takes pleasure in announcing that several

They are furnished with modern conveniences, supplied with pure artesian water, and so situated as to give occupants all the advantages to be derived from a more or less protracted residence in this delightful climate.

(From the San Francisco Argonaut.) "In the heart of the great desert of the Colorado—which the Southern Pacific road traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain invalids, there is no spot on this planet so favorable."

G. T. Stewart, M. D., writes: "The purity of the air, and the eternal sunshine, fill one with wonder and delight."

Nature has accomplished as much that there remains but little for man to do. As to its possibilities as a health resort,—there is the most perfect sunshine, with a temperature always pleasant, a perfectly dry soil for rain is an unknown factor; pure oxygen, dense atmosphere and pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatics. Considering the number of sufferers who have been cured, I have no hesitancy in recommending this genial oasis as the haven of the afflicted."

MARVELOUS RESULTS.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have been healed in accordance with Dr. King's New Discovery as the result of my wife. While I was pastor of the Baptist Church at Rives Junction, Mich., I contracted pneumonia, succeeded by La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if my life would not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work, and satisfactory in its results. Nature has accomplished as much that there remains but little for man to do.
