We publish below an editorial that apis giad that the Oregonian has at last go to pieces. seen fit to recognize the importance of the question, after our own persistent efforts have been noticed and appreciated | New York Tribune. by every trade paper in the United States for several months past. It seems as will have something to say later on:

"There is a well-defined prospect that the term "Columbia river salmon" will as everything else?" His various explosive remarks about Edward Atkinson soon become meaningtess, if its has not Is now no uncommon thing for commission men to be asked by Eastern and Southern dealers for Columbia river salmon which can be sold at 75 or 80 cents a case, whereas no true Columbia river thinook salmon can be provided that the demand in the world. It is not a fixed value, but is more nearly the same in all commercial countries at any given time than that of any other commodity, because of the demand for it in all, and side rivers and bays of the coast, which is sold at prices tess than last year, finds A mountain of gold discovered in Africa ready sale, frequently the demand ex-

ceeding the supply. its place as an inferior food product, sold to such cheap consumers as mining, logging and lumbering camps, cotton and sugar plantations. No one need be surprised at this. It is the logical and inscattered broadcast in Eastern markets knowledge that last fall some of the water deteriorates in color and flavor umbia river labels. Puget Sound canners also ship their packs unlabeled to Astora, Portland or San Francisco, where they are repacked under Columbia river labels.

Decome essent ally demonetized—it is no longer the instrument with which most of the buying is done, or necessary in most of the buying. It is the measure of value only because the world's commerce finds it convenient and profitable to express values of other commontation in

The result of all this is, of course, that, wherever the Columbia river salmon trade has been established and brands become knows, there is a serumble to supply such like it, and its glory has departed.

This is the situation and it calls loudly for a remedy. Self-interest, one would think, should prevent the practice. But it does not, and the evil seems to be on

Mr. Edward Atlanton shows in a re-Mr. Edward Atkenson shows in a recent article that the revenue of the government in 1880 was \$4.825 per head and the expense \$5.286; in 1880 the revenue was \$7.837 and the expense \$4.936; in 1890 the revenue was \$6.877 and the expense \$4.746; in 1890 for the last quarker, and \$1.25 for the second quarter of last year, and \$3.25 per \$1.000 for the same quarter in 1891. in 1894 the revenue was \$4.455 and the ex- 1883.

newspaper published on the Columbia ed and another issued to the new owner.

Several hundred leases of Indian lands for grazing purposes have just been signed by Secretary Hoke Smith; and in a majority of cases the lessees are his relatives and friends, who obtain these 'plums" at lower prices than have been offered for them by other persons.

According to the report of the commis stoner of education, there were 15,530,268 pupils in the public schools of the United States last year. This surpasses the record of any other nation, and shows why our country takes the lead in popular intelligence.

The truth about the Democratic party is that so long as it was out of power it was able to conceal its inefficiency, peared in yesterday's Oregonian on the but as soon as it was put in control of subject of bogus salmon labels. The As- public affairs, its melancholy lack of torian represts it, principally because it capacity was disclosed, and it began to

GOLD NOT THE BUYER.

An indignant correspondent, disgusted with the Tribune's statement that the for several months past. It seems as though our Portland contemporary, heedful of its past stience, has determined to know: "Has gold a value or not? Unjump into the maddle of the maltier with both each ful of its past stience, has determined to know: "Has gold a value or not? Unjump into the maddle of the maltier with both each full of its past stience, has determined to the contemporary in the statement into the through our not into the maddle of the maltier with his to the maddle of the maltier with the statement into the contemporary in the contemporary in the statement into the contemporary in both feet, but in doing so it has in one of gold should be discovered in Africa, would there not be an immediate advance in all prices?" "If the term dollar is a mere arithmetical expression, why the objection to the saver dollars?

soon become meaningtess, if its has not and greenbackism will not interest the already done so. To such an extent public any more than they interest the has the business of packing inferior Tr.bune, but the questions asked merit under false labels grown that it notice.
Gold has value, which, depends upon

for less than \$1, and from that up to \$1.55. The Columbia river canners are also complaining just now that sales are dull for their best product, while the cheap grade of salmon of the outside of the coast, which the cheap grade of the coast, which the coast is the most widely accepted measure of value.

after the world's demand for any other These facts indicate that Columbia river salmon, instead of being held to a high mark as the king of food fish, eligible to the tables of the well-to-do, who can afford to pay for a good article, is suffering a degeneration and taking but strictly a commercial expression, and has all over the commercial world a definite meaning with reference to price of commodities expressed in pounds, france or marks. The precise root of trouble, in case of degradation to a silver prised at this. It is the logical and inevitable outcome of the reckless fashion
in which a poor quality of fish has been
scattered broadcast in Eastern markets formity with changes in the buying power bearing the choicest brands of Columbia of pounds, marks or francs, but would river canners. It is a matter of common fluctuate with the button price of siver Increase of productive power and ac cumulated wealth do not tend to cheaper Columbia river canners packed the fall gold or commodities either, but to raise the value of both. More buying power, chinook what the neck steak is to the tenderloin, and which, after once in fresh prices. But if the things have increased more than the buying power, it is th other way, relatively more things t very rapidly, in cans bearing attractive be bought with relatively less power to labels, stating that they were packed at buy means lower prices. That happens this and that place on the Columbia river. Another practice which is growing is that salmon on the Southern Oregon rivers and bays are packed under Columbia rivers and that place on the Columbia rivers and that practice which is growing in the fact; human products increase more chizan unexpended wealth, so that prices tend downward. Gold has to take rivers and bays are packed under Columbia rivers and bays are packed under Columbia rivers and bays are packed at the fact; human products increase more chizan unexpended wealth, so that prices tend downward. Gold has to take rivers and bays are packed under Columbia press values of other commodities in terms of gold.

The greenbuck theory is absurd, be-cause it sets up a pretended measure of value which has no relation, and is distinctly intended to have no constant retrade and fill orders for such brands us world's prices are made. If we cut adrift cheaply as possible. The result is that the world's commerce, we only rob our the first-class and higher-priced satmon is hindered or stopped in its sales by the spurious and cheaper article. The next thing is that the Columbia river salmon itself to discredited, consumers no longer purell with the quantity of things to be highly the consumers to be compared to the constant of the constant of

TRIGHTER PROSPECTS.

The reports of the commercial agencies, growing every year more complete, bear it does not, and the evil seems to be on the increase. The righteously indignant packer of one year may be the mercenary scounded of elective. Probably the only recourse will be the law, with a penaity, half of which will go to the informer. Canners would appeal to law who now content themselves with mild imprecations. Washington has a stringent law on the subject, which is said to work effectively in practice."

growing every year more complete, bear growing every year more complete, bear sirving testimony to the improvement in business. The detailed report of faitures in Dun's Review shows a decrease of nearly 1,000 in the second quarter of 285 compared with the first quarter, and a dicrease of \$6,000,000 in liabilities. In states that the commercial liabilities were \$83,300,944 for the half year, against \$10,730 for the list year. ress \$34.38, against \$3.74 for the same quarter last year, and \$191.87 for the sac-

pense \$5.386. He maintains that, with proper economy, an increase of revenue to \$5 per head will in fifteen years y.eld a surplus of \$1,000,000,000, which may be used to pay off the public fiebt.

Slips from Europe are reaching American ports loaded down, and the indications are that they will have to take half loads or go back in ballast. American mineffecturers have got to cut wages to meet European prices or close their works. It is reported in an East-tern journal that the White Granite and
