Soft Lake, July 23.—A special to the Tribune from Cheyenne says: The first advance of an authentic nature from the scene of the Indian troubles in the Jackson's Hole region reached Governor Richards today in the shape of telegrams sent by courier from Marysville, Wyoming, to Marked Lake, Idaho, from Adjutant General Stibber, of the governor's staff, who was sent into the region to investigate the troubles between the Indians and the whites.

THE FEELING IN ENGLAND. Washington, July 23.—Assistant Secretary Curtis, of the treasury department, who went to London to deliver to Messrs. Rothschild the foreign quota of bonds in the recent gold syndicate sales, returned to Washington today. In the course of conversation regarding his trip, Curtis said: "I found the feeling regarding investment in United States stocks, bonds and other securities, both public and private, better than I expected. There is a very large amount of money in England awaiting investment, and I am satisfied that if holders were assured that the value of what they bought would not be reduced by legislation regarding our currency, that large amounts would flow to this side of the water and an era of great prosperity would follow in this country."

Portland, Or., July 23, 7 p. m. Hon. Alfred Kinney, Chairman Committee of Direction, Astoria, Or. Mr. Fulton has informed me of the success of your committee in closing subsidy. I leave for Astoria tomorrow night to commence work. (Signed) A. B. HAMMOND. Mayor Kinney's message in reply to that of Mr. Hammond fittingly demonstrated that the mayor has the interest of all Astorians at heart. It was full of feeling, expressing in a way that is all his own, the voice of the people in regard to their final outlet from the wilderness.

IN WALLER'S INTEREST. Washington, July 23.—C. Kennedy, who has become the principal counsel in the case of ex-Congressman Walker, now serving a sentence in a French prison for violation of the neutrality laws between this country and France, called at the state department today for the purpose of presenting a certain phase of the case. Kennedy is disposed to lay much stress on the fact that at the time of Walker's arrest there was no actual state of war between France and Madagascar. He contends that Walker for this reason could not have been guilty of the charges on which he was tried and convicted.

SUPT. IRWIN AT TACOMA. Tacoma, July 23.—At the institute of teachers of the Indian schools tonight, Hon. G. M. Irwin, state superintendent of public instruction for Oregon, delivered a scholarly address on "Duties of the state with reference to Indian Education."

DUMAS' FUTURE PLAY. Alexander Dumas, at 70, tells the story of "La Dame Aux Camelias"—the how he, a youth of 20, had a romantic attachment for Marie Fiesli, a woman who had been famous in her day in Paris, but who was dying when he knew her. It was only the love of a poetic and softened boy. He hardly knew the woman by sight. She was nothing to him but a romantic ideal, and yet he followed her to the grave and wept tears. Had he known her probably all the glamour would have evaporated and his story never have been written. It was not "the truth, the bitter truth," as Stendhal called it, but simply boy's poetry.

A YOUNG BUSINESS MAN TALKS. Mr. H. Norris, vice-president of the Northwest Steam Refinery, is a successful young business man. He says: "At the age of twenty I took my first life insurance, and after paying for it for ten years I have no hesitancy in saying that I consider it a serious mistake on the part of any young man to think that he can save his money better advantage than to place a portion of them in such an excellently managed life insurance company as the Equitable has proved itself to be. The amount it has cost me is a mere trifle compared to the satisfaction it is constantly giving me. I consider my life insurance amongst my most valuable assets, and I shall add to it from time to time."

THE SEVENTY-FOUR WINDOWS IN THE YACHT Standard, ordered by the late ear and just finished, cost \$15,000. The vessel is one of great beauty.

ASTORIA WILL NOW BEGIN TO REALIZE THE BENEFITS OF HER NATURAL POSITION and will take the place that she deserves in the commerce of the world. Situated upon the best natural port of the Pacific coast north of San Francisco, at the mouth of the great Columbia, she will be the terminus of more than one trans-continental railroad. Terminal rates will place her upon an even footing with all other commercial centers of the Northwest, and stretching out her arms of steel through the valleys of the Columbia, the Nehalem and the Willamette, she will gather in the traffic of the great states of Oregon, Washington and Idaho. Her graineries and elevators will add the wheat of the Northwest, which will be distributed to all points of the
