General Coppinger Ordered to Jackson's Hole.

But Department Will Be Prepared-Carlisle for President, But Says He Does Not Want the Honor.

Washington, July M .- Orders have been telegraphed to General Coppinger, at troops as he should require for carrying out the request of the department of the interior to prevent a conflict between the Indians and the white settlers in Jackson's Hole and to return the Indians to their proper reservations.

General Coppinger is instructed to pro eed to the scene of the disturbance and personally direct the operations of the troops. General Coppinger may obtain troops from the Department of the Colorado of Columbia, if considered neces-

The following clause of the treaty whereby the Bannock Indians were located upon their present reservation shows the right of the Indians to hunt

"The Indians herein named agree that hey will make said reservation their nent homes and they will make no manent settlement elsewhere, but they shall have the right to hunt uninterrupted on lands of the United States so long as game may be found thereon, and so long as peace exists among the whites and Indians on the borders of the hunt ing grounds."

Now that trouble has broken out the hunting privilege is suspended by the terms of the treaty.

PROBABLY NO DANGER.

Washington, July 24.-Afr. Pierce, father of one of the Princeton students, who are forming a geological exploration party in Wyoming, today received the following telegram:

"Fountain Geyser, Wyo, July 24 .- All safe. Twelve, park, Friday. Address Washakie. Arrived Casper seventh. Signed, Pierce."

This telegram shows that the party is returning by the route over which they entered the park, and shows that they do not think there is any danger to be approhended from Indians.

GENTRY MAKES A HOT RACE.

Freeport, Ill., July 24.-Ten thousand people saw John R. Gentry pace all around Joe Patchen this afternoon. The track wise fine when the race was called, but rain fell at himes. After scoring twice they got the word in the first heat, Gentry taking the lead from the wire and was never headed to the finish, although Curry held Patchen not far back of him, until they passed the three-quarter pole, when Gentry pulled away and finished a length ahead in 2:04 3-4. Gentry went the first quarter in 30 seconds; had in 0:59% (which is the fastest half mile ever paced in public); three-quarters in 1:30. Paitchen threw a shoe after passing the half mile post, or he would have driven Gentry out in 2:02, as McHenry

pulled Gentry up in the stretch. In the second heat Gentry again took the lead with Patchen close up. At the three-quarter pole Patchen again threw a shoe, and Gentry jogged to the wire in 2:06 3-4. In the third heat Gentry's time was 2:09 8-4. The race was for a purse of \$3,000, the winner to take all.

CARLISLE FOR PRESIDENT.

Richmond, Va., July 24.-A representative of the "State," in an interview with Secretary Carliste, said that many Democrats regard him as a strong man for president and regard him as the only leitimate successor to Mr. Cleveland. "Well," responded the secretary, "notwithstanding the fact that the presidency is the greatest honor that can be bestowed, I do not want the honor. I have seen too much of hard work attached to it. One must have an iron constitution to stand it. I will certainly do nothing tow-

ard getting the nomination." "How about the third term talk? Many people are expressing a desire to see Mr. Cleveland nominated again next year." "As close as I am to the president," that subject in my presence. I know no seno needed. more about it than you do. But as Mr. Cleveland did not seek the nomination of 1892, it seems reedless to may that he will not be a willing candidate next year, I know he did not want to run last time." DURBANT'S TRIAL TO BEGIN.

San Francisco, July 24.-The trial of ment will be resumed tomorrow. The district attorney will present affidavits stating that Durrant can have a fair trial here and it is expected a change of vertie witt be sheried The county fall is besieged with women

Catholic priest, and it is said he will em brace that religion. The funds for his defense are said to be supplied by relatives in Canada. MINERAL LANDS.

Washington, July 24 .- The June reports

the character of public lands in Montane

and Idaho, are being received at the in

of the twelve mineral commissioners, ap pointed by the last congress to ascertain

> terior department. The commissioners are divided into four parties. Three parties are in Montana and one in Idaho. They have been able to examine and report on about 30,000

acres out of a total of some ten million submitted for their adjudication. Commissioner Lamereaux, of the general land office, computes that it will take then five months to ride over the perritor; with no stops for examination of th land. The appropriation for this work is limited to \$20,000 and the monthly ex penses are about \$4,000. So far about one fifth of all the land examined has been certified to by the secretary.

NEGRO COLONY IN TROUBLE.

Washigton, July 24.-Bad news has been tled on a tract of land near Tlabualilo A telegram was received at the state department this morning from United States Consul Sparks, at Piedras, Nesras, stating that the negroes are in a deplorable condition.

### CHOLERA IN JAPAN.

London, July 24 .- Advices by the Empress of India from Japan are as follows: During the 24 hours ended at noon on July 10, 224 cases of and 123 deaths from cholera were reported throughout Japan. This being a total this year of 5358 cases, 999 on the steamers chartered by the army and 2891 deaths. New clothes are beinst furnished to the Chinese prisoners of war, now in Japan, before returning them to their own country. The suifs to be given the officers cost 25 yen each; those for the non-commissioned officers and privates 13 yen. About 1000 men are to

be "rigged out" thus in European clothes.

GREAT NORTHERN CHANGES. Seattle, July 24 .- The Great Northern Railway officials in St. Paul are now making a thorough reorganization of the western passenger and freight departments, with a view to keeping thom entirely separate. The new office of general western passenger agent will be created, and R. C. Stevens, general passenger and freight agent in this city, will be promoted to the new position. His territory will embrace the whole of Washington, Oregon and California.

### CHRISTIAN ENDEAVORS.

Portland, July 24.-It is quite possible that Portland will receive the big Christian Endeavor convention for 1897, despite the fact that the meeting has been given to San Francisco. The convention was awarded to San Francisco upon the same condition that the '96 convention was awarded them, which was that a suitable railroad rate be secured; but as San Francisco failed this year it seems not improbable she will fail again.

### PETROLEUM AGREEMENT.

St. Petersburg, July 24.-It is announce ed that an agreement hus been reached at Paris between the American and Russian petroleum firme, which control all of the kerosens trade of the Mediterranean, and Norway will be given to Russia. So Says a Railroad Man Portland.

CAN'T GET WHEAT SHIPMENTS

Thinks Railroads Will Not Make Rates to Astoria-Situation Explained to the Gentleman.

A well known railroad official who visited the city yesterday, in commenting upon the new railroad to Astoria, said that he did not think the time would ever come when the wheat of the Northwest, or any part of it, would be loaded for foreign shipment in this city, and that, without the wheat shipments the railroad would be of little value either to its owners or the city. When asked he replied that certainly the Northern Pacific would not deliver wheat from the Pulouse country to the Astoria road for shipment from that port as against its own ports on the Sound; that the O. R. and N. Company, even should it have trackage arrangements from Portland over the Northern Pacific to Goble, to connect with the Astoria road, would not join in the application of Puget Sound rates on grain from the interior to Astoria because the truckage expense would be prohibitive. The reply to this position held with Mr. Hammond, chronicled in

yesterday's Oregonian: "It is 60 unites from Astoria to Goble, over the route surveyed," said Mr. Hammond, 'and we will have the road completed inside of a year. There will be be held this year in September, at Provino delays now. We will build the road dence, R. I. to Goble to connect with the Northern Pacific. If suitable traffic agrangements cannot be made with the Northern Pa-Astoria is now assured of a railroad. The people of that city have done their part! now I will do mine.

"One thing I want to say," continued Mr. Hammond, "and that is that the people of Astoria-every one of them-can stand up and feel that their individual work secured the road. I never mow such patriotism and energy. They deserve a ratiroad if any community ever did. By our contract we are given three years to complete the road. It will be finished

during 1896," Mr. Hammond and party of twenty will arrive coday on the steamer Telephone about 1:30 o'clock. The committee expect to meet the party at the dock in a suitable manner. In honor of the occasion Mr. C. W. Shively erected, last evening, in his front yard, a huge libdrty gole. Not all the women of the last generation were mindless dolls. There was, for irstance, Miss Phoebe Brown, of Matiock, England, as noted by Wilkam Hutton in 1801. Her common dress was a man's hat, coalt, with a spencer above it, and men's shoes. She could lift one hundred weight with each hand and carry fourteen stone. Her voice was more than masculine, it was deep-toned, and, the wind in her face, she could send it a mile. Yet she had no beard. She could sow, knit, cook, spin, but trated them all; she accepted any land of manual labor, but her favorite avocation was breaking in horses at a gunen a week. She was an excellent judge of a cow, and shot accurately with a gun. Her cited food was milk, and she was fond of Mation, Pope and Shakespeare. This admirable female also performed neatly on the flute, violan, trappichord and bass viol. She could cover easily forty miles a day, and when a gentleman at the New Batta treeted her rudely she said that "she had a good mand to have knacked thim down.
