Snap A Kodak. at any man coming out of our store and you'll get a portrait of a man brimming over with pleasant thoughts. Such quality in the liquors we have to offer are enough to PLEASE ANY MAN. Come and Try Them. HUGHES & CO.

IS THERE?

Is there a man with heart so cold, That from his family would withhold The comforts which they all could find In articles of FURNITURE of the right kind. And we would suggest at this season, nice Sideboard, Extension Table, or set of Dining Chairs. We have the largest and finest line ever shown in the city and at prices that cannot fail to please the closest buyers.

HEILBORN & SON.

ASTORIA IRON WORKS. Concomby St., foot of Jackson, Astoria.

General Machinists and Boiler Makers. Land and Marine Engines, Boiler work, Steamboat and Cannery Work a Specialty. Castings of All Descriptions Made to Order on Short Notice.

John Fox, President and Superintendent. A. L. Fox, Vice President. O. B. Prasad, Secretary.

They Lack Life

There are twines sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.

C. J. TRENCHARD, Agent Wells, Fargo & Co. and Pacific Express Co. HOME and PHOENIX INSURANCE CO'S. Custom House Broker and Commission Merchant. 502 Bond Street.

Kopp's Beer Hall. Choice Wines, Liquors and Cigars. KENTUCKY WHISKEY. Only handed over the bar. The largest glass of N. P. Beer. Half-and-half, 5c. Free Lunch. Chas. Wirkkala, Proprietor. Cor. Concomby and Lafayette Sts.

THOMAS MOKKO. The Blacksmith whose shop is opposite Cutting's cannery, is now prepared to do such odd jobs as making new cannery coolers, repairing old ones, making new fishin' boat irons, and repairing old ones, and all other blacksmithing that requires first-class workmanship.

Carpenter Shop. Your mind is on repairing your home this spring, possibly on building a new one. If so, remember we are carpenters and builders with a shop full of tools always willing to do such jobs and want your work. MILLER & GOSNEY. Shop on Iwaco Beach.

The Dove-Tail Coat. It's the Height of Fashion. It's the dressiest, neatest thing extant. When you get a new suit, see my new line for Fall in these styles, as well as all new lines of Men's or Boys' Clothing, Furnishing Goods, Hats, Caps, Boots, Shoes, Trunks, Valises, at prices from 16 1/2 to 33 1/2 per cent less than elsewhere. I. L. OSGOOD, The One Price Clothier, Hatter and Furnisher. 506 and 508 COMMERCIAL STREET, ASTORIA, OR.

I. L. OSGOOD, The One Price Clothier, Hatter and Furnisher. 506 and 508 COMMERCIAL STREET, ASTORIA, OR.

MUSIC HALL. KEATING & CO will open their Music Hall at 239 Astor street, Saturday the 16th. They will keep numberless good liquors and cigars besides having good music all the time.

KILLED BY INDIANS

All of the Jackson Hole People Murdered.

TROOPS HURRYING TO SCENE

A Courier Reports Passes Guarded by Indians—Bandit Captured—Siletz Reservation Opened.

Salt Lake, July 26.—A special to the Tribune from Pocatello, Idaho, says: William Ross, of the firm of Ross, Gray & Wyatt, has just arrived at Market Lake from St. Anthony, and reports everybody in Jackson's Hole killed this morning. It is considered authentic news, and the excitement is intense. United States troops from Cheyenne will arrive in the morning at 6 o'clock and will leave at once for Market Lake and thence by wagon road for the Fall River country. Courier Sargent arrived in Market Lake this morning from the vicinity of Jackson's Hole. He left a companion noted for his bravery who intended proceeding into the Hole if possible, and return with the news. He is expected at Market Lake tonight. Sargent reports all passes guarded and is afraid his companion will not be able to obtain entrance.

BRADY CAPTURED. The Noted Bandit and Murderer in Custody.

Sacramento, July 26.—The capture of Jack Brady, the bandit, murderer and farmer's boy, near Sacramento, naturally created quite a sensation in Sacramento, and large crowds of people were in and about Sheriff Johnson's office all afternoon hoping for a chance to see the noted criminal. When Detective Thatcher called at the jail, Brady said: "How do you do, Mr. Thatcher?" "How do you know my name?" asked Thatcher. "Oh, I was in the saloon near the corner of Third and K streets in this city a few weeks ago when you came in. Some one remarked 'There's Thatcher,' and I ducked out of there."

Brady says he lodged here for a week and was at Stockton, also, about three weeks. His capture, which was made by Deputy Sheriff McDonald and William A. Johnson, under the bridge near Franklin in this county, was an easy one. They got the "drop" on him while he was hiding under the bridge and he had to surrender. Yesterday he was driven by hunger to the little town of Freeport and the officers were notified. When Brady was arrested he had in his possession a sawed-off shot gun of the pattern usually carried by express messengers. It was the identical gun which had been stolen from the express train which was held up near Lodi a few nights before the train robbery. It will prove one of the strong links in the chain of circumstantial evidence and convict Brady. The gun was today identified by Wells, Fargo officials as belonging to the express company.

GENERAL STITZER'S REPORT. Salt Lake, July 26.—A Tribune special from Cheyenne says Adjutant General Stitzer made his official report to Governor Richards today, on the Indian troubles in the Jackson's Hole country. The report is made by wire from Market Lake, Idaho.

The adjutant general arrived at Marysville on July 19th and on the next day had a conference with Agent Teeter, of the Fort Hall reservation, and about fifty settlers of Jackson's Hole. Captain House, of the Shoshone Indian police, was also present. The conference between Teeter and the settlers was very unsatisfactory and created bad feeling.

In an interview with the grievance committee, consisting of four prominent citizens of Jackson's Hole, on the 21st, the committee gave detailed statements of the actions of the Indians for the past six years, as to how they had acted in lawless ways in the wanton destruction of game in the country. These Indians belonged to the Bannock, Shoshone and Lemhi tribes. The settlers had finally determined to demand the observance of the law.

The Indians had recently defied the constituted authorities, and several had been killed. Some of the Indians who were arrested a short time ago had escaped after several had been killed. The agent at Fort Hall had given the settlers to satisfaction and claimed that they had a right to hunt on timber lands of the government.

The adjutant general says the recent wounding of Captain Hall has aroused anew the slumbering excitement of the settlers and may result in another conflict between the whites and Indians.

KANSAS WANTS JUSTICE. Topeka, July 26.—Governor Morrill has addressed a letter to President Cleveland again calling the attention of the federal government to the arrest of John L. Walker by the French government. He says: "The people of our state feel that a great outrage has been perpetrated on one of its citizens. It is not a question of race or class; it is a question of American citizenship and through me the peo-

ple of our state appeal to you to take immediate active measures to secure justice to our fellow citizen. It is reported through the press that France has denied a respectful request on the part of the United States government to visit Mr. Walker and to furnish a copy of the charges on which he is alleged to have been convicted."

FISH STILL RUN WELL

They Will Probably Continue Good Till Season Closes.

A SHORTAGE OF STEELHEADS

Many Eastern Buyers Are Beginning to Purchase More Rapidly Than Before.

As the salmon season draws to a close matters in connection with the size of the pack begin to assume a slightly more healthy appearance. Since our last report the run has remained exceptionally good and comes very nearly, if not quite, up to the record of the same week last year. This run has now lasted for very nearly three weeks and must compensate the packers considerably for the unprecedented slackness of the three weeks preceding it. Steelheads have fallen off considerably and the pack of this variety of fish as well as that of bluesacks will be very short. The most remarkable records during the week have been shown by the sailing outfit, some of which have sent in to the various canneries daily catches that have never been known before the present season. The gilt net boats are doing well, but there has been a slackening up in the catch of traps. Fishing is to a great extent being done at night, on account of the unusual clearness of the river, which makes day work impossible. This night fishing will continue to the end of the season. Another two weeks will see the closing up of all operations on the river, and as that time draws near it becomes apparent that the Astorian's estimate of a shortage of from 70,000 to 100,000 cases will be proved correct. Orders continue to come in from most of the commercial centers with increased rapidity and movements of carload stock from this end continue to be brisk. During the past week fully 30 carloads containing over 25,000 cases have been sent out for delivery. Competing railroad lines continue to give better service and quicker receipts than at the beginning of the season, a state of affairs that is much appreciated by shippers. Several of the local canneries are already making preparations for fall fishing, both here and in a number of outside Oregon streams, and there is every prospect of a fair fall catch. Salmon continues excellent in quality with a perceptible average increase in weight, which runs now fully 30 pounds. A large number of Eastern houses are rousing themselves to the fact that their orders, much longer delayed, cannot possibly be fully filled and in the last few days telegraphic and other instructions from leading jobbers and wholesalers have made it apparent that the closer the tenth of August draws near the bigger will be the rush for goods. We quote today as follows: Spring catch, straight Chinooks, \$1.30 to \$1.50 for tails, and \$1.50 to \$1.75 for flats. Two-pound regular tails with key, \$1.10; Bluesacks, 1-pound tails, \$1.25; 1-pound flats, \$1.50; Chinook ovals, for export—market closed; for home consumption, \$1.75 to \$1.95.

Our Victoria correspondent says: "The sockeye run on the Fraser River up to the time of writing, has been fairly good, although the run has, so far, given no reliable indications of what the season may be expected to be. During recent years the run has commenced later and later, but this season has seen a return to an earlier date, such as was formerly expected, and generally without disappointment. Now it seems to be a question as to whether or not a resumption of the earlier dates of running may not be anticipated. A few fish were seen in the river about the first of the current month, from which date up to about the 19th there was a very encouraging increase in their numbers. As there were comparatively few boats out the fish at first appeared more plentiful than when, later, the main body of fishermen got to work. Under ordinary conditions, taking into account the fact that the run commenced earlier, the packing season should be at its height today, but since the fish fell off in numbers after the 19th inst., this is not the case. However, encouraging news comes from Point Roberts, which seems to indicate that next week, at the latest, there should be plenty of fish in the river. It is not anticipated though that this season's pack will be a heavy one, some experienced men thinking it unlikely it will attain to much more than one-half the proportions of last year's. So far the canneries operating have handled from 100 to 200 cases of sockeye's each, and on the 19th inst., the first shipment of this season's fish was made by Ewen & Co., who got away about 1,200 cases, consigned to the English market."

DETROIT RACES. Detroit, July 26.—In the pace today Hal Pointer, Masoot and Rubenstein started. Pointer and Masoot sold for \$50 each and Rubenstein for \$7. After the first heat Pointer sold as a favorite against the field at 25 to 1. Rubenstein was almost neglected in the books. When he took the second heat, however, he became even money favorite, and in the fourth heat was at prohibitive odds.

Pointer took the first heat in hollow style. After that it was all Rubenstein's, although Masoot gave him a brush in the fourth heat. Rubenstein won easily. Best time, 2:06.

SILETZ RESERVATION. Corvallis, Or., July 26.—But meagre details of the opening of the Siletz reservation to settlement, at noon yesterday, have been received. The latest news from the scene is that every thing is quiet. Many settlers came in to the reservation over the Salmon River route, entering the reserve from the north, and the number cannot be ascertained.

It is estimated that 200 boomers are scattered within the borders of the reserve, looking for locations. Probably over a hundred filings will be made all told.

BRADSTREET'S WEEKLY. New York, July 26.—Bradstreet's tomorrow will say: The most striking feature of the business week are the influence of improved crop prospects and the continuing large demands for iron and steel, with one of the largest makers in the market as a buyer of Bessemer pig. Most of the commercial and industrial features of the preceding week are retained. Commercial travelers are being sent out in all leading lines and reports from those quarters appear to meet expectations.

TROOPS ON THE WAY. Washington, July 26.—The war department has been informed from the headquarters of General Coppinger at Omaha that four squads of the Ninth Cavalry, under Major Chase, from Fort Robinson, will probably arrive at Market Lake, Idaho, the nearest station to and about 70 miles from the Indian troubles in Jackson's Hole, at 8 o'clock Saturday morning.

MARKET REPORTS. Liverpool, July 26.—Wheat—Spot, firm; demand, poor; No. 2 red winter, 5s 5 1/2d; No. 2 red spring, 5s 9d; No. 1 hard Manitoba, 5s 14d; No. 1 California, 5s 8d. New York, July 26.—Hope—quiet.

ROBBERY IN ALASKA. Port Townsend, July 26.—Advices from Kodiak, Alaska, state that the Alaska Can Co's store at Gutchuck, was robbed on the 24th inst. Other furs valued at \$5,000 and \$200 in cash were taken.

A larger proportion of flat oval cans is being used this season than heretofore, although the old style of can is still being extensively filled. The pack of spring salmon totalled about 5,000 cases on the Fraser this year, the bulk of which has been shipped. The establishment of the Texas Lake Ice and Cold Storage Co's works at New Westminster has proved a distinct commercial benefit, and a decided advance in the direction of providing further facilities for the handling of fresh fish. Not only has frozen fish been sent by rail to eastern markets, as in former years, but shipments for London, Paris and Australian cities have been made by the Canadian-Australian steamers to Sydney, from which port the consignments for Europe have been sent on to their destination. It is only reasonable to suppose that the demand for frozen sockeye's, as well as for spring salmon, for the cities named will increase largely.

Our New Westminster correspondent says: Close upon 2,000 boats were out last night, and the catch exceeded 12,000, or 1,000 cases. As near as can be estimated the catch averaged close on 80 to the boat, which was considerably less than anticipated after the unexpected run of Friday night. The Sunday close season allowed the heaviest of the rush to get up the river before they could be fished. The pack is now about 6,000 cases.

DUN'S WEEKLY. New York, July 26.—E. G. Dun & Co's Weekly Review of Trade will say tomorrow: It is not the season for the tide of business to rise, but there is scarcely any shrinkage except that which comes naturally with the midsummer heat. The volume of new business is small compared with recent months, but large enough to encourage more openings of long closed work and more advances in returns to labor. Important strikes show that the advance is not enough for some, but the strikers seem not more threatening than a week ago. Accounts of the shrinkage in the yield of wheat come from both the Pacific states and from the Dakotas. The failures for the week were 20 in the United States against 20 last year and 27 in Canada against 24 last year.

THE DURRANT TRIAL. San Francisco, July 26.—Two jurors were today accepted and sworn to by W. H. T. Durrant for the murder of Bianche Lamont. The two are J. J. Truman and Thomas W. Sieberlich. Truman is a well known municipal reformer, head of the civic federation, and a banker. Sieberlich is a dealer in boots and shoes.

NOT THE MAN. Santa Cruz, Cal., July 26.—W. E. Barrett, who confessed that he was the Emanuel church murderer, is recovering from his mental derangement, and denies the story he told, and says he can prove by an alibi that it was impossible for him to be the guilty one.

BASE BALL. Pittsburg, July 26.—Pittsburg, 9; New York, 4. Cleveland, July 26.—Cleveland 11; Boston, 1. Cincinnati, July 26.—Cincinnati, 6; Philadelphia, 5.

LONDON'S RAILWAY CONGRESS. It Was the Largest Ever Seen in the History of Railroading. E. T. Jeffrey, president of the Denver & Rio Grande railroad, has returned from the international railway congress in London. Concerning the congress President Jeffrey says: "The congress was the largest ever held in the history of railroading. There were 36 delegates present from England, America, Germany, France, Italy, and every country in the world where there is a railroad. The Americans, representing the leading railroads of the Western Hemisphere, numbered only about thirty, which was considered entirely too small a representation, considering that the United States has nearly half of the entire railroad mileage of the globe. John M. Tracey, general manager of the New York Central, read the speed record of the Empire state express, which was far ahead of anything that the oldest and most experienced of the English or Continental railroad managers had ever heard of. The statement that 101 to 104 miles an hour had been made on special runs by steam trains astonished the leading men of the railroad world. We are trying to have the next congress held in the United States. The first was at London in 1886, the next at Vienna in 1887, then Paris in 1889, and St. Petersburg in 1892. The headquarters is in Brussels."

The Cincinnati Tribune divides the night-drove-into occupants of vacant chairs into two classes—the little boys who didn't know it was loaded and their little brothers who didn't know it was so deep.

AN ESSENTIAL FEATURE. When you take life insurance do you business with a reputable agent of a reputable company, and you will have no cause for regret. Mr. L. Samuel, of the Equitable Life, has been a resident of this state for over a quarter of a century, and is favorably known to nearly every Astorian. Associated with him in business is his oldest son, Eugene P. Samuel. Every contract entered into by them is carried out to the most minute detail.

Highest of all in Leavening Power.—Latest U.S. Gov't Report. Royal Baking Powder. ABSOLUTELY PURE.
