Remember these Directions for using Cottolene. For shortening never use more than two-thirds as much Cottolene as you would of lard. When frying with Cottolene always put it in a cold pan, heating it with the pan. Cottolene produces the best results when very hot, but as it reaches the cooking point much sooner than lard, care should be taken not to let it burn—when hot enough, it will delicately brown a bit of bread in half a minute.
