"Sometimes," says a Philadelphia bar-keeper, "a bad coin is a very good thing to have. We had a brass ten-cent piece here for two years that was worth \$1 a week to the bar. I knew the man from whom it was taken, and of course, gave it back in change. He was a good customer before, but much better still afterwards. Two times a week he would come in and either give me that brass coin or get it given to him. One day the proprietor looked through the drawer and, finding the bogus piece, threw it away. When I told him it was worth \$9 a year in the house he kicked himself. We use only lost the coin, but the customer as well. He felt hurt—because I couldn't give him our best piece."
