They Lack Life There are twins sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as the wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.

ASTORIA CRICKETERS Easily Win the Game With Portland Yesterday.

REQUITAL WINS THE FUTURITY The Track Was in Splendid Condition and the Race Was a Very Exciting One.

Special to the Astorian. Portland, August 24.—The Portland Amateur Athletic Club's eleven was snowed under in today's championship cricket game by the Astorian eleven. The Portland team was plainly outclassed and outplayed at every point by the visitors. After the Portland inning closed with only 13 runs, the interest in the game died out and it was simply a question of how high Astoria would run up their score.

The bowling of Wilkinson, of Astoria, was a feature of the game. He succeeded in making 8 wickets for two runs in the first inning. He bowled three men with three consecutive bowls, a feat seldom accomplished. Wilkinson and Tee made the top scores for Astoria, piling up 23 and 21 runs respectively.

ROAD PARLIAMENT. Washington, August 24.—The following statement was given out at the agricultural department: The secretary of agriculture is charged by an act of congress to collect and disseminate information concerning public roads. To this end he has organized a "road parliament" to be held in Atlanta on the 17th, 18th and 19th of October, 1895.

THE MONEY MARKET. New York, August 24.—The New York financier says this week: The statement of the associated banks of this country for the week ending August 23 was a favorable one in every way. It was marked by a healthy increase in loans, contraction of deposits and consequent shrinkage in the conditions herebefore prevailing in the money market. There has been no advance in rates but railroad developments point to an early season of better figures for loans. The movement of money from the interior did not entirely cease the shipments from this center to the South and West, more especially to the latter section.

WISCONSIN BANK Antisocial Financial Circles by Failing. A Kenosha, Wis., August 24.—The financial circles were astonished this morning to notice a card that appeared in the window of Dan Head & Company's bank saying: "The bank closes on Monday." Dan Head & Co., bankers, were incorporated with a capital stock of \$750,000 and advertised that the stockholders were worth \$2,000,000. The bank was to have been reorganized July 1.

THEIR ARREST ORDERED. Salt Lake, August 24.—A special to the Tribune from Cheyenne, Wyo., says: Governor Richards today requested the authorities of Natrona county to arrest the members of the Princeton gold strike expedition if evidence could be secured that they had been killing big game. Professor Hatcher, H. Forsyth, Little and S. B. Davis, of the expedition, reached the railroad at Casper on their return trip yesterday from the Yellowstone Park. They reported having killed many deer and antelope and these reports reaching the governor he at once ordered their arrest.

THE BALL GAMES. Brooklyn, August 24.—Brooklyn, 18; St. Louis, 4. August 21.—Boston, 11; Pittsburgh, 8. New York, August 24.—New York 8; Louisville, 4. Washington, August 24.—Chicago, 9; Baltimore, August 24.—Baltimore, 2; Cincinnati, 5. Philadelphia, August 24.—Cleveland, 11; Philadelphia, 5.

THE DURRANT TRIAL. San Francisco, August 24.—The trial of Theodore Durrant for the murder of Blanche Lamont will be resumed Monday when the last 200 names of the 500 veniremen drawn for the criminal service will be used, leaving the venire completely exhausted. As it is improbable that three jurors can be secured from the remaining 300 veniremen, it is practically certain that a special venire will have to be drawn to secure the three additional jurors needed to try Durrant.

MARKET REPORT. Liverpool, August 24.—Wheat—spot, quiet; demand, poor; No. 2 red winter, 4s 2d; No. 3 red winter, 3s 9d; No. 1 hard winter, 4s 2d; No. 2 California, 4s 2d. New York, August 24.—Hops—Dull and weak; 1884 crop 40¢; common to choice, 1884 crop, 45¢.

THE GREAT BULL FIGHT. One Bull Killed, When All Parties Were Placed Under Arrest. Cripple Creek, August 24.—The first day of La Fiesta de Cripple Creek has passed, a success in every detail. The program was carried out and the bull fight was all that had been promised, a fight to a finish in true Mexican style. Capt. Cheche and charming Chivella, famed in old Mexican bull fights, were the principals in the contest. Arizona Charlie was there and three capadores who fight with the red cloak and banderola, who throw sharp spears into the neck and the picadores, who fight with long spears on horseback. The bull was there and he met his death in the heroic fashion that has characterized the bull fight of Spain for centuries past. It was

EXPRESS THEIR VIEWS Prominent Dealers and Owners Talk Real Estate.

THE CONCENSUS OF OPINION Organization Should Be Effected and Proper Advertising Done to Advance Astoria's Interests.

Much talk and speculation has been indulged in recently in real estate circles regarding the proposition to form an association to control and govern the business of handling property in Astoria. Yesterday an Astorian representative obtained the views of a number of representative firms and business men in regard to the subject and some of their expressions are given below:

VAN DUSEN & COMPANY. Think that the general plan is a good one and one that will be commended. The head of the firm states that he does not know enough about the details of such associations to suggest any plans for the conduct of an exchange in Astoria, but thinks that the scheme should be adopted and that if properly carried out it would result in great benefit to all concerned.

DR. J. A. FULTON. When asked his opinion as to the advisability of forming an association of brokers and dealers for the maintenance of reasonable prices upon property and the prevention of frauds upon the public, Dr. J. A. Fulton said that he believed such an organization was necessary, both to protect people coming in and to protect property owners. He also thought that plans should be speedily adopted and that good would result to all concerned.

W. B. ADAIR. Stated that he was handling only his own property and knew nothing about such associations and had not studied their methods of operation but that it might be well for the responsible real estate men to consider the question and to form some association upon the plan of other exchanges.

R. L. BOYLE & COMPANY. The head of this firm is very earnest in his opinion that such an exchange should be formed composed of the representative dealers and property owners and that such action should be taken as would insure the maintenance of the city and prevent the injuries that are so apt to be perpetrated by irresponsible dealers and those who only have in view the making of a dollar for the moment. He says that uniformity in the one object desired and that all should unite in securing it. From the history of other cities such action is imperative to secure the best results and cannot be taken too soon.

A. B. HAMMOND. Before leaving for Portland Friday morning Mr. Hammond stated that he believes in such a movement and that if an association of the kind was properly conducted it would be most conducive to the best interests of the town. If such an organization is established he will give it his support.

A. R. CYRUS. Said that the plan was a good one and would fill a long felt want, if the association could be effected on proper lines and be properly maintained. "I really think it for the best interest of the city and the property owners to have an organization for the mutual protection of agents and property owners. Whenever a boom comes there is always a great number of irresponsible parties who are working only for the money they can get at the present time and care nothing for the future of the place, thus they do a great deal of injury."

"Curstons brokerage is legitimate if carried on right, but the trouble is that it is not always carried on right. Mr. Cyrus believes in having all the real estate men possible and encourage them as long as they do a legitimate business. "I have thought a great deal over this real estate exchange matter," he said, "and while there are many who would go into it who might not live up to the requirements of the rules, means should be found to make all regard the rules. I am also in favor of acting on a general plan in laying out additional lots and platting of the property on the west side of the bay, where probably the first decisive movement would be had."

JUDGE TAYLOR. Said that he really did not know enough about the real estate business to express an opinion or suggest any plan of action, but that he believed that the general plan was one that should be carried out. "There is no doubt but what there should be some concerted form of action among real estate men and an effort should be made to keep up a respectable association and to prevent as far as possible every form of fraud. People who come in here should not be led astray. I know of people who came here three or four years ago who were woefully deceived, and these things do not do us any good. "Real estate men should be required to deal fairly with their clients as well as lawyers. We have bar associations and medical associations to see that none but creditable men are allowed to practice these professions and I do not see why
