A bid of \$500 was also made for the building occupied by Carlson & Co., on Bond and 10th streets, but was refused. This building will be sold on Saturday next. The property belongs to the estate of the late L. W. Case and was sold by the assignee.

**J. P. WEBER.**  
"Alphabetical" Thinks Astoria is All Right.  
The local insurance men yesterday entertained Mr. J. P. Weber, general agent in this city for the Pacific Coast branch of the Home Mutual Insurance Company. Mr. Weber is one of the wide-awake, bright insurance men for which the Pacific Coast is noted.  
To an Astorian representative Mr. Weber stated that the business of the insurance companies in San Francisco was not as good as it might be, owing to the recent war between the companies, but that it will only be a short time before it will recover. The new San Joaquin Valley real estate will generally be sold on a new railroad in Astoria will set the wheels of prosperity in motion here. The prospering in the iron industry will lead all other industrial lines of business, and a general improvement in all departments of trade is imminent. The iron trade in the Pacific Northwest has been for five years. Speaking of the Northwest Coast, Mr. Weber said that he was here last October and that all business was now being done on a great improvement. The recent light in insurance rates was a bad thing for the companies, but that matters have been changed up now they are being very difficult. The general outlook in all lines of business, he says, is certainly very much better. Payments are being made more promptly and money is far more easy than it has been. The only trouble on the Pacific coast is the lack of confidence, which is rapidly being restored.

**ABOUT COWARDS.**  
The Truth Seeker.  
Here is a little talk between a boy who is a great hunter for his age and a lady of his acquaintance, which shows that cowardice sometimes depends upon the way things are looked at.  
"Well, you think the rabbit is a coward, is the most awful coward that there is in the world. My! How he does run from a hunter."  
"So you think the rabbit is a coward, eh?"  
"Why, of course."  
"Well, let us suppose a little. Suppose you were about six or eight inches tall!"  
"And had good, strong, swift legs?"  
"Yes."  
"And didn't have any gun, and a great big fellow came after you who did have one. What would you do?"  
"What should I do? I should streak like lightning."  
"If that you would, and I think, too, that you would have your own idea as to who was the coward."

**ARTIFICIAL ODOR FOR FLOWERS.**  
Flowers that have lost something of their perfume are now scented artificially by water from a fountain which is connected with a little glycerine to fix the odor. Thus, for violets the liquid is composed of 100 grammes of glycerine and ten grammes of essence of violets. In many places white scented violets are comparatively rare, the unscented kinds grow wild in great profusion. These are now brought up in large quantities, scented artificially and put in the market in advantageous competition with the perfumed violets grown by the horticulturist. Cut flowers which have been wilted from time to time or transported are revived by being plunged into a weak solution of salt ammonia. Flowers which have little or no scent are also perfumed by being put into a box with ice and then saturated with a current of carbonic acid charged with perfume.

says: "Now that the Astorians have a reasonable certainty of getting a railroad a new trouble looms up before them, that of losing their town. It appears that certain wise ones of that city of expectations have made the discovery that the heavy purchasers of real estate at Flavel by men who are back of the new railroad proposition, means that the railroad company will do all they can to transfer Astoria to the opposite side of Young's Bay, where a new town has been laid out.
