They Lack Life There are twines sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—endurance—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.

FINE RACING IN PORTLAND. Two New Bicycle Records Made on a Poor Track.

One mile, Class B—J. F. Staver won; J. M. Campbell second; time, 2:11 4-5. This breaks the record by four seconds. One mile, Class A—C. E. Dwyer won; J. C. Morgan second; time, 2:14 1-5.

RUSSIA LOOKS AHEAD. The czar's gift to Montenegro has a Warlike Aspect.

London, August 31.—(Copyright 1895 by Associated Press.)—The czar's gift of 30,000 modern rifles, 15,000,000 cartridges, rapid firing guns and ammunition, which the czar recently made to Montenegro has created much talk throughout Europe and in some quarters the czar's action is looked upon as being a menace to the peace of Europe and that Russia intended to complete Montenegro's preparations for war by the time she herself is ready for action. A diplomat of high standing has been interviewed and said he did not believe war was imminent but he thought it to be more of a possibility to be taken into account now than at any time during the past six years.

Another Hold-Up. But the Lane Highwayman Didn't Find Enough for a Drink.

Milton, Cal., August 31.—The stage running between Astoria and Portland was stopped on its down trip today at Palatos Hill nine miles east of Astoria, by one highwayman who wore a long linen duster and whose features were concealed by a mask. He was armed with a rifle. After ordering the driver, Fred Wilson, to throw out the wooden box he commanded the two male passengers who together with the driver, were the only occupants of the stage, to dismount and one of them to take the wooden box and hammer for the purpose. No valuables of any kind were secured by the man and the passengers were not molested.

SWIFT PUNISHMENT. The French Government Rebukes a Too Zealous Officer.

Washington, August 31.—The navy department today gave out the following: "As a sequel to the Castine-Tamavie incident, concerning the landing of officers and men, information has just reached Washington that the French authorities with credible promptitude, sent Captain LaVoiat because of his conduct in that affair, to 30 days solitary confinement in the military jail at Tamavie. It is understood furthermore that he returns to France with the results of his investigation concerning the matter, which makes his punishment to him personally a very serious one."

TROOPS ORDERED OUT. Impending Misch., August 31.—Learning that the striking miners had given forcible opposition to the deputies who have been chosen to guard the steam shovellers, who are coming from outside points, it was today decided by the local authorities to call for troops. Seven companies of state militia have been ordered out and are moving toward Impending tonight.

THE WOOL CROP. Boston, August 31.—The Industrial Record today says: "The National Association of Wool Manufacturers will publish the results of its investigation concerning the wool clip of the United States for 1895. HILL IS CONFIDENT

Says the Northern Pacific Deal Will Go. PEARSALL TO BE DEFEATED A Message From Seattle Last Night States That the Decision Has Been Reached.

Seattle, August 31.—On Monday night Judge Hanford will announce his decision in the suit of Brayton Ives, president of the Northern Pacific Railroad Company, to oust the present receivers, Oakes, Payne and House.

J. J. Hill, president of the Great Northern, returned to St. Paul from New York last week and his statements in regard to the Northern Pacific deal are most interesting as published by the Pioneer press.

J. J. Hill is home. He is liable to return to New York at any time. When asked last night at his residence by a Pioneer Press reporter regarding the Great Northern-Northern Pacific deal he replied that it was still in good shape. When asked if it was in as good shape as it ever was, he replied in a trisyllabic "Certainly."

"What about the legal complications?" he was asked. "There will be none of a serious nature," he replied. "I see that one of the stockholders has brought suit against us. But that doesn't amount to much."

"You refer to Pearsall of New York?" "Yes. We shall defeat him on his own ground. He thinks that the proposed deal would be inimical to his and other interests, but he is evidently mistaken. Most of the Great Northern people think otherwise, and we shall defeat him."

"Then you expect no legal obstacles to the consummation of your deal?" "None. The deal will be carried out as proposed."

"How is the reorganization progressing?" "It seems to be progressing very well." "How long should it take?" "I cannot tell. I have stated to you before and to others for publication no less than twenty or thirty times that it can only be consummated by the security holders of the Northern Pacific."

"What are the differences between you and the Northern Pacific people as represented by J. Pierpont Morgan?" "None. J. Pierpont Morgan has nothing to do with this. He may represent some of the underwriters, but they will come in afterwards. People who were about the fence between myself and Mr. Morgan are writing for space."

"What is the actual amount of guarantee of our so-called rental?" "Six million two hundred thousand dollars." "Is it a fact that the Northern Pacific people demanded \$7,000,000 and also \$5,000,000 security?" "It is not a fact, and all reports to that effect are wind."

"Mortgage—Foster, Pattillo, Johnson, Bowley, Robertson, Terry, Blythe, Austin, Cobly, Whitehead and Lawrence (captain)." "The visitors will arrive here on the telephone this morning and will be immediately taken in hand by the Astoria boys who will entertain them as best as they can. Dwyer, with spacious barges attached, has been chartered to make two trips from her dock tomorrow afternoon, the first at 12:30 and the second at 1:30, and all arrangements have been made to accommodate a large crowd. For several days the A. P. C. has had men employed making a turf pitch—only one in the state and the players who use it tomorrow will find it a great improvement on the grounds of either the T. A. C. or the M. A. C. It is the same, and whichever way it goes the public can be assured of a splendid exhibition and a close fight all through the article on its merits call attention to the fact that in the state of Pennsylvania alone there are over 300 cricket clubs, with an average number of games every week amounting to 125, and that New York state has now 180 separate clubs, an increase of 100 per cent over the number in existence three years ago."

TO WHOM IT MAY CONCERN. Notice is hereby given that we have been selected as the Astoria agent for Messrs. Wannamaker & Brown, Philadelphia, Pa., and that we are now prepared to take measures for any suits, overcoats, pants for professional men, and all other clothing that is the latest in the world. The house of Wannamaker & Brown is recognized as the largest establishment in the United States and their tailoring department is the most complete in the world. A complete line of samples and fashion plates has been received and we are authorized to guarantee a perfect fit; that should certainly be sufficient. HERMAN WIBE, The Reliable Clothier and Hatter, Near Telephone dock.
