Articles of incorporation of the Clatson County Co-operative company were filed yesterday in the office of the county clerk. The incorporators are August Nordberg, Sofus Jensen and J. W. Auerg and the principal place of Lusiness is Astoria. The object of the company is description. The capital stock is \$5,000

Suit was brought yesterday by D. K. Warren, assignee of L. W. Case, against R. N. Carnehan and C. S. Wright, and as a result the store of Carnahan & Co., on Bond street, was attached and places in the hands of the sheriff. The suit is brought to recover on a note for \$3,875, with interest at 19 per cent from March 21, 1893,

Do you wish to enjoy yourself? Go to Erickson's. Do you smoke? Then don't forget Erickson. Do you drink? Keep a coming. Solomon evidently wasn't onto the fact that new things are not always desirable. When it comes to wines and liquors, for instance, the good old stuff

Harry Hamblett's new sideboard arived yesterday and was put in place. The new piece of furniture is one of the best in the city or on the coast. Made of mahogany and quartered oak, with panels of beveled German plate mirrors, it is certainly very stylish and very to Tongue Point and examined the line. makes a brilliant sight under the electric lights. C. W. Bayles is doing the fitting, and E. R. Hawes the plumbing.

A Skamokawa valley farmer named P. J. Olsen was drowned in Skamokawa Creek yesterday morning, about 6 o'clock. Olsen, in company with several others, was running logs to fill a raft. Olsen went up the creek a half mile or more pike pole was found by one of the men on the end of the creek. A search for the body was immediately begun, resulting a few hours later in its discovery in the creek. How the accident happened is unknown. Deceased was 43 years of age, and leaves a wife and five children

The resolution passed at the recent council meeting to enforce the ordinance in regard to painting telephone and telegraph poles erected along the streets of the city, will have the effect of greatly adding to the appearance of the town and removing the aspect of nakedness. These poles are unsightly enough under the best of circumstances, but a good coat of paint makes them look much better and the companies will no doubt co-operate with the authorities at once and help make the town as presentable as possible

In addition to its complete report of the in this city will be able to watch the progress of the race at every step. The time allowance will appear at the head of the builetins, so that the actual position of the yachts can be easily figured.

TO EXAMINE THE GOBLE ROAD

S. Huson and J. O. Barlow, of Tacoma, Will Be Among the Bidders.

liquors, for instance, the good old stuff is preferable—Erickson keeps it. Kopp's famous beer on draught. Don't forget the place—Erickson's, Asior street, between 6th and 7th.

In the city, from Tacoma, looking over the railroad proposition and will make bids for the contracts about to be let. One of them, Mr. H. S. Huson, was formerly first assistant chief engineer of the Northern Pacific railroad, and built many miles of that road. The other gentleman is Mr. J. O. Barlow and is as sociated with Mr. Huson in the propose contract for construction of the Astoria handsome, and when dressed with the new cut glass decanters and glassware, be done in the construction of the tunns

To an Astorian representative Mr. Huson said: "Tacoma is picking up very materially. Business has been dull there for a long time but now there is a very marked change for the better. The foreign traffic and shipping between port and the Orient, has exceeded the hopes of the most sanguine, and the refrom where the others were working to drive logs, and was not missed until his industry alone gives employment to an industry alone gives employment to an anny of men, and every day hundreds any of men, and every day hundreds and on the docks with their dinner palls, giv-ing evidence of enterprise and prosper-

"What do you think, Mr. Huson, of the Northern Pacific receivership tangle?"
"The questions now being agitated in the courts over the Northern Pacific receivership matter, have caused little stir in Tacoma. Few have taken much interest in the case, and fewer know any-think about it. It seems to me that some serious complications may arise and many interesting points he raised. It looks very much as though there might be two or three sets of receivers in con-trol of the property under the different courts. The question of county in the matter of primary jurisdiction in re-ceivership cases where ratroads pass through several different federal jurisdicions, has been a mooted one. remember that some years ago when the international yacht race today, which Wabash was in the courts, Judge Greshwill of course appear in tomorrow 10-n- am, now deceased, differed in opinion ing's paper, the Astorian has completed from the courts where orders were first arrangements with its Associated Press entered, and appointed separate receiventered, and appointed separate combination and the Western Union Tel-egraph Co. for full bulletin reports at every stage of the contest. These re-dependent of the receivers of the road ports will be placarded outside the office in Illinois. It is possible that the East-as soon as they are received, and people ern courts, which have jurisdiction only

"What do you think of the Astoria railroad project and the possibilities of the future of this port?" "Astoria has long needed a railroad, and with the Gobie road completed and connection made through the Nehalem | In Other Words, Just What is with the Oregon Central, taken togethe with your unsurpassed harbor, the possibilities of Astoria's future are limitless,

Your Condition?

DON'T TAKE ANY CHANCES CARO.

A Most Unusual Conversation With a Great New York Professor Reproduced Verbatim-Does It

Apply to You?

(New York Exchange.) I am fortunate in knowing a prominent professor of this city. He is a man of deep research and world-wide papularity. It is seedom that he unbosons himself,

ut he did so to a circle of friends and

myself the other evening. This is what e said: "It is surprising how rapidly the condi ions of life are changing in America. "Do you mean, Professor, in the manner of living?"

"Yes, and also in the manner of lying.
The habits of life, the nature of work,
even our diet is different from what it
was fifty or even ten years ago." "Do you think, then, the change has seen for the better?"
"Yes and no. We undoubtedly have a igher state of existence now than formerly, but for this very reason we are open to greater dangers. We have mod-ern diseases as well as modern improve-

ments," "Do you consider them serious!"
"Undoubtedly. A greater strain or presure in life naturally brings greater trou-bles. But above all, and beyond all, is one great difficulty which may be correctly called the modern disease. It is the least understood and at the same Illus the most dangerous of all known diseases. It has no distinct symptoms of its own but has the symptoms of nearly every other disease. Men and women have been afflicted with it for years and did not know what ailed them. They may have had pecudar pains, felt out of sorts, irregular pains, felt out of sorts, irregular pains. ularities, headache and scores of other symptoms, and actually did not know what was the matter until it was, per-

"To what do you refer, Professor?" "I refer to Bright's disease of the Rid-neys, which I consider nothing less than a Modern Monster. Its great danger is in a Modern alonster. Its great databases the very fact that it is so insidious, so sly, if you please, and indeed so little understood. Physicians seem baffled when brought face to face with it, and io not hesitate to admit that there is but one known scientific and certain rem-edy for it, whether in its first or last stages, and that remedy is Warner's Sale

The Professor paused for a moment and reflected. Continuing he said:
"You may think that I am railical in making such statements, but I am no. know whereof I affirm, and I know that there are more men and women who have disease of the kidneys in some one of its stages today, than any other known trouble, and I do not except consumption. Why, do you know that many cases of so-called pneumonia are tothing less than the last stages of Bright's disease? And do you also know that if the kid-neys are in perfect condition it is almost impossible for the lungs to be out of of so-called pneumonia are nothing less than the last stages of Bright's disease? And do you also know that if the kidneys are in perfect condition it is almost impossible for the lungs to be out of order, because the kidneys throw the poison out of the system that accumulates upon and rots the lung tissue? Take my word for it, there are thousands or man and perhaus more women, who do men, and perhaps more women, who do not know it, but who are today afflicted with kidney discase, and I only wish they

night be warned in time."
I was much impressed by the Profes ser's carriest words and reproduce them as hearly as possible for the benefit of any one who may perhaps be in such a condition as he has described, and who needs immediate help, and such help only as can be certain to save.
