WHERE WAGES WERE ADVANCED.

At last a genuine, undeniable and important advance in wages has been announced. It is an advance of from 10 per cent to 22% per cent over the former rates, and its benefits are enjoyed by a very large number of workmen. moreover, there is explicit testimonythe first of the kind p precord-that this ment of the Gorman-Wilson tariff. The workmen informed the exultant Welsh mill borses that there would be a strike if they did not divide the swag. They demanded an increase in wages, s restoration to the old figures of 1874, and as the Weish manufacturers are prudent men, who believe in making hay while the

Time was when the South refused to hegard a "tariff for revenue only," as its political Koran. A great upheaval, says the American Economist, reaching beyond the sliver agifation, is going on among a people who have passed through a fiery furnace that seems to have been required to make them even wiser, better and greater than they were before the and greater than they were before the war. Tairty years have sufficed to remove all old prejudices. Reconstruction is a thing of the past.
