They Lack Life

There are twines sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being-they lack strength-life ACREAGE, -evenness-and lasting qualities, Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.

A Closely Contested Race Pulled Off by Dunraven.

DEFENDER HAS AN ACCIDENT

But Manages to Come Within Fortyseven Seconds of Winning the Second Race.

New York, Sept. 10.—Crippled, but still heeling far over in her strength and swiftness, the Defender followed the Vai-kyrie across the finish line today. Less han half a mile separated the two and an anxious eye kept pace, second by acc-ond, with the time indicators as they moved around, and when it was seen that the Defender had not only lost nothing in the last 20 miles of the course but had actually gained a great shout went up for the gallant vessel. There were cheers for the victor, too, but although the Valkyrie was the first chal-lenger since 1871 to lead over the home line, the honor of her performance was lost sight of for the time in the grand effort of the American, for the Amerian heart loves a hard loser in the loses through no fault of his own. It was a grievous accident that ruined the rankee boat's chances, an accident which under the hairsplitting circumstances of lockeying at the starting line looked

The yachts were very close together, snap and a rending sound was heard, A snap and a rending sound was heard, and it was seen that the Defender's fib topsal was flying looss in the wind. The Valkyrie's main boom had swung around and fouled the Defender's rigging. To those who had witnessed the accident and sprang forward at the ominous sound, it seemed as though the Defender trembled with the shock. They saw her topmast bend and her topeals swing over as though it would break away, and a groan went up as though away, and a groan went up as though the brave boat which had won so noble a victory a few days before was wholly debarred from even an effort to secure second. Lightning action was necessary to save the topmast from breaking away completely, for it was already half sprung from its fastening and Captain Haff with a master stroke, taking his boom down to leeward, soon maneuvred her into a safe position and gave chase. The Valkyrie, which had crossed the line first, had gained a good deal by the De-fender's disaster, but had probably little more than half a mile advantage at the end of the first leg in the triangular course over which they sailed. Her gain was something less than four minutes in beat to windward. From that on, however, the Defender, while not perceptibly closing the gap between them, lessened the time and they crossed the line not more than two minutes apart. The Valkyrie according to corrected time, however, won from the cup defender by just 47 seconds. Such an ideal day in the lower bay has seldom been seen. an ideal racing day, but it was one favor-

able to the Britons. Nicholas Kane - airman of the regatta committee, when asked in regard to the alleged fouling of the Defender by the Valkyrie, said that a protest had been entered and that the regatta com-mittee had held a conference with regard to the matter. Commodore Kane did not think that any conclusion in the matter could be reached by the committee to-night, but expected that it could be definitely settled tomorrow morning.

More than one competent witness of the day's sport said, that considering everything the Valkyrie was beaten worse than on Saturday. The Defender gained on her on the second and third leg. As a matter of fact the only time at which both vessels had the same sails set was on the third leg and during that time the Defender gained one minute and 15 seconds. The few champions of the English boat who are left cannot tonight find any consolation in the achievement

of the ship today.

The official time table is as follows: Valkyrie start 11:13; first mark, 12:37:43; second mark, 1:58:10; finish, 2:55:22; clapsed time, 3:55:00; corrected time, 1:55:00. Defender, 11:01:15; first mark, 1:01:25; second mark, 2:01:45; finish, 2:37:40; apsed time, 3:56:23; corrected time,

Thus it will be seen that the Valkyrle yon by 1 minute and 16 seconds on Capsed time and after deducting the 0 seconds which she allows the Defender,

YELLED THEMSELVES HOARSE.

Montreal, Sept. 10,-Thousands of people yelled themselves hoarse in Sturgis street in front of the newspaper offices as soon as the final result of the yacht race was announced. For some minutes when the result was in doubt the crowd groaned, but when the official note was blished it went wild.

DUNRAVEN'S GENEROSITY. He Makes a Princely Offer to the Val-kyrio's Crew.

New York, Sept. 10,-The statement made that Lord Dunraven has offered a cension of 20 shillings weekly to every member of the crew of the Valkyrie should they succeed in winning the Amer-ca's cup. Dunraven's action is without ica's cup. precedent, either considered by itself or from the standpoint of generosity. It is the ambition of his life to place in the hands of his queen the trophy that passed out of the possession of England nearly half a century ago. The ages of 25 members of his crew will average 30 years. They are all strong and healthy and their expectation for life may be set at 70 years. In that time they will each have received £3,120 sterling or \$15,500 and in the aggregate £82,160 pounds or \$100.

the building in a careless manner and that while the policemen were hunting for the clothes of the dead girl the church was open to the general public. CAN'T MAKE TROUBLE ABOUT IT

Washington, Sept. 10.—Although no offi-cial report of the forcible seizure on board an American steamer of Florecio Bustamente by San Salvadorean officials at La Libertad has reached Washington, it is believed here from the presentation of facts made in the report that the seiz-ure was lawfully conducted and that the United States cannot make an inter national issue of the case.

AT THE OPERA HOUSE.

The repetition by the Bacon company at Fisher's opera house last night of "Kidnaped" brought out a large audience who were well entertained by this excellent company. The same cast took part as on Monday night and many encores evidenced the hit made. The orchestra did some good work and Prof. Thielborn is to be congratulated.

Tonight "After Dark" will hold the boards.

EXCITEMENT IN LONDON.

London, Sept. 10.-The excitement in London tonight over the international yacht race off Sandy Hook is greater even than that which prevailed on Sat-urday night. When it was announced that the Valkyrie had crossed the line a victor the enthusiasm knew no bounds. The fact that the race was sailed by the Defender under protest afforded room for some remark, but the general opinion seemed to be that no injustice would be done the British boat.

Mr. Merrick of Portland is Here for Exhibits.

THEY NEED CLATSOP

Enthusiasm Awakened and Many Leading Businessmen and Canners will Respond.

Mr. L. L. Merrick, special agent of the Portland exposition, which is to open next month, is in the city making an effort to raise a good exhibit from Clatsop county—one that will be a credit to the rounty and the state.

To an Astorian representative Mr. Merrick said: "The Portland exposition this year will be a very successful affair and will be the means of interesting thous-It was not what American yachtsmen call ands of strangers in the resources and an ideal racing day, but it was one favor-

world what we can produce on our own soil and the riches of the earth within our borders. Different committees are a work in every section of the state and will labor night and day to make such a fair as has never before been seen in the state. Expert mineral men are now at work in the mountains gathering samples of the rich deposits of ore which are only just beginning to be mined, the forests will be searched for rare wood and the farms will be called upon for their products, the orchards for their luscious fruits.

"I am here to see what can be obtained from this, one of the richest coun tained from this, one of the richest coun-ties in the state. Now that your rall-road is assured and a new era of prosper-ity will be added to the already rich possessions of this favored city and county, teeming with magnificent forests, a sight of whose wonders would make an Eastern lumberman wild with antici-pation, filled with valuable coals and minerals, and possessing beyond all the great fisheries which are better than a gold mine, you certainly cannot afford to let this opportunity pass to exhibi your wealth to the world.

will remain here another duy, going to
Ilwaco Thursday and returning the following day. Mr. Elmore has agreed to send us up 20 cases of salmon, a ful-rigged, fishing boat, twine and webb; Mr. Hanthorn will also send 20 cases of salmon; Mr. Tallant will send salmon if possible, but has promised a fine dis-play of walted saimon in cans and kits: Kerney Brothers will send us samples of wood and of manufactured articles their line. Others are encouraged to what they can, and much enthus'asm seems to have been awakened in the right direction

"What we want of the people here is that they make a creditable county exhibit and show up the fishing industry and your large timber to the best possible advantage. "We will take care of the exhibits sent to us and return them in good or-der, and will have a man on hand to fully explain the process of catchir and canning salmon. We want son fruit also, as well as farm products—the larger the display the better the results. "I will see Mr. Welch, who has so

EZETA WILL NOT MISS HIM

And His Execution Will Not Effect His Plans in the Slightest

Degree.

San Francisco, Sept. 16.—In regard to the surrender of Florenco Bustaments one of Antonio Ezetas lieutenants, whom the United States courts refused to give up to President Gutierrez of San Salvador, by the steamer City of Sydney, to the Salvadorean authorities at La Libertad, General Antonio Exeta does not think that Bustamente will be harshly treated because of his former friendship with Gutterres, but come if

with Guiterrez, but even if "the mon-key," as the captured exile was known, is put away in his hole in the ground for-ever, Exeta does not think it will matter much after all. "Bustamente was not my agent in Mexco or at any other piace," said Ezeta. "He is a half witted man about 60 years of age who was called "The Monkey in the Hole' in Salvador because no one considered him of very much account. He was not a high officer in my army, but just a common soldier attached to the commissary department in the division of General Bolanos, whom he followed to Bennington when he took refuge on board that vessel. I do not think that Gufterrez will execute him, because no one will think him of sufficient importance to hang him. Even if he were hanged, however, it would not affect my of age who was called 'The Monkey in the

It is conceded that Oregon fruit leads the world, but until recently Clatsop county was not particularly noted for its productions in that line. Probably Such Was Bustamente's Title in

of Astoria's Business Men Loss Their Way.

Last Saturday evening Mesers. E. J. Last Saturday evening Messrs. E. J. Smith and W. M. Kelly started out on horseback for Nehalem, where they had some business matters to look after, and thought they would have a pleasant ride as well. They got both business and pleasure, rather more of the latter. After reaching the divide on Necarnay mountain, and having paused awhile to enjoy the grand view of ocean and valley, the deacent was commoned. An elicitude of the state the descent was commenced. An old resident had carefully described to the travelers the trail to be followed, but they found on the south side of the moun-tain hundreds of sheep trais, and, so the story goes, after deep consultation took what appeared to more nearly co form to the directions given them. came on however, and their destination seemed as far away as ever.. An old no ham and eggs. The horses fared well, but the riders went supperless to bed. Early in the morning another start was made and after some hours Nehalem

BEAR IN ASTORIA

Bruin Drinks With the Horses on the

About 8 o'sclock Monday evening, as one of the teamsters at the reservoir was about to water a span of mules at was about to water a span or mines at the trough he discovered a monster black bear quietly drinking at the same place. The mules and the bear, both became frightened and ran in different directions. The bear took to the pipe line ditch and ran along in that for a distance, chased by Contractor Behm and several worknen. Not having time to get any Bear hand to hand, but bruin suddenly took to the brush and was lost to sight in the tangle.

Mr. Bebm says that if any one can catch the bear he would like to have the skin to use as a rug in his office.

With construction con-tracts soon to be let there is little time to waste in the settlement of so important a question.

STATE NEWS.

The Tillamook Advocate has the fol-lowing: "The Valley papers are getting into a hot controversy over the merits and demerits of Hon. Binger Hermann as congressman. Every paper that has a backer with a candidate is affecting to think that Mr. Hermann is not going to be a strong camildate this time, but we opine that when the convention sneets fulness on his part in that position. man has had the place long enough. This might be true from the standpoin of those who view the public officers as chances to draw salaries, and to be given out as favors to our friends or rewards for campaign work. But when the true view is taken, that an officer is elected on account of his fitness and ability and is expected to render in services a 'quid pro quo' for his pay, we can never urge length of faithful service as an objection against an official. The an objection against an official. The same rule applies in civil service as in practical business life. No one thinks of discharging a faithful employe simply because he has held his job too long. A merchant whose clerk knows all the details of his business and works to his employer's best interests, does not displace him to give a new man a chance. A farmer does not discharge the faith-A farmer does not discharge the faith-ful hand who knows his stock, his lands and his entire place thoroughly, to put an untried man at work. In no de-partment of labor or employment is exbrother, W. R. Linvije, which described some remarkably fine plums grown near that place, seventeen of which weighed 19 ounces, and which was thought to be a most remarkable record.

Tom has several plums trees on his residence property in this city and as the fruit is now ripe, several fine specimens were yesterday left with the Actorian. Six of them weighed 27½ ounces, arth their average measurement was at their average measurement was of equal natural ability; in his third aril their average measurement was significant. Six of them weight and measurements were taken in the presence of Dr. Fution and Mr. Rogers. On another siem were taken in the presence of Dr. Fution and Mr. Rogers. On another siem were thirteen beauties, all of which were fit to send to an exposition. These plums are of the variety known as the Hungarian prune, are of a dark red-color and have a magnificent flavor.

Mr. Linville says that the plums are not as large this season as they have been in times past, and that after giving a great many to the neighbors and
