They Lack Life There are twins sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twins as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twins besides Marshall's will do "just as well." They won't. They cannot.

THE CONTEST ENDED

Historic Cup Retained on This Side the Pond.

DEFENDER IS GIVEN THE RACE

General Regret Expressed at the Unfortunate Ending of Races So Well Begun.

New York, Sept. 12.—The international series of the Defender and Valkyrie III for the American cup is ended. On the whole it has been an extraordinary series and while the result is satisfactory to the American people, two at least of the contestants that made up the match were not. Lord Durraven said last night, most emphatically, that he would withdraw his boat on the morrow if a clear course was not provided. He claimed that during the previous races his boat had been greatly interfered with and as everything depended upon the outcome of the third series, he desired to that decision so closely that the Valkyrie merely crossed the starting line and then retired from the contest. The Defender continued on her journey and went over the course well within the limit. By her three straight victories the Defender retains the historic cup.

HONOLULU ADVICES.

Forty-one Cases of Cholera and Thirty-Five Deaths. San Francisco, Sept. 12.—The steamer Australia arrived from Honolulu this evening bringing advice up to Sept. 5. Forty-one cases of cholera have been reported up to date with thirty-five deaths. The disease attacks only the natives. Every effort is being made to stamp it out. No steamers are allowed to leave port without first remaining in quarantine for five days. Passengers must undergo a physical examination.

DURRANT IDENTIFIED.

Minnie Belle Edwards Testifies to the Clothes. San Francisco, Sept. 12.—Minnie Belle Edwards was the important witness in the Durrant trial today. She was a class mate of Blanche Lamont, and after the disappearance of the latter she was outside on the East Side dummy. Blanche carried school books and wore a black serge dress. I identify these books as mine and dress as those carried and worn on that day. The witness also described Durrant's attire on that day. The attorneys for the defense saw Miss Edwards a long and severe cross-examination, but she stuck to her story without a break, positively identifying Durrant as the man accompanying Blanche on the afternoon of April 2. She described minutely how Blanche and how Durrant stood before boarding the car, told how Durrant wore his hat and every change of position he made. She had identified Durrant's portrait when published in the papers and had also identified him at the city hall. She had told her story to her school teacher, and to no one else. To accommodate a juror the court took a recess till Monday.

LOUISVILLE RACES.

Ten Thousand People on the Grounds to See Robert J. Louisville, Sept. 12.—Not only the grand stand, but the capacity of the Louisville Driving and Fair Association was tried today. A fast track and bright sunshine favored the great racing race in which Robert J., John R. Gentry and Joe Patchen were to battle for the supremacy. Ten thousand people were on the grounds. Robert J. the great son of Hartford, came off victorious. But for the fact that Joe Patchen went into the air within forty yards of the wire in the fourth heat, these might have possibly been another ending. Robert J., however, was as steady as a clock and not once during the four heats did he go off his feet. The fourth heat, which was paced in 2:04, established a new record, being the fastest fourth heat ever paced or trotted by any horse.

NOT MUCH DAMAGE.

Spokane, Wash., Sept. 12.—Some fears have been expressed in this wet weather now general over this section, might menace the grain crops. The Spokesman-Review tomorrow will print advices from correspondents at different points, which agree that the damage, at the outside, will be slight. Most of the grain is either in the sack or stack, if part of that unharvested should be damaged it will be in demand to feed hogs.

SENATOR THURSTON ILL.

Halley, Idaho, Sept. 12.—Senator Thurston, of Nebraska, is ill of cholera morbus at Hot Springs here. He went out for a plunge bath yesterday after eating green corn and water melon and soon took to his bed. The worst is feared.

MRS. LEASE ON INCALCULABLE.

Wichita, Kan., Sept. 12.—Mrs. Mary E. Lease, the Populist orator, today is out in an interview filled with invective directed against ex-Senator John J. Ingalls. She said: "Mr. Ingalls' whole career before the public has been one of deceit and false-

hood. Not only is he a political fraud, but he has built up his splendid reputation as an orator by using quotations stolen from French and Spanish writers. His thefts from Hamilton have already been exposed, but other instances of his literary thefts have not become generally known. He is the most erratic, inconsistent, dishonest, pitiful and contemptible figure in Kansas history."

BICYCLE RACES ENDED.

Some Fast Time Made by Titus and Bald. Springfield, Mass., Sept. 12.—The tournament is over. The racing season of 1895 is practically finished, and Bald, Sanger and Newton have firmly established their ownership to the bicycle championship in their respective classes. There was a gathering of 7,000 today and the track was in its best shape. Interest was divided between the mile open, class B, two mile professional and the attempt of Titus to beat his record of last year, when he rode 55 miles, 157 yards in an hour, 12 covered at the end of an hour 27 miles, 166 yards, beating his American record, but not lowering the world's record made by Michael two weeks ago.

TO RAID CHINATOWN.

San Francisco, Sept. 12.—Tomorrow will commence a systematic raid on Chinatown by the federal authorities. Every Chinese laborer who cannot produce a satisfactory certificate, accompanied by a photograph, will be arrested and held to answer under the deportation law, known as the Geary act. The decision of the collector of the port as to the right of the Chinese to remain here will be final.

NIPPED IN THE BUD

California's New Railroad Secured by the Enemy. As showing the far reaching plans and power of influence of the great railroads, the following from the Chicago Tribune in regard to the new California railroad, from which so much was expected in the way of relief in perfecting the arrangements for the construction of a new road through the San Joaquin Valley from San Francisco to Bakersfield, Cal. It was claimed that it would relieve the California people from the clutches of the Southern Pacific monopoly, and force the latter to make fair and reasonable rates. Sugar King Spreckels became a large subscriber to the new road, and nearly \$3,000,000 cash was raised among California capitalists in furtherance of the new project. Expedient progress has been made in the construction of the new line, and rails are now being laid with the prospect of completing the new road by the first of next year.

EDDY TO GET HIS SALARY.

Salmon, Or., Sept. 12.—In the famous suit of State Railroad Commissioner Eddy against Secretary of State Kincaid, to enforce the payment of salary, which was decided in favor of the commissioner some time ago, the supreme court today refused to grant a re-hearing. In the case of Treasurer Weston, of the state normal school, against Secretary of State Kincaid, to compel the payment of the appropriations in bulk, which was set for hearing today, nothing was done except to file a general demurrer to the complaint.

BANNOCK TO GET THEIR GOODS.

Washington, Sept. 12.—The Indian Bureau has granted permission to Agent Tester, at the Fort Hall reservation, in Idaho, to allow certain Bannock Indians to go into the Jackson's Hole district, under a military escort, in search of property abandoned there by them on the occasion of the attack made by the settlers on them.

THE G. A. R. MUDDLE

The Women of the Order Cannot Harmonize.

ST. PAUL TO HAVE NEXT CAMP

The Business of the Men About Finished—Collin Walker Elected Commander in Chief.

Louisville, Sept. 12.—The 30th national encampment of the G. A. R. will be held in St. Paul in 1896, with Collin Walker, of Indiana, as commander in chief. The encampment proper, the Woman's Relief Corps and the Ladies' Circle all began their proceedings today at 10 a. m. and continued in session all day. The gentlemen of the encampment almost completed their work but the ladies of two auxiliaries did not get much done. There has been considerable agitation about uniting them, but the ladies of the auxiliaries are as far apart as ever. In spite of not in purpose, and they will remain divided. The woman's Relief Corps had triumphed on the court on the national officers, restraining them from ousting Mrs. Clark. When the sheriff entered the ladies would not tell him who were officers, but the friend of Mrs. Clark soon posted the officer and the order of the court was served.

RICH GOLD FIND.

Union, Oregon, Sept. 12.—Messrs. T. J. James and Thomas Pope, of the Lodi Mining Co., discovered a ledge of gold quartz in the Cornucopia district, in Union county, that promises to rival the richest ledges of the camp. The ledge is four feet thick. The mine is located about three-quarters of a mile from the town of Cornucopia.

New York, Sept. 12.—New York, 7; Boston, 11. Louisville, Sept. 12.—Louisville, 2; Chicago, 2. Washington, Sept. 12.—Washington, 5; Philadelphia, 17. Baltimore, Sept. 12.—Baltimore, 18; Brooklyn, 5. Pittsburg, Sept. 12.—Pittsburg, 3; Cincinnati, 3.

SHORT INTERVALS OF PEACE.

Only are vouchsafed to nerves weak and unstrung, but when it is braced up and soothed by Fowler's Stomach Bitters, perfect tranquility reigns night and day throughout the nervous system. Nervousness is equally a manifestation of chronic indigestion. In order to the regular action of the Bitters are necessarily adapted. In the general vigor begotten of complete digestion and assimilation, two functions added by this auxiliary of health, the nerves of course share. Nervous people should use it steadily, not at uncertain intervals. The bilious and constipated, and those troubled with malaria, rheumatism and kidney troubles, also derive remarkable benefits from it. The aged and infirm find that it tends greatly to relieve their physical troubles, and persons slowly recovering afterwards after an exhausting illness convalesce more rapidly when it is resorted to. It is, moreover, a capital appetizer.

THE WEST REMARKS EDITORIAL.

"What- ever else may be said, the Broad-Axe is assured that whenever it copies from the West, it will treat its readers to the English language properly used and correctly spelled. Should our contemporary continue to copy all we write about populism, we shall consider ourselves a regular correspondent." And then the West proceeds to give the following excellent example of English: "The Register is seriously offended because we stated that a portion of the paper's owners is democratic. We have been told by leaders in that party that both Rowlands are adherents to the principles of democracy, and that the Register is a party organ. We are told, that he should not change his politics because he had purchased the paper. Such action, if he had fixed political views, was commendable and honorable. Any change of political affiliation for gain, can be as shamefully viewed."

THE DALLIES CHRONICLE SAYS.

The Dalles Chronicle says: "The business men of The Dalles invested about \$50,000 in the boat line, which has undoubtedly saved the producers who have marketed their products in The Dalles, and consumers whose goods have been shipped to The Dalles, many times that amount. The investment thus far has not been a profitable one for the investors, except as they have derived profit by the increase of business at this place, and saving of freight rates. In three years they have received one dividend of ten per cent. If, when the locks are opened, the men who have their capital tied up in the line, should think it wise, without endangering the independence of this city as a shipping point, to withdraw from the steamboat business and leave it to men whose business has been, and is, exclusively in that line, and whose experience enables them to successfully compete with others engaged
