Consumption

is amenable to treatment. Hope, courage, proper exercise, and from the inception of the disease the continual use of Scott's Emulsion of Cod-liver Oil and Hypophosphites, are absolutely necessary.

Keep up good courage, and with the use of this most nourishing and fattening preparation recovery is certain in the first stages, and may be accomplished even when the lungs are seriously involved. Stop the excessive waste (and nothing will do it like Scott's Emulsion), and you are almost safe.

Don't be persuaded to accept a substitute!
