# CASTORIA

for Infants and Children.

OTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that oplum and morphine are stupefying narcetic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed? Do You Know that Castoria is a purely vegetable preparation, and that a list of

its ingredients is published with every bottle? Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than

of all other remedies for children combined? Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word

"Castoria" and its formula, and that to imitate them is a state prison offense? Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do Von Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

A writer in The Church Standard says that a guide in the Holy Land made the following historical explanation to some Americans by whom he was employed. "King Saul, you know, called Paul after his conversion; a you can always tell a churchman, for never falls to speak of him as St. Paul."
This recalls the old story of a stupid candidate for orders in Oxford who had
been repeatedly plucked in his divinity
"exam." It was at last decided to ask him one easy question and let him go through if he answered it correctly. The question selected was: "What was the former name of St. Paul, the great Apostle to the Gentiles?" As the ex-Apostic to the Gentiles?" As the ex-aminer hoped, the young man answered "Saul," which was correct. But just as they were breathing a sigh of relief over his success, the young fellow, proud or his achievement, and anxious to show how much more he knew, turned back after he had opened the door, and added, "He was the son of Kish."
