John Fox, President and Superintendent A. L. Fox, Vice President O. B. Praeger, Secretary

They Lack Life There are twins sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twins as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twins besides Marshall's will do "just as well." They won't. They cannot.

C. J. TRENCHARD, Agent Wells, Fargo & Co. and Pacific Express Co.

HOME and PHOENIX INSURANCE CO'S. Custom House Broker and Commission Merchant, 502 Bond Street.

Kopp's Beer Hall. Choice Wines, Liquors and Cigars.

EDUCATION For Real Life. EVERY ONE NEEDS A BUSINESS EDUCATION. Many young men and women can spend but one or two years at school—why not take a course that can be completed in that time? The course includes a short ENGLISH COURSE besides a BUSINESS and SHORTHAND COURSE. For catalogue address, 414 YAMHILL ST. - HOLMES BUSINESS COLLEGE - PORTLAND, OR.

CHOLERA REPORTS.

Latest News From Honolulu Brought to San Francisco.

POISONED FISH THE CAUSE. Some of the Doctors Think it is Asiatic Cholera—Disease is Dying Out.

San Francisco, Sept. 28.—The barkentine S. G. Wilder arrived today and brought the first authentic advices from Honolulu received for two weeks. The Wilder sailed on September 11. The Associated Press correspondent says: "Seventy-two people have been attacked with cholera since the plague broke out of that number 52 have died. But two white people were among the victims. During the last 48 hours but one new case has developed."

It is believed the disease is now in check and it is only a matter of a few weeks when it will be totally eradicated. As a result of the almost suspension of business many Hawaiians are out of work and there appears to be great distress among the natives. The station has been opened. There is still some doubt as to the real nature of the scourge, a majority of medical men agree that it is Asiatic cholera, but there are some who maintain that it is purely a local disease. Many of the cases have been traced and without exception the practice of eating raw fish has been responsible for the sickness. The fish in the harbor are believed to be poisoned and the sale of the same is prohibited.

BANK STATEMENT. New York, Sept. 28.—The New York Financier says this week: "The statement of the Associated Banks of New York for the week ending Sept. 23, reflects continued payments of currency to the West for grain moving purposes. Loans have been contracted for \$5,500,000 and deposits are down \$9,327,000. The actual decrease in cash is \$2,479,300, of which \$230,100 is in specie and \$2,249,200 in legal tenders. The total reserve in excess of the legal requirements is \$22,235,175."

HURT WHILE DRUNK. Eugene Man Knocked Down by a Southern Pacific Train.

Eugene, Or., Sept. 28.—Henry Walker, who resides 25 miles east of Eugene, met with a serious if not a fatal accident this morning. He had been in town drinking all night, and was trying to make his way to the station near town, where his family was camping. He was crossing the Southern Pacific track when the California express came along, and he was struck by the engine, and knocked from the track his arm and two ribs being broken. He also received a severe wound on the head and internal injuries.

AN INTERVIEW WITH IVES. Says the Great Northern Deal is a Corpse.

St. Paul, Sept. 28.—President Clayton Ives and James McNaught, ex-general counsel of the Northern Pacific, arrived today from Milwaukee and will leave tomorrow for Seattle, to be present at the hearing of the receivership case before Judge Hanford October 2. Ives was seen by a representative of the press, who suggested that there might be no hearing in Seattle in view of the resignation of Ives. In reply to this, Mr. Ives said: "There will, at least, be an appearance. That will be required. "Who will appoint the new receivers? "That is the great judicial question. While the resignation of the receivers was a good movement, it certainly did not loosen the judicial hand. While we know of ourselves and common sense teaches us who are entitled and who are not to appoint new receivers, certain processes of law it would be better to first of all to let the land settled upon."

HOUSE OF LORDS. Will Probably Be Reformed in the Future.

(Copyright 1895 by Associated Press.) London, Sept. 28.—The House of Lords in the last few days has become the topic of principal discussion. While nothing may come of it immediately or in the near future, the vigor with which the subject is being handled in the press and in public addresses indicates that the house is working which will ultimately give the house of lords the resemblance of a representative character.

ONE OF THE RECEIVERS. Seattle, Sept. 28.—E. H. McHenry, chief engineer of the Northern Pacific, who today was appointed one of the receivers of the road, arrived in this city this afternoon. He is here to straighten out the crossings and arrange for a joint agreement by the Northern Pacific, Great Northern, Seattle, Lake Shore and Eastern, and the Columbia and Puget Sound roads. E. H. McHenry was born at Cincinnati, 26 years ago.

DISAPPOINTED. Expected To Be Named as Receiver of the Northern Pacific.

Minnesota, Sept. 28.—Thomas Lowry was very much surprised when he received the news this morning from an Associated Press reporter that Judge Jenkins had declined to appoint him one of the receivers of the Northern Pacific. He said: "I consented to the use of my name at the request of a meeting in Chicago Thursday, where all the security holders were represented. Personally it is a matter of indifference to me, but it would seem that the wishes of the security holders are being rather unbecomingly disregarded."

Judge Jenkins said: "With respect to the name of Mr. Lowry, he is president of the Soo Railroad line, supposed to be operated by, and in the interest of, the Canadian Pacific Railroad, which is a competing line with the Northern Pacific, and although it has been suggested to me that Lowry, if appointed, would resign that position, the court is still very desirous that the men to be named

should, if possible, be like Caesar's wife—above suspicion, and free from any relations with anything antagonistic to the Northern Pacific."

CORBETT-FITZSIMMONS FIGHT. Attorney General Will Not Permit It in the Territories.

Washington, Sept. 28.—If the promoters of the Corbett-Fitzsimmons fight entertain the idea that in case the fight is not allowed to come off in Texas they are certain to be disappointed. Attorney General Harmon said that there will be no fighting in Indian territory or in any other territory over which the United States has jurisdiction. He did not remember whether there was any territorial law against prize-fighting, nor did it matter whether there was or not. If it became necessary they could find a law to fight the case, and it might be stated on his authority that the fight would not be permitted in any territory of the United States.

THE NEW RECEIVERS. Engineer McHenry and Banker Bluebow the Lucky Ones.

Special to the Astorian. Milwaukee, Sept. 28.—Judge Jenkins today appointed Edward W. McHenry, of St. Paul, chief engineer of the Northern Pacific railway, and Frank G. Bluebow, a banker of this city, receivers of the Northern Pacific, in place of Oakes, Rouse and Payne, resigned.

MARKET REPORTS. Liverpool, Sept. 28.—Wheat firm; demand poor; No. 2 red winter, 55; No. 2 red spring, stocks exhausted; No. 1 hard Manitoba, 54 1/2; No. 1 California, 52 1/2. San Francisco, Sept. 28.—Hops unchanged.

Portland, Or., Sept. 28.—Wheat active, firm, valley, 67; Walla Walla, 66 per bushel.

BALTIMORE GETS IT.

The Baseball Championship for 1895 is Won.

CLEVELAND A CLOSE SECOND.

The Deciding Game Was One of the Finest and Most Exciting of the Whole Year's Series.

New York, Sept. 28.—Although the championship season in this city does not come to an end until Monday, the deciding game of the season was played here by the result of this afternoon's contest between the New Yorks and the Baltimores. Baltimore won the game and the phenomenal catch of Baltown's fly in the ninth inning worked hard to keep the question of the pennant in doubt all day. It was the New Yorks. They played at all stages of the game but still the Orioles were too fast for them. Jenkins really won the game himself. His phenomenal catch of Baltown's fly in the eighth inning when two were on base, in which he completed a double play unassisted, was all that saved the Giants from losing the game. The Orioles were loudly cheered as they marched off the field. Darkness put an end to the game at the end of the eighth inning. The attendance was 9,000.

HOUSE OF LORDS. Will Probably Be Reformed in the Future.

(Copyright 1895 by Associated Press.) London, Sept. 28.—The House of Lords in the last few days has become the topic of principal discussion. While nothing may come of it immediately or in the near future, the vigor with which the subject is being handled in the press and in public addresses indicates that the house is working which will ultimately give the house of lords the resemblance of a representative character.

ONE OF THE RECEIVERS. Seattle, Sept. 28.—E. H. McHenry, chief engineer of the Northern Pacific, who today was appointed one of the receivers of the road, arrived in this city this afternoon. He is here to straighten out the crossings and arrange for a joint agreement by the Northern Pacific, Great Northern, Seattle, Lake Shore and Eastern, and the Columbia and Puget Sound roads. E. H. McHenry was born at Cincinnati, 26 years ago.

DISAPPOINTED. Expected To Be Named as Receiver of the Northern Pacific.

Minnesota, Sept. 28.—Thomas Lowry was very much surprised when he received the news this morning from an Associated Press reporter that Judge Jenkins had declined to appoint him one of the receivers of the Northern Pacific. Personally it is a matter of indifference to me, but it would seem that the wishes of the security holders are being rather unbecomingly disregarded."

Judge Jenkins said: "With respect to the name of Mr. Lowry, he is president of the Soo Railroad line, supposed to be operated by, and in the interest of, the Canadian Pacific Railroad, which is a competing line with the Northern Pacific, and although it has been suggested to me that Lowry, if appointed, would resign that position, the court is still very desirous that the men to be named

should, if possible, be like Caesar's wife—above suspicion, and free from any relations with anything antagonistic to the Northern Pacific."

CORBETT-FITZSIMMONS FIGHT. Attorney General Will Not Permit It in the Territories.

Washington, Sept. 28.—If the promoters of the Corbett-Fitzsimmons fight entertain the idea that in case the fight is not allowed to come off in Texas they are certain to be disappointed. Attorney General Harmon said that there will be no fighting in Indian territory or in any other territory over which the United States has jurisdiction. He did not remember whether there was any territorial law against prize-fighting, nor did it matter whether there was or not. If it became necessary they could find a law to fight the case, and it might be stated on his authority that the fight would not be permitted in any territory of the United States.

THE NEW RECEIVERS. Engineer McHenry and Banker Bluebow the Lucky Ones.

Special to the Astorian. Milwaukee, Sept. 28.—Judge Jenkins today appointed Edward W. McHenry, of St. Paul, chief engineer of the Northern Pacific railway, and Frank G. Bluebow, a banker of this city, receivers of the Northern Pacific, in place of Oakes, Rouse and Payne, resigned.

MARKET REPORTS. Liverpool, Sept. 28.—Wheat firm; demand poor; No. 2 red winter, 55; No. 2 red spring, stocks exhausted; No. 1 hard Manitoba, 54 1/2; No. 1 California, 52 1/2. San Francisco, Sept. 28.—Hops unchanged.

Portland, Or., Sept. 28.—Wheat active, firm, valley, 67; Walla Walla, 66 per bushel.

THE RIGHT ONE. Chicago Post. "Here's a match!" exclaimed the first sweet girl when they had reached their room after an evening on the boulevard; "now, who will light the gas?" "Oh, the match to light," replied the second sweet girl, "she's the only one in bloom."

OREGON THE WINNER.

British Columbia Cricketers Beaten in Portland Yesterday.

ASTORIA BOYS DID WELL. The Home Men Score a Fine Victory by Five Wickets After a Very Close Contest.

Portland, Sept. 28.—The Americans today defeated the Britishers at cricket on the Multnomah field. The game was between the Victoria Cricket Club and an Oregon team made up in this city and Astoria. The all Oregon team won by one run and five wickets, the score being: Oregon, 134; Victoria, 123. In the first innings the home team made 83 runs, while the visitors only secured 69 runs. In the second innings, however, the Britishers picked up and scored 82, while the home team made 25, for the loss of five wickets.

One of the features of the game was the bowling of Wilkinson of Astoria. Capt. Lawrence of the Oregon team also played a good game. This result is most gratifying to the Astoria Football Club, Multnomah Athletic Club, and the Portland Athletic Club, whose representatives have thus met and vanquished a picked team of first class cricketers. In the second innings Victoria showed up in excellent form and played far better than at the beginning of the game. Five of the British wickets were taken at an average of a little over five runs apiece, the Britishers bowling being very deadly.

DURRANT IS CONFIDENT. But There Does Not Seem to Be Much To Build His Hopes On.

San Francisco, Sept. 28.—An evening paper publishes an interview with Theodore Durrant in which the prisoner expressed his disgust at the witnesses who had testified for the prosecution. "I wonder that the fate of Ananias and Sapphira has not overtaken some of them," he is quoted as saying. "It is strange to me that they have not been struck dead for what they have said against me on the stand."

Durrant expresses confidence at his ultimate acquittal. The defense does not seem to rely so much on an alibi as it did a few days ago and its efforts are now being devoted to an attempt to find flaws in the prosecution. Not one of Durrant's classmates will stop to discuss the case, and the accused attended Dr. Cheney's lecture of April 3.

A ROW IN CHINATOWN. Pendleton is Having Trouble With Her Local Celebrities.

Pendleton, Sept. 28.—There was great commotion today among the denizens of the Chinese quarter occasioned by a general raid made by several federal officers who were searching Mongolians who had no certificates issued by the internal revenue collector entitling them to remain in the United States under the Geary law. On a warrant issued from the commissioners' court, Geary Lunz was arrested for not being able to produce a certificate. Geary is a prosperous Chinaman unless he proves that he is entitled to have issued to him another certificate. This is the first case under the recent ruling of the department that in cases in which the certificates have been lost, the federal judge may make an order directing the collector to issue a new certificate. Geary is a prosperous Chinaman and has been a resident of Pendleton for ten years.

THEATRICAL NOTES. Plays and Players at Home and Abroad.

Dan Sully, who is looked to appear here in December, was here a number of years ago in the "Millionaire," a piece which he made famous. Nettie McHenry is also an old favorite here, having appeared a number of times in the old Ross Opera House.

Robert Downing, who will be seen here in the "Gladiator," has added a new piece to his repertoire, called "Helena." Alexander Salvini will make his debut in Chicago during the holidays. John Philip Sousa, the famous band leader and composer, has a busy season before him, at the conclusion of the Manhattan Beach engagement. His organization will resume its tour and before it returns to New York, will have played 56 consecutive weeks, and achievement never before accomplished by any other musical organization in this or any other country.

Henry Howe is the oldest actor on the stage. He made his first appearance with Macready, and is now with Sir Henry Irving's company. He is 83 years old, and has been on the stage 64 years. Frederick Ward is to play "Turn of Mind" this season. It is a romantic drama, written for him, by William Green Harrison, of San Francisco. The plot of the piece is woven around the signing of the Magna Charta. Ward plays the character of Robin Hood. The Casino Opera Company are sure to draw large houses this week. Their entertainment is one of the best Mikados ever produced.

Some interesting points in the life of Mrs. Modjeska, who is about to begin her farewell tour of this country, are pointed out in a new light by the author of that new book dealing with theatrical history and anecdotes, "Shakespeare's Heroines on the Stage." He says: "In Modjeska's life the character of Ophelia has played a curious part. It was the first Shakespearean heroine she ever saw upon the stage. When a little girl in Oregon, longing to become an actress, or an author, or a nun, she saw Mrs. Devrient play 'Ophelia,' and was so captivated by the play that she went home to commit the entire tragedy to memory, and from that hour to discard Schiller for a new ideal of dramatic art. It was the first Shakespearean character she ever acted on the American stage, and the first of Shakespeare's heroines whose words she spoke in the English tongue."

James Welch, who shot and killed H. N. Robinson at Herbert Lyville of Sheridan last Saturday, was shot and killed by a sheriff's posse near the Timmens ranch on Tuesday evening.—Review.

The warehouses in The Dalles are paying 37 cents for wheat and the flouring mills 40 cents. There is no disposition in the receiver's office to keep the grain busy all day carrying teams across the river, while the roads leading to town from the east are lined with wagons.

The Vale Town Councilman last Tuesday purchased the Sevey corner opposite the court house and will erect a town hall upon the same immediately. It will be a large fire proof stone structure. Extra money has been accumulating in the town treasury for some time and this use of it by the councilman is very commendable.

A bunch of wheat secured by Committeeman J. R. Morris, of Albany, for the Linn county exhibit, is a curiosity. It contains 42 stalks, with 241 kernels, each stalk having three to five kernels, probably averaging four, a total of over 2,500 grains from one kernel of wheat. Mr. Morris has collected a large and attractive assortment of cereals in stalks that will compare with anything to be found anywhere in the world.

L. F. Willis and wife have been succeeded as teachers at the Yemassee academy at Klamath county and returned to the valley last week. Mr. Willis is an experienced Democratic supporter for office when the present opposition took charge and tendered his resignation as superintendent, which, however, was not accepted. He is the last of the Republicans in the Indian service of Klamath reservation to drop out under Dr. Peck's resignation.—Express.

William Holme, a young man, was shot through the back by a rifle ball at Elsie Canyon on the 26th inst. He was one of a crowd who were out hunting. He was standing on a hillside above the rest of the group. One of them commenced shooting at some pheasants in the hurry failed to see that Holme was directly in line. The result was that a ball went crashing through his shoulder, going in below the collarbone, and entering the shoulder blade. The wound is an ugly one, but the young man will recover.

An interesting document was recorded in the county clerk's office of Lincoln county last week. It is a transfer of the old government land from the Oregon Central Railroad company to the Oregon and California company. It is a written instrument and covers forty-two pages of closely written legal cap. The instrument was dated in 1870, and its margin holds forty 38 internal revenue stamps, all conveyed at that time for the purpose of bearing a revenue stamp to insure their validity. The deed has been recorded in the second volume of the state in which any of the land grant laws and the formation of the new county caused its recording in Lincoln county.

Early this morning there was a collision in the yards of the O. R. & N. in this city, which broke up two flat cars and damaged a boxcar. No one was injured, though four men who were in the boxcar were roughly shaken. The collision occurred by the mistaking of a switch, which sent the freight train from the east crashing into several boxcars which were standing on the warehouse switch. Freight train No. 21 the flat through train bound for Portland, came in ahead of time, with half a dozen boxcars and a dozen flats. It should have run in on the main line track, which would have brought it alongside the depot building on the south side. There is a switch about one hundred yards up the track to the east which leads to the track beside the warehouse. This switch also has been set so as to send the train in on the main line track, but it was open and the freight train, full under a good load of specie, and there being no air brakes excepting those on the engine, ran against the boxcars on the switch. The boxcars were sent by the impact of the collision on past the station where a particular danger to them. In the freight train, half a dozen cars from the engine, was a car of race horses, and immediately behind were some flats. The corner of the box car containing the horses, was smashed in, and two of the flats were derailed and broken in small pieces. A peculiar feature of the smashup was that the cars which were broken were in the middle of the train, and persons who heard the crash and saw the collision say that the cars were not smashed until about ten seconds after the engine hit the boxcar. At first it sounded only like a heavy bump, and a few seconds later the cars piled up.—Eas: Oregonian.

Highest of all in Leavening Power.—Latest U. S. Gov't Report. Baking Powder. ABSOLUTELY PURE.
