WHAT! WHAT!! Another lot of that Granite Ware at The Arcade?

And are they selling a ten-quart preserving kettle for—not 75c.—but for 52c? Cheap as chips, and yet they are doing it. Not so many different pieces as we had three weeks ago. We can't always do it. It's money losing for some one and we could get more for them. But we are not going to drink brine in midstream. We'll kick out and dog-paddle ahead just the same until the shipment we got yesterday is all gone and then you'll pay more if you want any.

They Lack Life

There are twins sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.
