work on the new sewer in Adair's Astoria is well under way and that with continuance of good weather will be completed in about 15 days' time. One curred 140 feet long is about half finished, and another tunnel 100 feet long will be finished in a few days. Between fifty and sixty men are engaged on the work and day and night shifts are at work on the tunnels. Not an accident thus far has occurred, and the work is being pushed against great odds. Every foot of the work has had to be braced

This is probably one of the most difficult pieces of work of the kind ever let in the city. The approaching marriage of Miss Pauline Whitney and Mr. A. H.
