### CLAIMS VS. FACTS.

Saturday's Oregonian contians a long appliele which gives extracts from speeches made by Mr. Corbett, Congressman Herman, and others before the Portland Chamber of Commerce on the subject of "a deep water channel to the ocean." One of these speeches was made by Mr. Randolph, of the Port of Portland commission, and he took occasion to suy:

"There was a gentleman here not hong ago"—meaning Mr. Clark, of Missouri"who announced his expectation of being
elected to the river and hardor commiscon, and who caused or permitted to be
published the statement that he was unalterainty opposed to further improvements on this river, and advised that we depend civilization." pon raffway facilities to its mouth. Let us have a look at a few facts. A vessel aggregates on her cargo from Portland Now, does any one suppose that a allroad can handle freight over the same distance at the same rate? The history of the great ports of the world, London, Hamburg, Calcutta, Philadel- prevalent on this coast. Liverpool, Hamburg, Calcutti, Palladel-phia, and numerous others, shows that ships will go as far inland as possible, and that the head of deep-water naviga-tion is where the great cities are built, and our friend from St. Louis can remodel maximum of one bundred million with-

For the benefit of Mr. Randwich and the few others who think, or profess to think, as he does, we republish on anremarks on this subject from the pen of Mr. A. A. Schenck, chief engineer of the New York Central Railroad, and a widely

But in this same little meeting Congrassman Hermann made some remarks that we feel bound to call attention to time been well acquainted with Mr. Hermann and it is a source of surprise and maelf to be so badly misinformed

"The James Drummond, loaded with

As a matter of fact the James Drum- but h will pass h, in all probability, if it mond was drawing considerably under 23 is presented with the sametion of the feet when she came down the river in administration. August. The Sierra Parima louded 1000 cases of salmon in Portland and the balup the siver to Portland on her last nue is insufficient. two valls, says that he has never put Heemann's "views."

Mr. McCracken, "chairman of the mest- clod? ing," also put his foot into it. He said, among other interesting things:

toa, what in some places not more than it feet. Now it is 20 feet at low water.

"It is an odd coincidence that the flerce controversy now rasing over the subject of fall fishing should occur in the same year when the first effects have taken made by canners for the prospers tunds and find ready sale. Considered made by canners for the prospers tunds and find ready sale. Considered made by canners for the prospersion of the sainon industry by artificial propagation. Both must be respected as full of promise for the industry. The whole subject of fall fishing is being investigated as never before, and facts will be brought to light which will be of value to the trade and the law-raskers. The real value of the agitation from the fore, is in the fact that it diversions the in the fact that it diversions and it is not the pursue fleshing to the hope of a rise in prices, as it is only the pursue fluids the from the fore that it diversions and the prices, as it is only the pursue fluids the from the trade and the law-raskers. The real value of the agitation of the fore that it diversions and the prices, as it is only the pursue fluids the from the trade and the law-raskers. The real value of the agitation of the fore that it diversions are the prices, as it is only the pursue fluids. The real value of the agitation of the foreign the time for its lating. The first where the market into the market. Experience have been have been loaded during the week.

"Now I know where the market them women not its name," said the gentle-

open measons, local efforts for fish pro-tession have for the most part frostered measures away in wars among the va-rious sorts of gear. The decision of the federal court in the meiter of concurrent irrigidiction promises to clear away a great deal of mempiprepension on the salmon question." salmon question.

A PACIFIC VOLCANO.

The evidence upon which it is assumed that a volcanic eruption is in progress in the Olympic mountains, in the northwestern corner of the state of Washington, may be thus set forth: First, reveral volcanoes in the Aleutian islands gave recently become active; second, slight earthquake thocks have recently occurred in the vicinity of the Olympic Business communications of all kinds and cange, similar to those waich preceded remittances must be addressed to The the outbreak of the Alexian volcanoes; third, the Olympic fire is dark red, occurs intermittently, thoots straight up as a flame and then opreads out like an umbreila, and is far above the timber line, thus in several ways proving that it is not a forest fire.

posed eruption than three miles, and the posed eruption than three miles, and the substance from good food, fresh air, and exwitnesses were two young men unekilled est weekly in the state of Oregon, has in observation. The bulk of the evidence comes from Port Townsend, which is too far distant to permit of accurate observation. Parties have started out to investigate, and until they return and make report it would be idle to speculate on the facts.

The Olympic is the most remarkable region in the West. Only within recent gin of the trouble and corrects it. years have its terrible fastnesses been years have its textible fustness been ments and cures catarrhal inflam penetrated, and its explorers were hardy of the lining membranes. Once t and daring men, who took their lives in is always in favor. their hands. It is a region of formidable bouffs and crugs, profound gorges and im-bouffs and crugs, profound gorges and im-indigestion, billousness, headaches and kindred aitments. Speaking of this subject some time ago the San Francisco Call said: "Here thrive unmotested the large game, in- arrived in Albany Sacurday night counting bear, elk, deer and others, which have been practically exterminated in the more accessible parts of the West. An old legend, credited until within recent years, peopled a wonderful valley in the heart of the mountains with a superb

There is little knowledge concerning the geology of the range, but its extreme ruggedness indicates either that it is not volcanic, or that it it is volcanic it is of paid the bill.—Pick-Me-Up. sea, or vice-versa, about 3 cents a ruggedness indicates either that it is not compartively recent formation and quite different from the volcanic conditions

It is the Republican theory that the his views, for they are away short on this out difficulty, provided there is sufficient revenue to equal or exceed the expenditures. In other words, the Republicans hold that the present and past difficulty ether page of this morning's paner some with the gold reserve has been due to the that the administration has used almost every doxur of the one hundred and eighty mElions in gold received from the sale of bonds to pay current expenditures. If sufficient revenue is provided which are so full of glaring inaccuracies raids on the gold reserve must cease, because bankers would not encourage the shom and put such statements where they exchequer notes would be the safety valve belong. The Astorian has for a long to pay current expenditures whonever recounts were insufficient. By their use it would be impossible for the treasury to on the subject of the Co'umbia River and in this way the "endlers chain" could be were retired. It is believed that this wheat and barley and drawing 23% feet, were retired. It is believed that this went down the river successfully last idea of securing more revenue through August. The China steamers of the O.
R. and N. Co.'s line, now making this
port regularly, draw 20 feet and run at
usght at full speed, making close schedule
time. Among the vessels which have salisignation should merially change. There the Alison exchequer notes for emergency purposes will be the financial scheme Times. ed lately from this port are the Sierra Parima, with a cargo of 31,933 cases of salmon, valued at \$302,141; the Rathdown, about the retirement of the greenbacks, with 28,916 cases of salmon, valued at and many plans with this in view will be 197,986. Some idea of the importance of proposed, but nothing will be done. It a deep chip channel from Postland to the sea may be gathered from these facts and figures."

It is improbable that congress will take the intelative in the matter of the beer tax,

Private advices have been received at ance, 30,983 cases, after she got down the Washington from well-known Republican river to Astoria. The Rathilown did not leaders to the effect that the financial ond a single case of salmon in Portland programme to be pursued in the house but took in the whole 28,910 cases at the has practically been determined upon.

docks in this city just before proceeding If a tax on beer is recommended, it to sea, and incidentally we may remark would probably be passed, coupled with a aus six weeks thre undergoing repairs duty on wool on a revenue basis similar for injuries sustained by crucking into to the tax on raw sugar. This would, one of the several bridges that span the of course, necessitare a revision of the river in front of Portland. The China woolen goods schedule by adding duties steamers never dare travel either up or proportionate to the duty placed on raw own the river at a speed greater than 8 wool. Along with this the Republican ilies an hour. Captain Grunville Reed, Senders will probably present the Allison a illest of 25 years' experience on the low-rate exchaquer notes for use in meet-Columbia, who has taken the Chittagong ing current expenditures when the reve-

her slong at a greater speed than a miles, and, with an ebb tide, this practically amounts to 7 miles. One month are a leasted sing description of 1865, as given by Dornbusch's list, was the smallest pills, will perform a cure, and a leasted sing description of 1865, as given by Dornbusch's list, was the smallest pills, will perform a cure, and are the best. Chas. Rogers. ago a loaded ship drawing only it feet of 000 quarters teas toan the world's wheat water took just five days in coming thown orep of 1882. On July 1, 1892, the price of the river and stuck on seven different wheat in New York was 89% cents but on sumbars along the "24-foot channe"." It July 1, 1885, the price was only 33% cents, would indeed be based to find, in any pub- a decrease of 151/2 cents a buttel. Does lie utterance that we have ever eeen, so the increase of 1% per cent in the world's many misstatements crowded into one where crop between the two periods acstort paragraph, as are contained in Mr. count for the decrease of 18 per cent in the value of wheat within the rame pe-

A sulderate quantity of wheat, says "It has been such that a chain is as strong as its weakest link. The depth of a channel is its shallowest point. Before the work had been commenced, the depth of the channel between Portland and the whole, a fairly satisfactory business was trading of an active nature, yet, on the wisole, a fairly satisfactory business was done. Exporters undoubtedly have cur-rent wants well in hand, as evidenced It feet. Now it do 20 feet at low wa'er, and will shortly, upon the completion of a sinall amount of dredging, be 22 feet."

The truth of the matter is that instead of being 20 feet at low water, every plot on the river will tentify that it is only is said a probty shallow is at that.

Yesterday's Oreganian says editorally: "It is an odd coincidence that the fleece controversy new rusing over the subject of to? fleeing should occur in the same year when the first efforts have fleen made by cunners for the primerous for the source of the sairnon industry by ar-use tere have undersone but it the source have the subject of the sairnon industry by ar-use tere have undersone but it the source have undersone but it the source have the source have undersone but it the source have undersone but it the

KEEP A-GOIN'I

If you strike a thorn or rose, Keep a-goin'! If it hails or if it snows,

'Taint no use to eit an' waine
'When the fich ain't on your line;
Balt your hook an' keep on tryin'—
Keep a-goin'!

When the weather kits your crop, Keep a-goin!!
When you tumble from the top, Keep a-goin!!
S'pose you're out o' every dime? Gittin broke ain't any crime; Tell the world you're feelin' prime! Keep a-goin'!

Wiren it tooks thee all is up.

Keep a-goin'! Druin the sweetness from the cup, Keep a-goin'! See the will birds on the wing! Hear the bells that sweetly ring! When you feel like sightin'-sing! Keep a-goin'!
