CASTORI

for Infants and Children.

MOTHERS, Do You Know that Paregoric, most remedies for children are composed of opium or morphine?

Do You Know that oplum and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them polsons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do Vou Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless? Do You Know that 35 average doses of Castoria are furnished for 35

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Charty Teleher.

(From the San Francisco Argonaut.)
"In the heart of the great desert of the Colorado—which the Southern Pathe road traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain invalida, there is no spot or this planet so favorable."
G. T. Stewart, M. D., writes: "The purity of the air, and the eternal sunshine, fill one with wonder and delight.

* * Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a man to do. As to its possibilities as a health resort, —here is the most perfect sunshine, with a temperature always pieusant, a perfectly dry soil for rain is an unknown factor: pure oxygen, denes atmosphere and pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatics. Considering the number of sufferers who have been cured, I have no hestitancy in recommending this genial oasis as the haven of the afflicted."
