THEY KNOW IT ALL.

The Chicago Tribune of the 16th inst. says: "It now is about four years since it was confidently announced that in the course of a few weeks more Keely, the alleged discoverer of a new force, would be ready to make his knowledge a public matter."

It is now nearly three years since the lady who has been backing him before the end of the year he certainly would be ready to take the world into his confidence. Since then little has been heard of the man or his schemes, till now it is stated again to be only a matter of a little time, etc.

There was a wild rumor in town yesterday that one of the city officials had threatened to go off and start a party of his own if somebody didn't nominate him immediately.

Amateurism Bayard seems to be neglecting his duty. He has not yet apologized to Lord Dunsany.

Nobody will withhold a tear of pity for Mayor Kinney's sad fate.

IT'S A CURIOUS WOMAN. Who can have confidence in Dr. Pierce's Favorite Prescription. Here is a tonic which will regulate the female system, and it doesn't hurt you, there's nothing to pay.

Noting more can you ask for in a medicine? The "prescription" will build up, strengthen, and invigorate the entire female system. It regulates and promotes all the proper functions, improves digestion, enriches the blood, dispels aches and pains, brings refreshing sleep, and restores health and vigor.

ECONOMY IN FUEL. The Bureau Fuel Economist is a scientific preparation which augments the intensity of coal and wood heat in the proportion of 25 per cent.

The Bureau Fuel Economist prevents the smoke, the cinders and the formation of soot, which may spoil, in an apartment, many valuable articles, such as curtains, paintings, etc.

The Bureau Fuel Economist produces a heat more soft and more concentrated; when a normal heat is wanted, the ventilation must be partly stopped and, again, an economy in fuel is to be relied upon.

We guarantee that our preparation produces no injurious effect on the health, and does not affect in any way stoves, ranges, grates, etc.

Large consumers can obtain the product, which we do not hesitate in terming "miraculous," at much more reduced prices.

A GOOD WORD. Mr. J. Kell, Shreveport, La. Dear Sir—I am glad to say a good word for Krause's Headache Capsules.

After suffering for over three years with acute neuralgia and its consequent insomnia, which seemed to heighten the efforts of some of our best physicians, you suggested this remedy which gave me almost instant relief. Words fail to express the grades I should like to bestow on Krause's Headache Capsules.

THE ASTORIAN. The usefulness of the new Tillamook valve is seriously impaired owing to the fact that there is no station or line at Seaside. The lineman lives at Elk Creek, and in case of a break will have to travel nearly twenty miles of bad country road if the cut should be anywhere near Fort Stevens.

The Astorian hard-luck story for November comes from Kentucky. A Republican wanted a horse with a Democratic on the result of the election. The two animals were left with a fireman, just before the election the Democrat's horse died. When the voters were all

in and the Republican went after his horse, the fireman presented a bill for burying the dead animal and retained the living one as security. What is the grief of a defeated Democrat compared with this?

While the Astorian was pounding away at the fall fishing and some weeks ago, the few cameramen who defended the practice had great success on the argument that we were fighting against our own town, trying to take the bread out of the poor Astoria fishermen's mouths, etc.

We wonder how the fishermen like to stand round nowadays on the canneries docks of these packers and watch from twenty-five to thirty tons of defunct salmon being shipped down the river from the Covilla, Kalama, and Puget Sound every day in the week? Then, if their olfactory organs are strong enough, they can trace this detectable stench through the operations of canning and packing and finally get it sent out all over the continent as "Columbia River Salmon."

The New York World thinks that Adlai Stevenson's announcement that he will not be a candidate for the presidential nomination "leaves no Democratic candidate of national prominence in the West." Rise up, Sylvester Penney! Raise thy hand and cough with a loud voice!

Wanted to know—How much money the carriers who pretend to pack fall salmon caught on the Columbia river, pay annually to Puget Sound fishermen to catch fish on Puget Sound and send them here to be canned?

The greatest sensation at the New York horse show appears to have been made by the Duke and Duchess of Marlborough, who may be considered as having been there in their bride capacity.
