Naval Bureau chiefs, to whom was referred the question of the acceptance of the ram Kattahin, have made a report upon the subject, which is now before the judge advocate general for his indorsement. It is understood that the manner in which the vessel was accepted notwithstanding her failure to make the seventeen knots as required by the contract. It is claimed that as there was no competition in the bids for the construction of the vessel, no other firm would be wronged by the acceptance of the boat. It now remains for Secretary Herbert and the judge advocate general to pass upon the case.

Antone Francisco had a terrible experience last Tuesday night, says the Chronicle. He had been out crabbing and had done fairly well. His boat was a new one and cost him \$100, while his sails, nets and oars cost him at least \$75 more. He called her the New Moon, and went out on the first appearance of the moon. He remained out for two hours longer than usual, and when coming in through the north channel a breaker captured the boat. For hours he clung to her, and no one came. Just as he was giving up in despair a belated crabboat came along and took him aboard. An attempt was made to tow the overturned boat into port, but it failed.

The Plyer was not one of the latter, as she managed to make good time throughout the day. The steamer Remora was scoured at the angry waves and anchored off Vashon Island. Edward F. Sweeney's yacht Arling drifted dangerously near the Arling drif, but was not injured.

self-help. You are weak, "run-down," health is frail, strength gone. Doctors call your case anaemia—there is a fat-famine in your blood. Scott's Emulsion of cod-liver oil, with hypophosphites, is the best food-means of getting your strength back—your doctor will tell you that. He knows also that when the digestion is weak it is better to break up cod-liver oil out of the body than to burden your tired digestion with it. Scott's Emulsion does it.
