THE PRAYER MEETING

Spirited Discussion as to Its Merits and Demerits.

DIFFERENT KINDS OF PRAYER

Is the Church Entirely Right in Its Methods—Doctor and Preacher in the "Junto Club."

The members of the Junto Club—present—met on the regular evening and opened in due and ancient informality. It was proposed to change the night of meeting, but the minister objected on the ground that it would conflict with prayer meetings, and in that case he would be compelled to give up his membership in the Junto, although he would do so very reluctantly. We did not further discuss the proposed change, for we were united in the opinion that we could not find any one to take the place of the Junto, and fill it so well, even if we so desired.

But though we gave up the thought of changing the evening of meeting, yet we enjoyed a pleasant controversy that ensued between the minister and the doctor in regard to prayer meetings.

Doctor—You might give up the prayer meeting—it is of very little consequence any way, is it not?

Minister—No, I couldn't do that; for even if I could give it up so far as my own needs are concerned, still I would be obliged to conduct it for the benefit of my congregation.

"How many attend your meetings?"

"About a dozen."

"They wouldn't attend if you did not urge and scold them, would they?"

"Perhaps not. A few would, but there would be very few of the dozen left if I didn't get after them about every other Sunday morning."

"I think there is sense in not going. I can't see the use of the prayer meeting as it is conducted. I used to attend when I was a boy, but I don't now, and I can't see what would be gained by attending."

"You would probably pray more if you attended regularly and took an active part."

"Are we heard for our much praying?"

"No, but if your praying more is accompanied by more earnestness your prayer would be more likely to be answered."

"I have prayed as many as a dozen times today, and didn't have to go into church to do it either."

"But if you do your praying in a meeting you will help others as well as yourself. Others will hear your prayer and follow you in your thoughts, and they themselves taught how to pray."

"But I didn't suppose that was the object of prayer. I never pray in order to give instruction, but rather to secure a special dispensation of divine favor."

"That is true, and yet one can accomplish that end by praying alone."

"I think not for when I pray in a meeting my object is to make a prayer that sounds well and will give my hearers good comfort. I really pray to be heard of men."

"Public prayer has been the means of converting many a man."

"That may be true, but still I protest that you mistake the object of prayer. We were not told in Holy Writ to pray in order to instruct or convert, but to ask for what we desired. I've heard ministers preach God a sermon in their prayers. They pray for the same things two or three times a week for years, just as though the Almighty did not hear the last prayer and answer it."

"But a minister could do very little praying unless he did sometimes repeat himself."

"That is all right, but there are some things that to repeat three times a week is not enough. Take, for instance, the expression, 'Give us, O Lord, throughout all time, repeated so often by our pastors. If God is going to grant it, he will not wait for us with one asking instead of a hundred.'

"Saying such things every Sunday is a matter of habit with us ministers."

"That is just what I say, and a mechanical prayer is worse than no prayer at all. Some ministers commit their prayers to memory, and imagine, perhaps, that a photograph could not do as well."

"You say you have prayed a dozen times today; were not your prayers mechanical today?"

"No, sir, they were not. Whenever I feel a need of anything I pray for it, and whenever I feel thankful I praise God in my heart without waiting for Sunday to come. I haven't any use for a God that listens only at stated times. Perhaps I am a little too free with my prayers."

"I heard a minister lead in prayer once at a Fourth of July picnic where they had liquor on sale, gamblers, chess players and all the sort of thing, and in opening his prayer he began as he always did in church: 'O Lord, we thank Thee that we are permitted to gather here this morning to worship Thee.' That was simply a mistake, not a prayer. I've heard ministers spend several minutes telling the Almighty how true they and their congregation had been, when that same Almighty knew more about it than they did."

"Are you really a religious man?"

"What is to me religion, and I think others should be more religious. They would be humble, unassuming and sincere in all that pertains to their spiritual welfare. I believe that the churches have lost touch with the true religion. I am sure, too, that they are still lacking in many respects when it comes to ministering to the wants of the individual."

"I don't go to church and I don't believe in your ministers, but I hope the time may soon come when the sham of formality and the bonds of conservatism will be broken, and that all will be true followers of the Nazarene."

of the two latter; stir and simmer in the butter until brown; cover with a quart and a pint of water; three slices of toast and bread and a half a dozen peppercorns; boil four hours, taking care to add water as it diminishes; press through a coarse sieve and finish the seasoning with a lump of butter, salt and a cup of hot milk or cream.

Beef a la vinaigrette is cold beef, served with a French salad dressing, after the slices have been stewed with minced parsley, chives, tarragon, shredded smoked herrings, minced gherkins and salt and pepper.

A. O. U. W. STATISTICS.

Interesting Figures from the Annual Report of Seaside Lodge.

At the annual meeting of Seaside Lodge, A. O. U. W. held Saturday, the following from the reports, will be of general interest:

Seaside Lodge, A. O. U. W., of Astoria, Ore., was organized March 1, 1895, since which time she has taken in 700 members up to date, November 23, 1895. This membership covers a total time of 3,500 years, or an average of 50 years for each of the 700 members. Eighty-seven of these members were fishermen, and 612 were not. Four fishermen have died (2 only by drowning) and 25 others have died. The death rate for the fishermen has heretofore been a small fraction over 1-3 (approximately 1/3 per 1,000); the death rate for the others has been exactly 1-3 per 1,000.

The above statistics are made from actual investigation and not from estimate.

MR. CARL SMITH.

Of the Smith-Lieb Company, Talk's of Astoria's Orchestra.

Just before taking the boat to Portland last evening Mr. Carl Smith of the Smith-Lieb Dramatic Co., said to an Astorian Representative:

"This is the liveliest and most prosperous looking little town I have seen in all my travels, and from what I can learn you have a great future before you. You have a nice little opera house, under Prof. Beggs' management, who seems to be doing everything that mortal can to provide for amusement for the public. What surprises me most, however, is the remarkably fine music which has given you in the little orchestra which played for our entertainment. The drama and music go hand in hand, and good music, or the lack of it, often makes or mars a drama."

"Your little orchestra is excellent, the best I have ever heard for its size, but I consider its leader
