for Infants and Children.

MOTHERS, Do You KNOW that Paregorie, Bateman's Drops, Godfrey's Condal, many so-called Soothing Syrups, and most remedies for children are composed of opinm or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell nercotics without labeling them poisons? Do You Know that you should not permit any medicine to be given your child

unless you or your physician know of what it is composed? Do Von Know that Castoria is a purely vegetable preparation, and that a list of

its ingredients is published with every bottle? Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher.

That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined? Do You Know that the Patent Office Department of the United States, and of

"Castoria" and its formula, and that to imitate them is a state prison offense? Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts,

The Harrison leaves out for Alsea today. She will transport all the salmon from that point to Yaquina, and will then go to Siuslaw, bringing the balance of the pack of that locality to this city.

Mail advices received from London state that on November 15th 20 guineas per cent had been paid, purely as a fire risk, on the French bark Duchesse Anne which left Hull 167 days ago for this port. Her cargo is what is called Kiveton Park coal, the same as was sh pped n the Norwegian ship Fjeld, which was ourned at sea some months ago while bound to San Diego.

The steamer Monticello arrived from Vallejo this afternoon with seven boats in tow for the naval battalion. The boats were presented to the reserve by the government, and were furnished with cars, sails and spars. The sum of \$5,000 in addition was appropriated for repairs on the craft, and they are now in first-class thape. They have been overhauled, calked and repainted.—Call.

The Engineering News says: "The Buffalo Niagara Falls Power Company controversy over a franchise for supply-ing that city with electric power has apparently been settled, the city council of Buffalo having at last produced a grant satisfactory to the Niagara Falls Power Company. The most important change from previous proposed grants is the substitution of 2½ per cent for 5 per cent as a tax upon the company for all power sold within the city, and this is not to be imposed until after six years. The com-pany is to be prepared to supply 10,000 horse power to city consumers by June 1, 1897. The grant will be for thirty-s'x years from date of acceptance, and at the end of eighteen years the various conditions imposed by the franchise are to be subject to revision by a board of arbitration consisting of a representative of the company, the mayor of Buffalo. of the company, the mayor of Buffalo, and a third person to be chosen by these two. The grant provides against all possible damage to the property of Buffalo and its citizens, including corrosion of pipes by electrolysis. An important provision is that no change in price for power shall be made after having once been fixed.

Yesterday's Tacoma Ledger says: 'The four-masted schooner Nokomis, Captain Charles Roas, arrived here at 8 o'clock "riday night from San Pedro,coming near being wrecked on the Vancouer Island coast last Monday. Her trip was made further eventful by the sighting on Tuesday of an ocean steamer that is sup-posed to be the disabled Strathnevis. The Nokomis arrived off Cape Flattery De-cember & after having experienced heavy weather, and hove to to await a tug. Monday morning the vessel was a little to the north of Clayoquot sound. At noon land was seen four miles dis-tant, with a reef of immense rocks exnding along its front. The WHY broke against these rocks, throwing the water up like so many fountains and as high as the masts of the ship. The seas were tremendous. The vessel continued drifting closer and closer until night'all. The boats were provisioned and provided with water, and all valuables belonging to the captain and crew placed in them in readiness to put to sea. The swell was so high that it was thought the hawsers would part as soon as the strain of the vessel came upon them. At so o'clock, when the vessel was withte half a mile of the breakers, a scarcely percephigh as the masts of the ship o'clock, when the ressel was within half a mile of the breakers, a scarcely perceptible wind legan blowing of shore. The sails filled, and the schooner began to said slowly out. Within four hours the land had disappeared beseath the cattern horizon. Captain Reas thus describes the meeting with the strange steamship Tuesday morning, just after the incident above described: 'At 3:20 o'clock the next morning we sighted a

The Almanac for 1896 Shows an Increase

The almanac of the Protestant Episco-pal church in the United States of America has just been issued for 1896 and shows the condition and progress of that body during the past twelve months. According to the official figures there are in the United States 58 dioceses and 18 sionary districts, and 7 missionary dis-

tricts in foreign lands.

The clergy numbers 79 bishops and 4,603 priests and deacons. The parishes and missions number 6,118, with a total of 622,194 communicants. Within the year there were 193 ordinations of priests, 64,752 baptisms, 45,796 confirmations, 17,257 mar-riages and 22, 677 burials. The Sunday school teachers number 45,635, and pupils 42,984. The grand total of contributions for all purposes was \$13,507,429.70. In each particular the figures of 1895 show an increase over the figures of 1894, the increase in communicants being 26,163.

The following dioceses and missionary jurisdictions were created last year by the late general convention at Minneapolis; Dioceses of Northern Michigan, Northern Texas, Washington D. C., and Southern California, and the missionary jurisdictions of Asheville, N. C.: Duluth, Minn., and Alaska.

News comes from the Colorado Desert mining camp of Pichacho, near Yuma, that Mary Thurman, daughter of Judge Thurman, has made the richest strike known in any of the desert camps for years. She was prospecting in the hills, and found a vein that promises to make her a bonanza queen. Mary Thurman was once the belle of Washington, and there she married Lieutenant Cowles, now United States naval attache in London, who recently wedded Miss Hoosevelt, sister of the secretary of the United States embassy.
