She finds plenty of traffic work to do, having brought down 1,000 sacks of wheat for the Corvallis mill, 50 tens or hay for Portland and 50 tons of oats for San Francisco. Yesterday she brought down from Booneville for the Benton mills two cargoes of wheat of 2,200 sacks each. It is expected that the Bently will be launched next Monday, and will be ready to pull out for the upper river the middle of next week."

Steamer Transit will start on her second trip to Central American ports at noon today, says the P.-l., with a carpo that surpasses the last, both in bulk and in value. In fact, as much cargo as I was thought safe for the vessel to carry was put on. The interest in the enterprise has grown so rapidly that a cargo was ready for the vessel long before he return to this port, and many applications for freightness had to be defined. Cargo was only accepted for Acajutla, the principal Pacific port of Mexico; for San Jose, which is the principal port of Grateprincipal Pacific port of Mexico; for San-Jose, which is the principal port of Grate-main and of Central America, and La Libertad, the principal port of San Sal-vador. George Augustus Sala had a peculiarly uncertain temper. Once at a dinter given by him in honor of Henry Irving, Lord Rosebery, who was among the guests, made a speech gently bantering the actor. Sala instantly took offense and delivered a terrific tirade which began with "Archibaid Philip Primices, Earl of Rosebery, you have dared this night to insult a man who has served his country in every quarter of the globe." And so on at great length, with tremendous vehemence. The table was thunderstruck, but Lord Rosebery made another speech, which soothed the flery veteran and finally reduced him to tears.
