

in. On the 29th, at \$1.05 are about half price—and at the beginning instead of at the end of the season, too.

Here is the reason: We ordered dark blue and the factory sends dark plaid ones instead, and rather than have us return them they lopped a snug sum off the original price.

They will last today and Monday—perhaps a few for Tuesday; but it won't be safe to wait.

FOR THOSE WHO EAT

For the remarkably small sum of 15 cents one can procure an excellent chicken dinner every Sunday at the popular "Denver Kitchen," east side of 9th street between Astor and Bond. Mr. Richardson, the proprietor, also assures the public that they can obtain at his place a well-cooked, well-served breakfast, dinner or supper any day in the week for the above mentioned price. Give him a call and be convinced that he speaks the truth.

ECONOMY IN FUEL.

The Eureka Fuel Economizer is a self-enclosed preparation which augments the intensity of coal and wood heat to the proportion of 35 per cent.

If the direction pointed on each package is carefully observed, the Eureka Coal Economizer will give to any ordinary or middling coal the same value as that of superior quality.

The Eureka Fuel Economizer prevents the smoke, the fumes and the formation of smoke, which may spoil, in an apartment, so many valuable articles, such as curtains, paintings, etc.

The Eureka burns any kind of gas which might destroy the breatheable air; apartments and factories in which it is used are consequently more healthy and comfortable.

One can obtain a very brisk fire which will last thirty hours without being stirred up and without any addition of fresh coal. Hence an economy of coal, water and money.

The Eureka Economizer produces a clean, more soft and more concentrated heat than a normal heat is capable of. The ventilation must be partly stopped and, again, an economy in fuel is to be relied upon.

We guarantee that our preparation produces no injurious effect on the health, and does not affect in any way stoves, ranges, grates, etc.

Large consumers can obtain the product, which we do not hesitate in terming "miraculous," at much more reduced prices.

Each package bears, with very explicit directions, our trade mark, representing four hands crossed together above a lion with this motto: "In union there is strength." Any counterfeiter shall be dealt according to law.

We receive too frequently applications for samples, and it is with regret that we are compelled to refuse the sending of the same. However, we have liberally given away samples in order to popularize our product, but we cannot afford to support such heavy expenses any longer. The moderate price of our product is in the reach of anybody who wants to try it. It is for the same reason that we have decided to send it direct on receipt of 25 cents.

To try is to be convinced that our product is a triumph of science.

25 cents each package, sent free of charge.

A TWISLER.

A twister in twisting
May twist him a twist.
For in twisting a twist
Three twists make a twist:
But if one of the twists
Twists from the twist.
The twist untwisting
Untwists the twist.
That is when it's twisted with any
Other twist than MARSHALL'S.

Portland, where they were sent for repairs, and says that it is the best on the coast. The new line is working perfectly, except that better results can be obtained when all of the gongs and relays are in place.

One of Astoria's philanthropists says he thinks there is more merit in giving a coat of oil to some poor fellow during the cold spell than in the professions of religion that were ever made.

In planning for the entertainment of your holiday guests, don't forget to order of your dealer several boxes of the M. Corbett cigar, exclusively imported by the Corbett & Macleay Co., Portland.

Tonight, the weather clerk says, there will be snow. No doubt the small boys will get out of the snow and have many people they can roll with on the sidewalks and street crossings.

Just received, St. Germain, Neufchâtel, Philadelphia Cream, Kronenkrone, Sierra, Schloss Kase, Adam, Swiss, Jodynot, and many other varieties of fine American and imported cheese at Foad & Stokes Co.

Yesterday was a busy day among the merchants. The people were getting ready to celebrate the opening of the new year with good dinners and many packages were delivered in all parts of the city.

As we are about to start away o' d'negatives, we now offer duplicate orders at a greatly reduced price. Should you desire a lot of these pictures kindly send your order at Crow's Gallery within the next 30 days.

The supply pipes of the old water system gave out yesterday and for several hours the water was turned off so as not to allow the reservoir to be entirely drained. The water will not be ready for use any time soon.

Mrs. Narcissa W. Kinney, state president of the W. C. T. U., has been elected to the Baptist church, 3-9-97, "Social Purty, or the Knights of the White Cross." Everybody is cordially invited, especially young men.

We have the finest and most complete assortment of canned fruits that has ever been placed on this market. You can convince yourself of this by giving us a call. Eight cans for \$1.00.

Postmaster Wise yesterday received a telegram from the department announcing that commencing today there will be a Sunday mail box. This will be good news to all who wish to get the San Francisco and Portland papers.

By advisers I mean those who know that advertising will do more to bring results; by business men I mean a very large class of manufacturers who are "poor in the midst of great wealth," i. e., of possibilities of development.

If you want to find out what kind of wine is the strongest to "kick" best, ask the best fisherman on the river. "My wife will tell you MARSHALL'S." It is made more carefully than any other and in the market. Elmore, Sanborn & Co., agents.

Price C. B. Smith's fine Christmas candles.

A physician remarked the other day that instead of cold coming from atmospheric changes, as people generally suppose, they generally come from the inside, by breathing impure air. Ninety-nine per cent of what are termed colds are nothing more nor less than poisoning of the mucous membrane by bad air.

Have you overlooked—any of your friends at Christmas? If so, you can save yourself the trouble of buying a nice bottle of perfume as a New Year's gift. We received a large invoice of these goods too late for the Christmas trade, consequently have a fine line of fresh goods for the New Year. Bates-Crain Drug Co.

A well known book-seller is authority for the statement that a Bible, printed from type called Brilliant, which is the smallest type used in English printing, has been published by Oxford University Press. The volume contains 1,426 pages, and weighs three ounces. It measures three and a half by two and one-eighth inches, and is five-eighths of an inch thick.

The funeral of Mrs. Albert Dunbar, of Port Stevens, was attended by a large number of people. The deceased was a native of this city, and was the wife of Mr. Dunbar, who was killed in the Astoria explosion. The funeral was held at the residence of Mr. Dunbar, and was attended by a large number of friends.

Do you know that Marshall & Co. refuse to use many tons of flax offered to them annually. They feel that the best growth obtained and will not allow a pound of ordinary flax to be the waste of their factories. That's why there's a "twine in the world like Marshall's." The twine is made from the best flax, and is the only twine in the world that is made from flax.

A large party of Portlanders, the guests of Mr. W. R. McKenney, passed through the city on their way to Seaside where they will watch the old year out at Mr. McKenney's cottage, "Gardachron." The party consisted of Mr. and Mrs. Healy, Miss Maud Dewey, Miss Ada Jewell, Miss J. Warren, Miss M. Morris, Mr. V. Dures, Mr. Jay Ewing, Mr. Dayton, and Mr. Sealy.

The El Modelo cigar, imported exclusively by the Corbett & Macleay Co., Portland, is having a great run throughout the West.

An observing, common sense man said recently that he did not believe there were any people on the globe more self-sufficient, or who were more ready to take equal, queer, drum-beating and life blowing Salvationists. There is no talk too lowly for them to do, and while they do it they are determined to do the most of their work. They haven't a long creed, but they have a record which will insure their future.

Mr. R. L. Boyle, the real estate man, who has just returned from the South, says that business is improving little in that country and that everywhere he went all had a good word for Astoria and her future. The twine and shingle mills are running and there is every indication that there will be considerable emigration from there to Astoria in the spring. While in the South Mr. Boyle arranged to advertise Astoria on the street cars of those cities.

Elsewhere in these columns appears the announcement of Mr. Hammond's return to Oregon. That gentleman will doubtless be in Astoria in a day or two, and no doubt they will plan for visiting local business enterprises, which a prominent man spoke of yesterday, will be inaugurated at once. The good work cannot commence too soon, and as that gentleman remarked, too much care cannot be exercised to keep it on the lines of solid business advancement instead of making it a sensation "boom," of which sort of work the people are tired and disgusted.

Notable Raffell, the Italian sailor from the Bedfordshire who was examined before Judge Gray Friday to determine his sanity, is undoubtedly a very sick man. The testimony was to the effect that he was not crazy, but sick. He has eaten nothing for several days and is so weak that he falls in trying to walk across the room. He is the man who is said to have a "boom" in the city of Bedfordshire with a cannon, bar, and when Sheriff Hare and Deputy Clinton arrested him he was in front, his legs and arms bound and then securely placed down to a bunk. The cords and irons were removed, and then the alleged deaf man was found so weak that he could not dress himself, and had to be supported by the sheriff and his deputy to get him to jail. Sheriff Hare and Deputy Clinton are gratified by the above facts, and Dr. Fulton states that the man is not crazy, but simply sick and weak from the need of proper nourishment. The man denies that he attempted any assault and the ship carpenters who have been working around the Bedfordshire had heard of none until the man was arrested.

Charles Wirkkala's saloon, on Astor and 7th streets, which has long been one of the most popular and best patronized drinking places in the city, will soon be moved from its present location to the lot immediately east of the Casino theatre. Many improvements will be added as Mr. Wirkkala intends keeping up the reputation his saloon has had since he assumed charge years ago. Only the best wines, liquors and cigars sold at the bar, a musical concert by the best talent in the city, under the leadership of Professor Schwabe, the well known pianist, will be given nightly, and the place will bring your friends with you.

The Upper Astoria Social Club held their regular weekly meeting at their hall in Upper Astoria Friday evening. The following program was rendered: Recitation, Fred Wright; song, W. M. Sanden; music, Upper Astoria Mandolin Club; recitation, Miss Mary Willis; recitation, Willie Wilbur; music, Master Johnson; music, Upper Astoria Mandolin Club. After a recess of ten minutes was taken, after which the club's paper, "Kodak," was read by Alfred Schroeder, and loudly applauded. The debate was then had on the question: "Resolved, That woman should propose marriage." Mr. W. C. Graves spoke in the negative and Mr. Alfred Kinney in the affirmative. After a lively and amusing discussion, the question was decided in the negative.

On the first of January next, the magazine known as the "Columbia River," which has heretofore been devoted to fiction entirely, will undergo a complete change, and will be issued as a five-cent magazine, filled with illustrations of a popular kind. The magazine will be a considerable novelty, the idea being to emphasize the illustrated part of it rather than the text. There will be 48 pages containing not less than 20 illustrations, printed from the best of plates upon the best of paper. There will be pictures of noted painters, of people of the day, of scenes and actresses, of literary individuals at home. Scientific matters will be treated of, and amateur photography will be given a generous space. Altogether the design has met with a cordial reception wherever spoken of, and the readers will be sure to profit by purchasing the early numbers which will form a perfect little picture book of genuine, contemporary interest.

There is no reason why the people of Astoria should go to Portland, San Francisco, or any other place for toilet articles, druggists' sundries, or drugs. I carry a complete assortment of each as any retail house west of the Rocky Mountains. I have just received 5 dozen tooth brushes, from direct Eastern importers to sell from 5 cents to 75 cents; also Prophylactic and Dental Plate tooth brushes, 20 dozen hair brushes from 15c to 25c each; tooth brushes from 15c to 25c each; and shoe brushes at all prices. Dressing combs from 5c to \$1.25; 25 different handkerchiefs extracted in bulk, and a large assortment of bottled goods in choicest grades of imported and domestic manufactures, also some very handsome cut glass bottles filled for holiday presents. In fact I carry everything generally to be found in a first-class drug store and at the lowest prices. I would invite every one to call and examine these goods, whether you want to buy or not. We will take great pleasure in showing them.

A STILL ALARM.

Firemen Narrowly Escape Death, and a Horse Falls Overboard.

A still alarm was sounded, late Thursday night, at the house of Enrie, Company No. 1, which was promptly
