CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregorie, most remedica for children are composed of opinm or morphine?

Do Von Enow that opinm and morphine are stupefying pareotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotles

Do You Know that you should not permit any medicine to be given your child

unless you or your physician know of what it is composed? Do You Mnow that Castoria is a purely vegetable preparation, and that a list of

Its ingredients is published with every bottle? Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher That it has been in use for nearly thirty years, and that more Castoria is now sold than

of all other remedies for children combined? Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word

"Castoria" and its formula, and that to imitate them is a state prison offense? Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 33 average doses of Castoria are furnished for 35 conts, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts,

The fac-aimite signature of Chat St. Thickers

Children Cry for Pitcher's Castoria.

The British ship Glengowan will probably be a total loss. She sailed from Swansea for San Francisco seventy-nine days ago, and at first all went well. en a month out the cargo of coal was found to be heating, and captain Doughty at once took every precaution possible to save his ship. The hatches were battened down and water was numped constantly on the heated deck. The fire spread rapidly, and seeing there was no chance to control it, Captain Doughty headed his ship for Port Stanley. When the anchor was dropped the hold of the ship was a raging furnace. All control over the fire was gone, so the captain ordered the ship scuttled. This was accomplished on December 17th last, and the latest news from the wrock is that the Glengowan will be a total loss. The Glengowan will be a total loss. The Glengowan will be a total total the greatest accomplished on the wrock is that the Glengowan will be a total total the greatest accomplished to the control of the contr loss. The Glengowan was a new ship and was on her maiden voyage. She was 1,800 tons register and was consigned to J. J. Moore & Co. Captain Doughty is well known as an able seaman and a first-rate shipmaster.

On December 16th, at the Liverpool pr lice court, nineteen seamen were charged with refusing to obey the orders of the master of the British ship Dunstaffnge, which is well known here, and which left this coast in July and reached Liverpool in October. The attorney for the captain and the owners informed the court that the vessel left the Mersey on the 11th Inst. for Philadelphia, with a crew of 41 hands all told. They went out in a tug, but when cutside the Mer-sey they met bad weather, the tow rope broke and they had to return to port. That was on Thursday. On the Friday morning, when in the Mersey, the cap-tain requested the crew to turn to, but they refused, stating as the reason that they refused, stating as the reason that the ship was too heavy for them. They were asked to turn to again, but they again refused. Captain Patterson was called and gave corroborative evidence. He said each of the prisoners and received an advance note for £2 lis beforsailing. Asked by the magistrate what they had to say, prisoners said the vessel was not safe to sail in, and made various allegations against the captain. The magistrate said he had a good idea why they had refused. They thought FREEMAN & HOLMES. why they had refused. They thought when they got back to the Mersey that they had 62 15s in their own or their they had I los in their own or their wives' pookets, and that was the reason they refused work. They were all liable to six weeks' imprisonment, and if the offense had taken place on the high seas, when the lives of other men were endanced, they would have been sent to jail for that term. As it was, they would have to pay a fine of 55s and costs we one month's impressement in default. or one month's imprisonment in default,

"Yesterday morning," says the Chronicle of the 3d inst., "Peter Bishoff, Michael McConnell and Peter Anderson, three men from the scaling schoner J. Eppinger, came in from sea in one of the vessel's boats. They had left the schooner of the Farallon blands shout 5 called. General Machinists and Boiler Makers John Fox. President and Superintendent off the Farallon islands about 8 o'clock Tuesday morning to hunt seals, when a sudden fog shut down on them, hiding A. I. Fox.....Vice President the vessel and every other object from view. They fired off their guns, but heard no answering report. So all day they sat in their little hunting boat and they sat in their little hunting boat and waited for a rescue. A number of seals were seen, and two were shot and secured to break the monotony of the enforced idleness. Toward night the sea became rough and the boat was in danger of being swamped. The waves would break over them, and while two of the men kept the boat's head turned to sea the other man would bail out the water as fast as he could work. They had no idea which way they were drifting or in which direction the wind was blowing. The sun went down and still the castaways handled the oars and bailed out their almost water-logged craft. They were worn with the constant labor and drenched to the skin by the spray, but dared not for a moment stop their constant work. At morning Gentlemen:—I had occasion to use several boxes of Krause's Headache Capsules while traveling to Chicage to attend the National Democratic Convention. They acted like a charm in preventing headaches and dissiness. Have had very little headache since my return, which is remarkable.

Toura respectfully, JOHN U. SHAFFER, Ed. Renove (Pa.) Record. Ed. Renovo (Pa.) Record.

At morning they were seen by the crew of a pilot beat and taken abeard. After the fog had lifted and they had recovered their strength they left the pilot beat close in shore and salled their beat into the land-ing at Powell street. The men report

that the J. Eppinger has been quite succussful in her work of following the real herd along the coast and had taken & skins, a number of them fear file Paral-lones. They expect the schooner will come into this port before continuing on her way to the Japanese waters."

Demorest Magazine.
No part of the Cotton States and International Exposition, which was opened at Atlanta on the 18th of November, excels in interest or significance the woman's exhibit. It is an impressive object less in the activities and growing field of effort of feminine workers. Among its promi-nent features is a display of the artistic work of women as shown in painting and architecture and sculpture. There are also educational exhibits, a department of technical instruction in connection with the industrial arts, a display of art de-signs for tiles, book covers, furniture decoration and wood carving. A profu-sion of specimens of embroidery, plain and fancy needlework, and ceramics have been received. The exhibit has been placed on public view to the best possible advantage by the general board of women managers, which has it in charge. The part of it devoted to the work of New York women is particularly interesting. technical instruction in connection with York women is particularly interesting. This result is due to the enthusiasm and energy of the New York committee, whose chairman is Miss Elia M. Powell. The

This result is due to the enthusiasm and energy of the New York committee, whose chairman is Miss Ella M. Powell. The musical library, which has aroused great interest, was her idea. Miss Powell's plan in gathering it together was to illustrate the achievements of women as compasers, singers and teachers of music. The collection includes personal souvanirs of women distinguished in the musical sensurely never saw war.—Salt Lake art, biographies and other works, por-
