LOOK TO THE HATCHERIES.

While it is far from the Astorian's desire to rebuke or attempt to advise those public-spirited gentlemen in our midst who are working so hard for the establishment of new industries in this city, it may be advisable at this time to remind them, and the citizens generally, that they are overlooking one very important matter. It is the preservation and extension of an industry that has been peculiarly the property of Astoria for many years, one that has kept the population alive during the hardest times in our history, and one that is today of more assistance to us as a money center and a world-wide advertisement than any dozen of new projects we could possibly enter into. It is the canning and distribution of Columbia river salmon.

America seems to have gone lost over Mrs. Rogers. She is in Washington, and as much feted and entertained as when she first came. Her last book she has made for more had she retained the right to a royalty. It is said that not since the works of Charles Kingsley has any English writer been paid such prices as Mrs. Craigie receives, and it is a matter of some astonishment that she should accept \$500. The rumor of her marriage to George Moore, the English novelist, is still mooted, but her family and friends deny such a possibility. Every Sunday at home she has a place set for a dinner, and he is at liberty to come or not, as he chooses.

MARVELOUS RESULTS.

From a letter written by Rev. J. Gunderson, of Diamond Lake, Mich. We are permitted to make the statement that we have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. Will you be good to send me a bottle of your church at River Junction she was brought down with pneumonia succeeding a gripe. Terrible paroxysms of coughing would last hours with little intermission. It seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory. OWN VICTOR EXPECTED TO BE A MUSICIAN.

OWN VICTOR EXPECTED TO BE A MUSICIAN before his health sent him roaming over the Western plains to find both health and material for profitable tales of cowboys and Indians. The comic opera, "Dido and Eneas," which he composed for the Hasty Publishing Club of Harvard when a youth of 25, is still regarded as a classic of its kind, and he may write a great play when he has exhausted his present field, for the art of Charles Kemble and Fanny Kemble, his grandmothers, is in his veins. Mr. Victor is 35 years old, a gentleman of very elegant leisure, in Philadelphia, and his writing is done for amusement.

HELEN MATHERS WROTE HER NOVEL "COMING THROUGH THE RYE" IN A BIT OF PAPER. Her father, who was a strict disciplinarian, denied her some cherished wish, and she paid him off by depicting the family martinet in her book. She was greatly surprised when her novel was accepted by the publishers, and went about in an agony of fear lest her father should discover the author.

which are the only things necessary to be accomplished to stop the exportation of American gold and revive American business and labor. The senate seems to be stalled between free trade and free silver.

How small a figure actual coin cuts in some large financial operations is shown by the recent transaction in the bank of England, by which China paid to Japan an indemnity of \$20,000,000 in gold. The coin would have loaded thirty-five wagons with a ton each, but the handling of one piece of paper sufficed to transfer the money from China's account to the credit of Japan, the whole proceeding occupying but a few minutes.

"You are used to handling gasoline, then?" "Yes, sir."

"And you are posted on electricity?" "Thoroughly."

"Good. Of course you are a machinist also?" "Certainly."

"And I presume you have an engineer's license?" "Of course."
