# CASTORIA

for Infants and Children.

SHIRTY years' observation of Castoria with the patronage of millions of persons, permit us to speak of it without guessing. It is unquestionably the best remedy for Infants and Children the world has ever known. It is harmless. Children like it. It gives them health. It will save their lives. In it Mothers have comething which is absolutely safe and practicelly perfect as a child's medicine.

Casteria destroys Worms. Castoria allays Feverishness, Castoria prevents vemiting Sour Curd. Casteria cures Diarrhma and Wind Colle, Castoria relieves Teething Tronbles. Castoria cures Constipation and Platulency.

Castoria neutralizes the effects of carbonic acid gas or poiscnous air, Castoria does not contain morphine, opium, or other narcotic property. Castoria assimilates the food, regulates the stemach and howels, giving healthy and natural sleep.

Casteria is put up in one-size bottles only. It is not sold in bulk, Den't allow any one to sell you anything else on the plea or promise that it is "just as good" and "will answer every purpose." See that you get C-A-S-T-O-R-I-A.

### SHIPPING DAY BY DAY

Marine Matters, Here, There and Everywhere.

The steamer Harrison is still at

The schoner Glide was towed up river yesterday afternoon

at Astoria. The three-masted schooner Corona left

out yesterday afternoon for San Fran-cisco with a load of lumber.

None of the vessels in port left out yesterday. At a late hour last night the weather had moderated sufficiently to al-low of some movements this morning.

given that the Swan island bar, single pile, post light beacon (upper) was carried away by freshet and will be replaced as soon as the depth of water in the Williamette river will permit. This notice affects the List of Lights and Fog Charles Brown, second mate of the ship manual and post late. signals, Pacific Coast, 1886, page 21, No. Pacific Coast, 1894, page 46." Both the Potter and the Telepho

J. Holyn, second mate of the barkentine North West, loading lumber at Inmar. Poulsen & Co.'s mill, Portland, met with a severe accident yesterday, resulting in the breaking of two of his ribs. The man was standing by the chute down which the lumber was being sent, and in endeavoring to check the progress of a heavy timber, was caught between it and the hatch combing. Dr. Perry, marine surgeon, was summoned, and after examining the man's hurts ordered him taken to St. Vir vot's hospital. While not dangerous, the injuries are painful.

The Cadsow Forest index reaches the

of this river and the mouth of the moute of this river and then disappeared. The present gale blowing from the northwest ought to bring it within reasonable dis-tance of the Cape is she is above water, even though her ballast has shifted. Meantime immediate steps should be taken by the citizens of Astoria to ask for the dismatch of the Columbing or the or the dispatch of the Columbine or the Manzanita on a search. Common hu-manity suggests such action, and no time ought to be lost to see that it is done.

ASTORIA IRON WORKS General Machinists and Boiler Makers a tine to him, which he caucht. A hig-cone was then passed down and Nell, who had twice gone under with the small line in his hands, was hooked into it, and slowly drawn up to the vessel's side, and hauled on deck. Two cases of salmon were lost. John Fox. President and Superintendent A. L. Fox......Vice President

The missing Mackinaw has not been off the ways at San Francisco more than two weeks. Her machinery, bollers and hall were all in first class repair. Speak-ing of her probable disappearance, a prominent shipping mm in Tacoma says: "It is the common opinion of those ac-quainted with the practice of steam col-lers running from the north to San Gentlemen:—I had occasion to use several boxes of Krause's Headache Capsules while traveling to Chicago to attend the National Democratic Convention. They acted like a charm in preventing headaches and dizziness. Have had very little headache since my return, which is remarkable.

Yours, respectfully

JOHN U. SHAFFER,

Ed. Renovo (Pa.) Record.

For sale by Chas. Rogers, Astoria,
Or., sole agent.

position while the vessel is at sea." The Mackinaw is controlled by James Jerome, but is now under charter to the Southern Pacific Railroad Company to carry coal to Challend and Rompany to carry coal to Oakland and Port Costa

The steamer W. K. Merwin is now Witch H docked at Mount Vernon, minus her pilot promptly house, steering gear and mast, with a badly disfigured smokestack and a muchbudly disfigured smokestack and a muchfrightened crew, says the P.-I. This is
due to a collision that occurred Monday
night between the Merwin and the partially opened drawbridge that stretches
across the Skagit river at Mount Verson.
The boat had gone past her regular landling place this side of the bridge, to
Avon, and on returning down the river
whistled as usual for the draw to open.
A stick in the wheel prevented the boat
from backing when she got near the
bridge, and driving against it full force
the whole works above the upper deck
were swept clean as far back as the
smokestack. Captain W. K. Merwin was
slightly hurt, but beyond a bad fright no
one else was injured. The crew slept
ashore that night. The captain has put
in a claim for damagres, the amount of
which was not learned.

In these winter days, when the wind

In these winter days, when the wind The British bark Glengaher left up the river for Portland yesterday morning. She had a few hundred tons of coal aboard which she will discharge upon her bestlend. The properties of the water front, it is amusing to not how the newcomers to Astoria—particularly women and children—who have come among us from Eastern interior towns to cast in their lot with the future of the The Potter yesterday took a load of salmon from Elmore, Sanhorn & Co., up the river, and one thousand cases of the following notice has been issued by Investigation Farmholt: "Notice is hereby given that the Swan island bar, single pile, post light beacon (upper) was carried away by freshet and will be relief to the full results of the interest of the interest of the interest of the latter go to Pillar Rock, and the balance to Clifton. On the previous evening the Potter took away 100 cases of salmon.

The following notice has been issued by Captain Farmholt: "Notice is hereby given that the Swan island bar, single pile, post light beacon (upper) was carried away by freshet and will be relief to the full. The majority of our women and children would be more healthy and vignous in every way if they indulged more often in visits to the water front and allowed Mether Nature to rough handle

to Providence hospital yesterday to be nursed for an accident received at sea. Brown blames his misfortune to Captain are very busy nowadays with shipments of salmen and material for the various canneries along the river. The work this year preparative to opening the season, is much farther advanced than at this time in 18%, and already a great many new boats are being built. Most of the cameries are getting new supplies of coolers, and all are having their machinery and boilers attended to.

Mr. P. Cherry, British vice consul, has notified Lloyd's agent in Victoria, B. C., of the disappearance of the Cadsow Forest, and that official has no doubt sirready communicated with the Donainion government and the imperial authorities with the object of getting a search instituted by Dominion tenders. It is believed that if one of our own steamers is sent out she should get to Flattery and from there search the coest as far as a degrees north.

I Holyn, second mate of the barkentine North West, loading lumber at Immar, North West, loading lumber a It is not known how badly h

injured. SHE HAD REFORMED.
