The steamer Augusta left up for Port-tand yesterday morning. She will take aboard a large quantity of lighthouse supplies for Cape Araga, and will leave out for her destination with them as soon as possible. Her commission on this run hus been caused by the wreck some months ago, of the old schooner Donald, which had up to that time, done the work of transporting lighthouse necessaries for of transporting lighthouse necessaries for

The battleship Oregon is now equipped with her battery of 8-inch ritles and is ready to receive her H-inch guns. In a great emergency the Oregon could be placed in fighting trim within three weeks. The B-inch guns could not be placed in position for effective use within that time, but the ship could make a good fight with her 8-inch guns should her presence in action be demanded. The Oregon is at the Union free Works Sen Oregon is at the Union Iron Works, Sa

A new propeller, new anchor and new chains for the steamship Strathnevis arrived here today from England, says a Tacoma exchange. The several stricles were shipped to Tacoma in hond, and the local customs officers collected duty or them today. The propeller is a huge on and welcas T. Tounds. It was made in England December 26, two days after the Strathnevis was towed into Port Townsend, and is 15 feet in diameter. The Strathnevis will go on the dock in a few days. few days.

The new pilot boat Jessie will probably leave out this morning for Shealwater hay, where she will be impected by the Washington commissioners and admitted to the pilot service. She has all the necessary supplies aboard, and will take out with her Captain Tatton as skipper, and Pilots Malcolm and Woods. It is rumored that Captain Stream for some reason or other, has fallen out with his brother pilots, who hold Washington branches, and that he will not go to sea on the Jessie. ASTORIA IRON WORKS General Machinists and Boiler Makers

The appearance of the Jessie, as she sits on the water, is very deceptive with regard to ber size and dimensions, and after once getting aboard of her, the visitor is struck with her fine beam, and the comfortable and recomy quarters she has for both pilots and crew. The former are particularly well fixed. There are four staterooms aft, all nicely furnished, and communicating with patent lavatories. The little salcon is very nicely decorated, while the kitchen is large and just as convenient as can be found ly decorated, while the kitchen is large and just as convenient as can be found in any private residence. With her yach? lines and large sall area, the Jessie's altogether a most desirable craft for the purposes for which she is about to or used, and the Washington pilots are a very lucky est of fellows to be personessed of such excellent and desirable quarters.

A Japanese interior will always be in favor with persons of moderate means, because so good an effect may be obtained at so slight a cost. Hang the wall from baseboard to ceiling with cariridge paper of dull old red, simulating a frieze by setting the bamboo picture rail eighteen inches below the ceiling. Form a dada and pasels with bamboo, and stendil both dado and frieze with Japanese designs in bronze and copper. Put a greenish cream matting by the floor and spread it with jute rags in imitation of Daghestan and Kazac, and some of these imitations are really wonderful.

There must not be a single picture on the walls. The divan must be low—a spring mattress laid directly on the floor with another of hink or excelsion on top. Cover this with a Japanese print and have pillows covered with Chigmi coth, cotion creps and Japanese prints.
