THE LIGHTSHIP AND THE PILOTS.

If it is true that Commander Faren holt has issued an order forbidding the lightship to harbor pilots after discharging their vessels outside, it is to be hoped federal aid and supervision in salmon the Chamber of Commerce will take propagation is bearing prompt and prompt steps to have it rescinded.

There can be no possible harm to the government in this custom, since it is understood the pilots are more than furisdiction in the premises. It is to be willing to pay for their accommodations, and it is easy to see how the movement lowed to sleep, like so many others, in the et of shipping will be seriously crippled and overcrowded archives of the committee. the pilots themselves subjected to much The energy with which Senator Mitchell unnecessary hardship if it is abolished.

of affording, within reasonable bounds, report to the senate. to pilots who are prevented by stress of weather from rejoining their boats after putting ships to sea, almost as useful a service to commerce as the single function for which they were originally intended? In fact there ought to be a gov. In shipping circles there unless the numernment requirement that each lightship ber of delegates shall be based on a tonoff a much-frequented harbor shall constitute a known pilot station, and be kept constantly supplied by the harbor's reg. 13,290,000 tons of shipping, had only the ular pilot service, with a quota of skilled pilots to be furnished on application to

ther out in the ocean. The matter of Commander Farenhoit's for instance, would make the conference Wright.

J. L. Hartman, receiver, vs. Charles inquiry on the part of our own and the a farce. Portland Chamber of Commerce, and we hope to see it have their immediate and determined attention.

AN ENGLISH AUTHORITY.

the greatest benefit from her policy of thority. free trade. He said:

But there is another point which is be But there is another point which is being brought forward. They say: "We dare not adopt this policy that is proposed. We dare not impose a duty of 5 per cent. or 10 per cent. upon the products of foreign countries coming into England so as to favor our colonies, because, if we do, those countries will recall attended interfered with." Retallation of the interfered with. Hetallation or other proparations."

Rev. John Burgus, Reokuk, Iowa, writes: "I have been a minister of the Methodist Episcopal church for 10 it, you cannot get it any higher. Know-years or more, and have never found anyshe had committed herself, that what-ever they did they could do it with im-punity, foreign countries have gone on building up their tariffs against her. purity, locally building up their tariffs against her. Show me the country in the world that has exhibited the slighests appreciation of the magnificent generosity of England and Pays Several Thousand Deliars in Taxes—The Gould Boys. of the magnificent generosity of England in doing what no other country in the world has done for them, that is, allowing them to send everything they maintacture or produce into the United Kingdom to strike down and paralyse British industry, agricultural and manufacturing, from one end of the country to the other, and yet receiving no consideration whatever. [Cheers.] We have had an exportantly of seein how gratedul countries are for the favor with which England has treated them. What is the fact with reference to the great republic to the south of us? In 1899, when they sent £91,899,990 of American products in the England without having to pay one farthing of duty, and only received something like £12,691,699 of Drillsh product in return into the United States of American, and the that would satisfy the most greedy notion in the world so far as reciprocal trade was concerned. But it did not. What did they do? They sat down and devised a McKinley tariff, by which they were taking in exchange for £54,000,000 which they were taking a severe blow at England's great dependency, the Dominion of Canada." [Applause.]

What will our Democratic frends of the free trade genus say to this magnificent tribule to the business ascences and teachers and toys and sports. The nursery is a long, well-lighted room on the second story and overlooking a beautiful pine woods. It very much research and surgery, and have the same governmental story and overlooking a heavillable a young symmashim. There are sensible a young symmashim. The sensible a completely equipped symmashim and the dides of the room are r

statesmanship of the Republican party. Sir Charles Tupper evidently believes that the Republican tariff, and especially the McKinley law, was designed for the benefit of our own people as against forcegn countries. He also shows that these Republican laws created a balance of trade in our favor with Great Britain. Now, if Sir Charles is right—and it is no persuantly that he can have no object in miss-stating the benefit this country has derived from a projective tariff—then it was a wrong, little short of a little base has shown decided tendencies then it was a wrong, little short of a little outdoor sports, and withal a little of the state of the same with a law of the little outdoor sports, and withal a little outdoor sports, and withal a little outdoor sports, and withal a little outdoor sports. statesmanship of the Republican party? vise a completely equipped gymnastur Popper unconsciously states very force. It is a parents, especially his drawing his the difference in the sature, if we the sature that his father's knowledge may deliberate policy, of the solution and the sature that Kingdon cannot suppose that his father's knowledge may be more at that Kingdon cannot suppose that his father's knowledge may be more at that Kingdon cannot suppose the sature of the sature of the parents of

itsh statesman's reasoning it is not dimthe account for the mability of the Cleveland administration to maintain the

Another big increase in the Britisl navy and the large additions to the mercantile fleet will be likely to make the work in the British ship yards very brisk for the next year or two. Harland & Wolf, of Belfast, announce that there is work enough ahead to keep their force of 5,000 mea employed for the next year or two. Japan is going to build a new navy, largely in British ship yards; the wife German emperor is satisfied apparently that the German navy is hardly big anough to drive the British navy out o intentions intended for pub- sight, and so he has given orders for the construction of more ships, many of Business communications of all kinds and them in British yards. Altogether, the remittances must be addressed to The British shipbuilders are not likely to suffer much for a year or two.

The Times-Mountaineer thinks there i comething wrong in the claim that the Cascade locks cannot be opened for traffic without further appropriations from con green. It is somewhat strange that the defect in the middle lock was not dis covered and proper steps taken to remedy est weekly in the state of Oregon, has it long ago. There has been more than next to the Portland Oregonian, the a suspicion prevalent for some time that largest weekly circulation in the state, the locks would not be put in operation on the first of March, and the Times Mountaineer's demand for a tigid in ventigation as to the causes and respon sibility for the delay in conferring this costly and much-needed benefit on the commerce of the lower Columbia will find an earnest echo from this section of the state.

The late memorial from the Astoria Chamber of Commerce on the subject of promising fruit in the reference to the enate judiciary committee of Senator Mitchell's inquiry as to the government's hoped that this question shall not be alpushed the matter should inspire the What is the lightship there for if it is Chamber of Commerce to renewed efforts not for the benefit of commerce, and to keep it moving until the subject has isn't the refuge these vessels are capable had thorough consideration and a fair

English papers say the proposal to re open the Washington maritime conference to consider the question of side lights and sound signals will not be favored same voting power as the smallest maritime power. English shipowners think all vessels missing the pilot boat fur- to give Great Britain, with over half the total tonnage of the world, a voting power not exceeding that of Belgium,

The Astorian has always claimed and published many arguments to prove that the government had jurisdiction to prevent the extermination of the salmon. Commissioner McGuire has repeatedly said that the reasons urged by this paper land Sir Charles Tupper, in his lecture on for the government's jurisdiction, both preferential" trade, which he delivered in the regulation of the fishing season in Manchester a few weeks ago, drew a and appliances to be used, as well as the sive control of propagation methods, claimed Great Britain is treated in matters of trade by the nations which derive had known to be advanced by any au-
