OPENING A SLUICE GATE

Relièves a dam of a superabundance water. The bowels are a kind of sing-gate of the system, and serve to carry off superfluities which would otherwise flood and flamage it. Constipation obstructs this avenue of escape. House ter's Bitters opens it and refleves the system. This it does gently and gradually, but completely, and does not, like a violent purgative, gripe, convulse and drench the bowels, and leave them weak and unfit for efficient service afterwards On the contrary, it invigorates and reg

It also strengthens and imparts them. It also strengthens and imparts activity to the stomach, liver and altherya, counteracts a tendency to rheumatism and invigorates the nervous system. For the relief and prevention of chills and fever, bilious remittant, dumb ague and ague cake, it has no peer among modern remodifes. Persons convalescing or suffering from the debitity or infirmities of ago find it highly beneficial.

HYDRANTS TESTED. Satisfactory Results From the New Res-ervoir Pressure.

Yesterday afternoon Chief Enginee Green, of the Tre department, made a test of the high pressure service in the water mains for fire purposes. Under a pressure of 113 pounds to the square inch, a length of hore was connected with the hydrant at the corner of 11th and Commerical streets. Through a by-inch nearle the stream of water was thrown 26 feet.

brown 250 feet. This gives Astoria the best fire pro-tection of any city on the coast, a hydrants are placed at every street coner. The pressure is sufficient to be effective in nearly every part of the city and will make it well-nigh impossible for a fire to get beyond control. Today under instructions from the co on fire and water of the common council, another test will be made of hydrants in different parts of the city; probably on Franklin avenue and in East Astoria. Equally successful results as those of Equally successful result yesterday are anticipated.
