WHAT FISHERMEN

Will wait for no man. Ther - Reports From Canneries Up River and From Patrolmen of the Union.

ALL QUIET ON THE POTOMAC"

The New Cold Storage Boase at Goble About Ready to Receive Fish-Kalama Getting Some Pinh-Eureka and Hume Canneries Hauning.

Among other reports received yes erday concerning the sutuation on the Upper Columbia river in regard to fishing, it is stated that the following canneries are packing: The Dalles Packing Company; M. Herrick; McGowan, and F. M. Warren at the Cascades; 8 Barnes, Portland; The Eureka Packing Company: Wm. Hume, and Hapgood. It is asserted that the Eureka Packing Company is receiving from five to fifteen tons per day, and that all of the above packers are paying four cents per pound for fish, except at Portland, where three and one-half cents is being pald, with more fish than can be taken care of. It is also stated that seiners at Wallane Island are in operation, and at Hodgkins and Ball, J. O. Hanthorn at Quinn's Landing, and the seiners at tions's new grounds, are fishing. The ishermen complain, however, that owing o the coldness of the water, fish are

running deep and that the catches are consequently light. It is also said that the report that the canneries at ilwace are running cannot be true, because there are really no fish in the river The trapmen, however, are putting in more traps. It was also reported from liwaco yesterday that the militiamen in patrol boats, were stopping all boats appearing in Baker's Hay and inquiring as to the nature of their business. Several promment men in their own boats, it is said. inent men in their own locals, it is said, were challenged by these patrolmen.

In opposition to the above reports as to the upper river, Mr. Stugg, one of the patrolmen for the fishermen's union, who had just returned from up the river, said to an Astorian representative. These been as far up the river. "I have been as far up the river as Kalama, and found everything quiet and peaceable along the entire river. There is not much fishing being done. Perhaps ten or fifteen boats from Hume's are out. At Kalama they are jaying three cents for fish caught on sturgeon hooks, and three and three-quarters cents for ush caught by gillnetters, while for sh weighing over thirty pounds they are aying five cents. I found that six boxes f salmon were delivered this morning at the Eureka cannery. No fishing is being done of any consequence between May ger's Landing and Hume's cannery. The ger's Landing and Hume's cannery. The larger part of the fishing now going on is done by men and boys in small skiffs. A considerable amount of this sort of work is being done in the neighborhood of Ranier, but it cuts little figure in the general situation. Mr. Warren says that he is not 'roubled at all over the strike, because it nermits the fish to ascend the river, and they are caught in his wheels higher up. There is almost an entire lack of any sort of action contrary to the position taken by the fishermen's union, the better class of men being in sympathy with and standmen being in sympathy with and stand-ing by the union. As to riots or force being used, no such thing is dreamed of. "At Goble I had the pleasure of visiting the new cold storage houes in which, I think Messra Present and Warron, of Portland are largely interested. I would Portland, are largely interested. I would advise every fisherman on the river, if opportunity affords, to visit this institu-tion. The buildings cover a block of ground, and are the most extensive of

any plant of this nature that I have ever seen. Their construction is upon the latest scientific principles, and the freezing houses contain every modern device. The foundations are very heavy, built The foundations are very heavy, built of solid cement and stone, the walls of the superstructure are eighteen inches thick, and the machinery is simply mag-nificent. The plant probably cost \$50,000. I understand that it is the purpose of the proprietors to freeze salmon and stur which will be shipped to all parts of America. Steam was gotten up yes-terday in the bollers, and everything appeared to be in good working order.
They have not yet commenced to receive
fish, but I understand they will do so in
a few days. It is anticipated that durling the fishing season this establishment will handle three or four hundred tons of fresh fish. From this it would appear that the fishermen will have other places in which to dispose of their catches be-

aides the cannerles." Captain J. F. A. Johnson, one of the most prominent on the river, and a patrolman of the union, last evening returned from Ilwaco. When seen by an As-torian representative, the captain said: "I have just been to Ilwaco and Chin-ook Beach. At the latter place I found time the convention was transacting its business, it was impossible to proceed with further elections until after the ex-governor had finished.

Thousands of persons were unable to obtain admittance. Seldem has a rolltical leader received such an ovation in Denver as did Senator Tillman tonight. He soon drifted into a sarcastic arraignment of President Cleanland, and the ook Beach. At the latter blace I found that the trapmen had taken no part in the meeting held at Ilwaco on Friday, and that they condemned the action of the Ilwaco trapmen. The Chinook Beach men are determined to stand by the union. To a man, they are very indignant that Governor McGraw should have seen it to place midder on the brach. seen fit to place soldiers on the beach, where everything is quiet, without having given the men any notice of his inten-tion. There is no disposition to create tion. There is no disposition to create trouble or use force, and as I have said before, the union will not countenance such action on the part of the men. Just as I left a call had been issued for a meeting to be held tonight to consider the situation, and I have no doubt that everything will be done to preserve peace and order. The stopping of boats by the militiamen and the holding up of every craft approaching liwaco or railing in Baker's bay, seems to me to be beyond the pale of the requirements in the case. But as all are apparently treated alike, But as all are apparently treated allke, we perhaps have no more right to ob-ject than others."

IN THE COUNCIL NOW.

Mayor Frank and Councilman Moffet Abuse Each Other.

GREAT SOUND bucked up by the mayor, When the business of the meeting was concluded, Mayor Frank said he wished MONEY ORATOR to make a statement toncerning what Moffett had said. He said Moffett's state-

ment was false, like many others about the names on the police roll. The mer whose pay was protested arrives he had nothing to do with putting on the force, and this was the first he knew of their being on the force. He did not like such statements, and would like to have the matter referred to a committee to be investigated.

Moffett said concerning the source Hon, John G. Carlisle Addresses an Enormous Audience of Workingmen at Chicago.

ON FALLACY OF FREE SILVER

not pay much attention to what the mayor said. He had discharged good police commissioners and good uen off the police force because they would not Unlimited Coinage Would Decrease the Circulating Medium and Would Result in the Loss of Enormous Loss Sum to All Classes of l'eople.

Chicago, April 15.-Hon, John G. Carisle spoke on the currency question at the Auditorium tonight before an audience Moffett; "you can't make me sit down."
Concluding, however, it would not be in good taste to prolong the situation, Moffett took his seat, remarking as a parting shot at the mayor: "You could not make me sit down." that filled the great hall to its utmost. The address was delivered under the auspices of the laboring men of Chicago, and they were there in full force, nearly three-quarters of the crowd being work Many local Democrats were anxious to obtain an interview with Caritsle on the political situation in Kentucky, but he refused to talk politics in any way. He said that he had come to Chicago to make an adress on the currency question, and that nothing could induce him to talk politics. His address

> was greeted with much applause. Mr. Carlisle opened with the assertion that the effect of the instability of the currency must fall with more force upon the poor man than the rich man, as must

too much attention on Mrs. Allingham, Pearl's daughter. The men had a fight and afterwards met in Pearl's livery stable and renewed the quarrel. Pearl's son, Elmer, and his brother, Silas, were with him. Bond called to the city marshal to protect him, saying there were too many against him. At the same time he drew a revolver and fired at John Pearl. As he did so, Pearl's son seized lond's arm to prevent murder. The ball missed Pearl and struck Ira Stroud. also the results of the suspension of in-dustrial activity. He then went on to argue that the opening of the mints to the unlimited coinage of silver, at the ratio of 16 to 1 of gold, would drive \$629,000,000 of gold now in use out of the country, and, by at the same time reducing the purchasing power of all other money, actually re-duce the amount of circulating medium

ball missed Pearl and struck Ira Stroud, instead of increasing it.
"But," said he. "If the free and un-limited coinage of legal tender silver at the ratio of 16 to 1 is established in this a cattle buyer, of this city, who had at that moment entered the stable and alighted from his horse. The ball entered the lower portion of the abdomen.

Subjects of Paramount Interest Discussed

It is said here that the Democratic state convention will either endorse Belt or adjourn without putting up a candi-The common council met in regular session last evening, all members being present. The application of Foard & Stokes Co. for a liquor license for the Convention the Most Enthusiastic and Disorderly on Record. Tongue Point saloon was granted. Petitions of H. Grimm and R. L. Jeffery for liquor licenses were referred to the proper committee. The application of August Erickson to be allowed to trans-Sedalia, Mo., April 15.—The Missouri emocracy in state convention here today pledged itself unequivocally for the free and unlimited coinage of silver at a ratio of 15 to 1, and nominated the fol-

fer his license to the new building was manner of improving Exchange street from 10th to 12th, for the reasons that there was no notice of the council's in-tention published, and because the meastention published, and because the measure failed to specify the paper in which the notice should have been published. The veto was sustained. A communication from the clerk of the water commission was read requesting that action be taken by the council to protect the water pipes while street improvements were being made, and suggesting that such protection be made mandatory upon the street contractors. The communication was referred to the street committee. The water commission made a retee. The water commission made a re-port stating the amount necessary to complete the system—\$17,743.29, exclusive of the engineer's account—and showing that \$35,000 still remained in the treasury. The matter was referred to the fire and water committee. A communication from Kane & Co. rel-

gathering. It arose when C. C. Maffit, of St. Louis, the gold-bug leader of the state, was nominated for a delegate from the Twelfth District. The roll was called and Maffit was turned down on the vote and Greeney nominated. ative to city bonds, was referred to the ways and means committee. A communication from Councilman Welch was read, in which he alled attention to what he termed the false state-ments published in yesterday's Astorian concerning the establishment of city grades, and the evil effects which would result from a failure to settle the same. Alderman Welch, in explaining his com-munication, was somewhat sarcastic. He quoted the charter in regard to the sub-Denver, April 15.—The Democratic state convention held here today, after the adoption of a free silver platform and electing one delegate at large, adjourned to 7:39 tonight. As Senator Tillman, of South Carolina, was to speak at the same time the convention was transacting its business. It was improved to the convention of the convention of the convention of the convention to the convention of the conven quotes the charter in regard to the sub-ject, which was discussed in the Asto-rian, and stated that, as it required a petition from three-fourths of the prop-erty owners to change the city grades, the article was misleading and productive of no good. The communication was re-ferred to the street committee. A com-munication from Sheriff Hare, Inclusive munication from Sheriff Hare, inclosing

taxes, was read and referred to the ways and means committee. Alderman Welch, chairman of the ways Aiderman weich, chairman of the ways and means committee, made a verbal report, in which he stated that he had made arrangements so that all persons holding city warrants might dispose of them for 36 cents on the dollar, by consulting him. The ways and means committee made a report on the Issuance of several tax deeds, which report was adouted. The same committee practed and pretending to be introducing re-forms? God! That the name of Democ-racy should be disgraced by such men as Grover Cleveland!" adopted. The same committee reported on the claims of the Evening News and recommended payment as follows: \$5.56, at \$6.40; \$6.56 at 5:44; 48e; \$3.56; \$10.08; \$9.92 at \$8.76; \$2.72; \$4.16 at \$1.54; 96c at \$2c; \$1.44. The health and police committee reported favorably on the claim of John Stevenson, \$1.70; poundmaster, \$5; Astor House, \$17.11; Astoria Wood and Coal The largest water wheel in the world is that situated at Laxey, in the Isie of Man. The wheel is of the overshot or gravity type, is 72 feet 6 inches in diameter, and is said to be capable of developing 15 horse power. The power is transmitted through some hundreds of feet of wooden-trussed rods to a system of pumps in a lead mine. The pumps are said to raise 250 gallons of water to a height of 1,200 feet per minute. Water is conveyed some considerable distance to the wheel in an underground conduit, then carried up a masonry tower by pressure, whence it flows into the wheel buckets. The wheel has been working satisfactorily for over forty years. Yard, \$2.5. The same committee reported favorably on the requisition for
supplies in the office of the chief of police. The ways and means committee reported favorably on the requisition for
supplies for the auditor's office.

The street committee recorded favora-

The street committee reported favorably on the bill of E. F. Prael & Co., \$2.50 C. S. Gunderson, \$1.59; Clatsop Mill Co., \$4.40; Foard & Stokes Co., \$10; electric light for month of March, \$37.0. The report was adopted. The fire and water committee recommended payment of the claim of J. W. Conn, \$1.20. Noe & Scully, file; city water works, \$190.25; Astarla Transfer Co., \$1; and unfavorably on the claim of the Finlayson Shipping Agency for \$5.25. The same committee reported that it had sold the old hook and ladder

truck to Bremner & Holmes for \$20. Th

committee made a report calling atten-tion to the unsettled condition of the hydrant question, and recommending that

hydrant question, and recommending that the council inform the water commission no money would be paid by the city for fire protection. The report was adopted by a vote of five to four. The fire and water committee made a report on the re-organization plan of the fire department, and suggested that as soon as the hydrant question was cet-tled, Nos. 1 and 3 fire companies be re-organized as Hose Companies Nos. 1 and 2; that no change be made in Rescue En-gine Company other than organizing a hose company; that No. 2's building be so altered as to accommodate the hook so altered as to accommodate the hook and ladder truck, and that the truck be removed to that building; that No. I's engine be stored and held in reserve, and

foregoing changes.

all the other steam engines be thrown out of service and offered for sale; that the salary of the driver of the chemical be fixed at 80 per month, and that of the engineer at 45; that no further allow-ances be made for the Hook and Ladder Company; and that the fire and water committee be empowered to carry out the

Alderman Parker objected to changing the names of No. 1 and No. 3 to No. 1 and for the reason that many had served for years under the original name and would soon receive their exempt certi-ficates. He thought it a good plan to lay the report over till next meeting for further consideration. Mr. Young ob-jected vigorously to several features of the report. He would not tolerate the steam engines to be thrown out of service while East Astoria was without hy-drants, which is the case at present. After a great deal of argument, the report was laid on the table and will come up for discussion at the next meeting. The report of the fire and water com-

mittee, recommending that the requisimittee, recommending that the requisi-tion for the appropriation of \$6 per month for keeping the electric battery in No. I's engine house in repair be not allowed and suggesting that this be included in the duties of the engineer of the chem-ical, was adopted.

The committee on whares and water The committee on wharves and water

frontage reported on the communication from Columbia Harbor No. 22, A. A. of M. and P. of S. V., and recommended that all piles which were driven be under e committee's supervision, and that all ing which was detrimental to the channel be removed. The report further rec oramended that Fisher Brothers be al-lowed to build a wharf subject to the above. Then followed a long - iscussion in which every member of the council expressed himself. Mr. Welch thought the Hut," said he, aited coinage of legal tenuer action of 16 to 1 is established in this sountry, a very large part of the money seposited in various kinds of savings index in swinging with the docks in swinging with the substitutions will not even be repaid in depreciated silver, but will be wholly lost, because such a reckless monetary system because such a reckless monetary system because such a reckless monetary system that it is moderated. Mr. Thompson was of the opinion that the restrictions in the report of the committee were letrimental from a buisiness standgoint. The committees from year to year matter one of paramount importance, and stated that, if wharves were extended to the harbor line, the ship Yarana, which change in committees from year to year would keep the line constantly changing. Mr. Scherneckau thought the channel okane. April II.—A movement which s to land Horatio N. Reit, mayor of same, in the governor's chair at Olymwill be formally started tomorrow will be formally started tomorrow of t. A call has been circulated for the animation of the Belt Club, signed by it to "Father" Welch. This remark was greeted with a roar of laughter. The gentleman from the Third ward was op-posed to the extension of the line be-cause it would somer or later fill the Finally the matter was recom-

mitted and will be discussed at the next The reports of divers officers were read

The following ordinances were read first and second times: Providing for the time and manner for the improvement of Exchange stareet, which was a corrected ordinance, the original having been ve-teed as stated above: upon motion, the rules were suspended and the measure granted.

The mayor returned, with his veto, an ordinance providing for the time and 18th street and Grand avenue; establishing the grade of the alleyway between Blocks 102 and 103, Adair's Astoria; ap-propriating out of the general fund it for the benefit of the Astoria Transfer for the benefit of the Astoria Transfer Co.; H for G. H. Terry; 4.59 for J. S. Dellinger: Se for C. E. Foster; 22 for Bremner & Holmes: \$29.50 for J. S. Dellinger; \$39.25, cost of printing the city charter, for J. S. Dellinger; establishing the grade of Cedar. Bond, Date, \$33 and 35th street and Harrison and Irving avenues: confirming the assessment on the drainage system in East Astoria. The latter ordinance, upon suspension of the rules, was declared passed. The following ordinances were read the third time and passed: Providing for the time and manner for the improvement of Franklin manner for the improvement of Franklin avenue from 17th to 18th street, and for improving Grand avenue from 5th to 12th appropriating \$10 for the benefit of W. F. McGregor: providing for the issuance of \$2500 for the improvement of Franklin avenue; \$4250 for the improvement of Exchange street, and \$10,000 for the improve-

ment of Grand avenue.

A resolution authorizing the auditor to draw a warrant for \$65 for clerical help in the auditor's office was passed. A resolution recommending that the street committee establish grades along the rallroad line was referred to the street committee. Numerous claims were allowed, and then, at the instigation of a councilman from the Third ward, the meeting adjourned.

AFFAIRS IN CHILI SERIOUS. So Says the Presidential Candidate Nomi-

nated by a Coalition Convention Valparaiso, Chile, via Galveston, Texas,

April 15.—Frederico Errazuriz, presiden-tial candidate-elect of the coalition con-vention, replying to a dispatch informing him of his nomination, said that the difficulties of the economic situation in the country were exceptional. Sources of production were seriously endangered and business was paralyzed. It was very difficult to put into effect commer-cial transactions of any kind. The gov-ernment, he thought, should aid private enterprises with public funds to lighten the situation. Senor Erraguriz said that rumors of international complications were un-

international complications were unfounded. There were treaties in force for the pacific solution of all difficulties and arbitration was always possible. He would, he said, realize, if he could, all the hopes of the Liberal party in the republic.

OF NEBRASKA

Declare in State Convention Against the Pree and Unlimited Coinage of White Metal.

DELEGATES FOR M'KINLEY

A. P. A. Man Was Present to Work Against the Protectionist, but His Statements Were Not Considered -- Attack on Senator Thurston.

Omaha, April 15.-The state convention of Nebraska Republicans to select four delegates to the national convention met in Omaha tonight, with 1,457 delegates present. Notwithstanding the general concession that the body was unanimous ly for McKinley for president, and reads to accept anything fathered by Senator John M. Thurston, the session was by no means harmonious, and a fight of

considerable proportions developed early. The first ripple of excitement was provoked when ex-Governor Crounse, on consent to introduce a resolution, which was granted. When the secretary comwas granted. When the secretary com-menced reading the instrument the storm broke. It was intended as a rebuke to Senator Thurston for his activity in the campaign throughout the state leading up to the selection of delegates. It re-cited that the senator had left his seat in the senate, and, forgetting the dignity of his high office, dabbled in ward poli-tics; that he aspired to be a dictator, and, if his methods were to be adopted, representatives of the country should cease to claim him to represent peoule. Senator Thurston was quick to reply, declaring his political career was free from any dishonorable act, and said he was ready to abide by the judgment of the people. The resolutions were tabled without discussion. This was the only demonstra-tion of opposition. The delegates were selected by acclamation and instructed to

upport McKinley.
The financial plank of the platform b as follows: We pledge ourselves in advance to the we present ourselves in an action of the forthoconing Republicas national convention, believing that it will declare against the free and unlimited coinage of silver and for the currency of gold, silver and paper as sound as the government, and as untarnished as its paper, and for that American syntage. honor, and for that American system protection and reciprocity of which McKinley is the best fiving exponent, and under which our people attained the

under which our people attained the greatest national and individual prosper develop into interesting proportions. the attitude of the A. P. A. toward Mc-Kinley.

H. A. Thompson, of St. Louis, a m ber of the executive committee of the advisory board of the A. F. A., arrived in the city this moraling, lirect from the Cincinnati meeting of the board, at which it was decided to oppose the nom-ination of McKinley at the conference of the leaders of the A. P. A. in Nebraska ination of McKinley at the conference of the leaders of the A. P. A. in Nebraska. Thompson announced the object of his visit to be the delivering of a measage to the Nebraska members of the order that the delegation to be selected by the state convention should not be instructed for McKinley, but under the chromatances nothing more than an uninstructed delegation would be asked from Nebraska. Thompson spoke positively. The order, through its chosen representatives and leaders, had decided absolutely and without reservation that a fight to the end was to be waged on McKinley. It was to be waged on him as a candidate before the Republican national convention, and, if it did not succeed, then it was to be carried to the polls. No good A. P. A. according to the law as laid down, could now, or at any time in the future, support, lend aid, or comfort to McKinley's appendix of the second of the law as laid down, could now, or at any time in the future, support, lend aid, or comfort to McKinley's county in the second of the law as an according to the law as laid down. port, lend aid, or comfort to McKinley's

The St. Louis man was finally told that it was too late to change the slate.

TROUBLES IN KOREA.

Efforts Being Made by the Natives to Exterminate the Japanese.

St. Petersburg, April 15.—The troubles of which there have long been rumors are at last maturing in Korea. According to a telegram from Viadivo-stock to the Nova Vrenva, the last news from Seoul says that the Koreans are determined to exterminate the Junesse. determined to exterminate the Japanese, holding them responsible for the murder of the queen. Bands of men have been organized to threaten the Japanese facorganized to threaten the Japanese factories. Japan has sent warships to Fusan and other points on the coast. The Novosti says that Japan should by this time know Russia's real feeling is regard to Korea-that while she does not wish to be there herself she will not permit any other power to be predominant in the Hermit Kingdom. The king, says the Novosti, is perfectly fit to rule, and when restored to the throne the Russian troops will retire.

Meanwhile great military activity prevails in Japan. The army is being incleared. Instead of consisting of six divisions, it will in future be composed of tweive, besides another division of guards. The number of regiments has been increased from twenty-eight to fifty-two.

A GIANT CAKE

One of the giants of her majesty's jubiles was the enormous cake of Messra. Gunter. Months previous the firm asked permission of her majesty to present her with a jubiles cake, on the plea that 16 years before the same firm supplied the cake at the coronation. The jubiles cake was 9 feet 6 inches in circumference, 10 feet high, and weighed, without the decorations, over a quarter of a ton. The making of the entire cake kept two spemaking of the entire cake kept two spe cialists busy for four month,
