It was suggested by a well known merchant yesterday who is in sympathy with the movement for the Nehalem road, says that the planking which is laid two or three deep on the old roadway east of Hanthorn's cannery, might well be utilized in planking the road to the Wallace. There is enough material in this old roadway which is now going to waste to plank nearly all the bad places in that road. This would be of material assistance to the farmers, and would be a cheap means of paying the cost of transporting and laying this old material would be slight compared with the result obtained.

The announcement of the death, on Wednesday morning last, of Miss Mary R. Rodney, of Portland, Oregon, was a great shock to her friends in this city, among whom are several who have attended the institution over which she presided. Miss Rodney died in the harness, having been principal of St. Helen's Hall for the past twenty-eight years, or since its founding. Her life was swept up in her vocation, and although, when her health began to fail a few years ago, her friends hoped that she might avail herself of a well-earned rest, she prepared to go on with her work.

"A great, a good, and a right mind is a kind of divinity lodged in flesh. It came from Heaven, and to Heaven it must return; and it is a kind and heavenly felicity which a pure and virtuous mind enjoys, in some degree, even upon earth." -- FRUIT.

BETTER THAN MONEY.

A New and Important Way of Looking at the Currency Question. Public interest for months past has been steadily concentrated upon our national currency. Parties are divided on the question. Men are worked up over it. It means a great deal for the welfare of millions.

There is one way of looking at the question that seems to have been lost sight of. Is it not better to have fifty dollars in gold than five dollars in silver? And yet there are many people who are practically throwing away large amounts and holding onto the smaller amount. Many people who might be earning ten times as much as they do, fall because they lack health and energy. Health and strength represent a value greater than gold, and yet many people put up with a run down system, which steals away half their working power. Eventually they lose by sickness and medical expenses and their families suffer, when it might all readily be avoided.

These are hard times. Thousands are succumbing to the strains of life. Ill-health is the rule and not the exception. People need their best strength and energy all the while. Health, which is more valuable than gold, can be maintained and even secured when it is lost, if the proper care and right remedy are used. And we do not hesitate to say that there are but few men or women who read these words that cannot be put in perfect condition by the use of that great, that grand discovery, Warner's Safe Cure. This entire paper could be filled with testimonials from the grateful ones whose lives have been saved and whose health restored by its use; and if you, reader, are a sufferer, you may readily be among the number. We earnestly recommend you to think seriously upon this subject.

SPECIAL MEETING. There will be a special meeting tonight of the Chamber of Commerce at 1:30 o'clock. All members are requested to be present as business of importance will come before the chamber. G. WINIATTE, President.
