New Astoria...

Is located at the terminus of the Astoria and Columbia River Railroad, at the mouth of the Columbia River. It fronts on the deep water of the Columbia River Harbor, and being perfectly protected from wind and seas, affords the very best docks for ships on this bay; therefore, it is the exact spot for the seaport of the great Northwest. These facts were recognized by the Astoria & Columbia River Railroad Co. when New Astoria Was Selected as the Starting Point for their Railroad and the Location for their Terminals. New Astoria is platted upon a plane high enough for perfect drainage, and well protected by a high ridge behind it. Its streets and avenues are wide, and in fact, it is laid out on modern plans. Extensive street improvements are now under way.

An office has been opened by the proprietors one door east of the Crosby hardware store. Call to be shown the merits of this project, and invest. The New Astoria Company .514. COMMERCIAL ST.

AT THE PICKET LINE

Second Presentation Witnessed by a Small, but Select Audience. The inclemency of the weather was the direct cause of but a fair house at Fisher's last evening. It was the reproduction of the Astoria Football Club's successful melodrama, "At the Picket Line." A drizzling rain fell all afternoon and evening, and many who otherwise would have attended, remained at home. Still, the house was fair, especially so for the second production of an amateur play. Last night's performance was equally as good as the first production. As was the case before, everybody fell in love with the ladies. Mrs. Patterson again played her difficult part faultlessly. She had all the dash and vim necessary to a correct interpretation of her part, and was loudly applauded. Miss Jessie Jewett was very cute and pretty after her manner. "Doris" rendered in a most pleasing manner, completely captivated the audience, and she responded to a hearty encore.

Mr. Duncan Stuart deserves especial mention for his masterly effort. He kept the crowd continually raving and cheering, and his appreciation of the play, the voice and make-up were suited exactly to the character. The others did very well, and the performance went off smoothly. The Astoria Amateur Dramatic Club is to be congratulated for the excellent production of "At the Picket Line." The play is a most interesting one, and the performance was a most successful one. The audience was very large, and the performance was a most successful one. The audience was very large, and the performance was a most successful one.

At the Baptist Church—The morning sermon will discuss the "Importance of Little Things." In the evening the regular monthly temperance meeting will take place at this church. What to do with the Sabbath will be the question discussed. All other services as usual. Come.

In speaking of the curves on railway routes following rivers, an engineer said the other day: "The Argentine Pacific Railway, from Buenos Ayres to the foot of the Andes, runs 21 miles without a curve, with not a single cutting or embankment more than three feet deep. This is probably the longest piece of straight railway in the world."

Superintendent Wallis, who returned from the railroad line yesterday, reports that at camp No. 1 the men have some strange tales to tell. They say a few days ago while swimming about the bay and came up to the shore at the camp. They have learned to come every day to visit the men, and with not a single cutting or embankment more than three feet deep. This is probably the longest piece of straight railway in the world.

At the meeting of stockholders of the Flavel Hotel Company yesterday held in the office of the New Astoria Company, the following additional signers to the stock books placed their names on record: W. N. Smith, H. Ladd, Hiram Gray, Sidney Campbell. It is expected that the complete plans will arrive from Portland this afternoon. The finishing touches will be of the best quality, and the hotel will be furnished from top to bottom in the best of style. The rotunda will be commodious and comfortable. The building will be one of the handsomest of its kind in the state, and will reflect credit upon the architects as well as upon the company.

Mr. A. Ketzmer, representing Duff & Sons, Pittsburg, who is in the city, stated yesterday to an Astorian representative that he was not at all alarmed about Columbia river salmon. The very best brands, he said, can be marketed at profitable prices, providing no cheap goods are put up under Columbia river first-grade labels, and also providing no fish are packed under Columbia river labels. He also stated that he had found the stocks being carried by merchants to be twenty per cent larger this year than last. "There will be no trouble about Columbia river salmon when it is properly packed."

At the Fishermen's Union yesterday afternoon emphatic statements were made deploring the killing of the fisherman near Oak Point early yesterday morning, if it should transpire that such an event actually took place. Much disbelief was expressed as to the truthfulness of the report, but as a coffin was sent for on yesterday afternoon's boat in which to bury the man, there can be little doubt as to the correctness of the report. Secretary Jensen is confident that the man who was extremely sorry about the matter, and that as it was contrary to all principles of the Union, he would be the first to investigate. Reports received yesterday are to the effect that Seary was the one to blame for the shooting. After having ordered the boats which approached him to leave, and when they did not comply, he first opened fire, and was killed by the return shots from the other parties. Considerable excitement prevails in the vicinity, but so far as can be ascertained the men who did the killing are exonerated by those nearest the spot who have investigated the matter. It being asserted that the shooting was done in self-defense.

Go to Elmore, Sanborn's office and see their new and handsome twin sewing machines. Take along some of the twins "as good as Marshall's," in your pocket, and test them. Then see how much more Marshall's will stand. It's money in your pocket and fish in your net to find out.

For 15 cents you can secure an excellent well-served meal at the Bon Ton Restaurant, No. 21 Commercial street. They are also fully prepared to serve all kinds of fish, game and delicacies of the season, as well as oysters in every imaginable style at the lowest living prices. Come once and you will continue to come.

Most so-called "salmon twines" are colored with acids. The acids rot the fibre and render the material useless. In the office of Elmore, Sanborn & Co. is an object lesson that ought to be examined by all fishermen. It is the whole of the material used in the manufacture of Marshall's twine—from start to finish. Go there and examine the color right through. You will see then why Marshall's is called the best in the world.
