Investment

New Astoria...

Is located at the terminus of the Astoria and Columbia River Railroad, at the mouth of the Columbia River.

It fronts on the deep water of the Columbia River Harbor, and being perfectly protected from wind and seas, affords the very best docks for ships on this bay; therefore, it is the exact spot for the seaport of the great Northwest.

These facts were recognized by the Astoria & Columbia River Railroad Co. when

New Astoria Was Selected as the Starting Point for their Railroad and the Location for the Terminals.

> New Astoria is platted upon a plane high enough for perfect drainage, and well protected by a high ridge behind it.

> Its streets and avenues are wide, and, in fact, it is laid out on modern plans. Extensive street improvements are now un-

der way.

An office has been opened by the pro-prietors one door east of the Crosby hardware store. Call, be shown the merits of this property, and invest.

THE UP-RIVER MURDER

A Correspondent States the Pacts in the Awful Affair. Editor Asotrian Conflicting reports are industriously circulated regarding the shoeting affray which took place at Walines Island Thursday evening. Phil Jewell, the boat-puller, made the statement that evening that they were fired on drst, and only returned the fire when four shots had been discharged at them. witness of the affair corroborates this statement, and says the noise of a shot-gin, loaded with buckshot, which were the weapons Searcy and his boat-puller used, could easily be distinguished from that of a rife. After Searcy and his partner returned the fire, two men were

suit. The firing was fast and furious for a while, Phil Jewell being hit behind the left ear the bullet pleuving its way through the scalp, another having passed

also that Jewell had sworn at the inquest that he and his partner fired the first shots. The facts as stated above my signature were given by an eye-witness

of the affair, being the same person who

afterward picked up the net,

FINANCIAL CONDITIONS. New York, May 21.-The Financier A decrease of \$2,058,000 in loans is the unfavorable feature of the statement of the associated banks of New York city for the week ending May 21. Viewed in the light of the expansion which has been noted in the time of late, the sud-den falling off is not easy of explanation. It does not seem probable that the checks shown on the currency expansion will be more than temporary, since the increase of only \$31,000,000 this season compares with the total expansion of \$42,000,000 last year, made during the period covering about two weeks. The contraction of the current week angurs a lessening demand

face of exports of \$2,700,000. The advance in the price of domestic exchange at larger commercial centers indicates that the movement has not run its course yet

indersigned until Saturday, May 30, at 4 o'clock for grading and constructing a county road running from C. S. Dow's landing across the tide land of C. N. Heas to near the north of Young's river. E. Warren's real estate W. J. INGALLS. Supt. Construction
