The responsibility for the failure on the of it and go to work on the fourpart of the present congress to pass any kind of sound or beneficial legislation this session, certainly does not rest with a think, however, now that the election the Republican majority in the house of its over, and that the bosses will have no pergenentatives. Nor is it their fault that Mr. Cleveland will sittler be obliged selves and will gradually go to call an extra session, or again resort the 4-cents-a-pound basis. to call an extra session, or again resort | the to the expedient of issuing bonds in order to carry on the government. On the weather has started the fish running liveother hand, if the Republican majority in Iv, and the sight of so much wealth pass the country, the certainty that it may other februren more sensible and willing depended upon to kill the intamous and unpatriotic resolution of the silver too much for the half-starved, poosenate to prevent the administration from selling any bonds during the ensuing vacation to replenish the public revenue and maintain its credit, the value of the house's service to the country in the prosent emergency becomes absolutely mesti-

In summing up the record of the Republicans in congress it is necessary to remember that they found an empty is at present laid down free in San Franson that applied to its capacity to raise son that applied to its capacity to raise labor, freight, insurance, and wear and tear on machinery. You can readily see that, with such a strong opposition as the Alaska fisheries, the Columbia river canners, if they paid 5 cents, would soon have to go into the hands of a receiver. many Democrats-Mr. Gorman heading the list-that the bill in the shape in which it was passed by the Democratic 5 cents unless house would have caused a deficit of \$100,000,000 per annum.

One of the first acts of the Republicans at this session was to pass a bill providthe country at two elections declared overwhelmingly for protection? Had not the present house, with its unprecedented majority, been elected on that very issue? Had not it been instructed as to its duty? Could it disregard those instructions? It brought in an emergency bill according to those instructions. The bill was opposed by the Democrats, who gave two reasons for their course: First, that it carried with it the principle of protection, and, second, that the president would not sign The bill passed the house, but was cases. killed in the senate by a vote including every Democratic member of that body.

In the matter of the finances the president had to lean on the Republicans in this congress as in the last. His own party is in no sort of agreement with him. The Democratic leader in the house, Mr. Crisp, is for free silver. The majority of the Democratic members of the senate are for free silver. The purchasing clause of the Sherman act was expensed almost entirely by Republican take your names. We will not k votes, and the step was advocated by you either, if you get a nomination. been his support in maintaining the pub-Bc credit. The Butler resolution, before adverted to, received its principle support from Democrats. But the country relies upon the Republicans to kill it. It is not Mr. Cleveland's veto that will prevent this vicious, mischlevous legisintion. It is the house of representatives that is the lion in the path.

Mr. J. G. Johns, a Texas gentleman, who says that he is not a politician, but is engaged in the cattle business, writes an open letter to Senator Hill, containing some interesting statements which Southern and Western farmers might do well to consider. In his letter, published in the Kansas City Times of the 2th ult.,

Mexico. Fourteen hundred cows bought in 1895 in Mexico at 49 per head; the silver was bought in Laredo at 51 cents on the dollar to pay for these same cattle. They were shipped to Houston, Tex., full fed on cottonseed, meal and hulls, and shipped to Kansas City, and netted \$23.55-the food, labor, first cost and the freight from Mexico to Houston to come out, which left a net profit of \$10 per head. The Mexican people buying these same cattle or their equivalent back, paying for profit, our feed bills, etc., then they pay us 100 cents on the dollar for all they buy. They are large buyers of meats, lard, wheat, etc., and pay us 100 cents on the dollar for everything they buy, while we pay them 51 cents on the dollar for what we buy of

The writer refers readers to the books of the stock yards in Kansas City to substantiate his statements. If his point is accurately taken, it shows very clearly that if the United States should adopt free cotnage of silver, 16 to 1, and our currency became depreciated as Mexico's sosp than by actual wear, "Hoe Cake" soap contains no free alkali and will not currency is, our Southern and Western people would be paid for their surplus the difference in quality. Ross, Hingins products fust as the Mexicans are now & Co.

paid for theirs-in depreciated silver worth from 50 to 60 cents on the dollar instead of 100 cents in gold, which they now get.

Governor John P. Altgeld, of Illinois, emerges from a rather protracted period of extraordinary silence long enough to may to the New York Journal that he does not believe any compromise is noe sible between the silver and the gold Democrats "because thus far every compromise and every straddle has been treated as a complete surrender to Eastern bosess and Eastern interests, and the people are tired of it." The people are tired of it! In the name of all that is decent, when did John P. Altgeld secure the right to speak for "the people." He All communications intended for publi- may be, as he always has been, the cation should be directed to the aditor, mouthpiece of the Schwabs and the Business communications of all kinds Mosts and those others who, like himand remittances must be addressed to self, enjoy tribal relations with the anarchistic element, but he is sailty in error The Asterian guarantees to its sub- when he assumes to know anything of

"I was talking to one of the largest can possible it was, under the prevailing low prices of carned salmon, for him or any other canner, to pay 5 cents for the ran-material. He proved his statement by the following illustration: Alaska salmon, which in quality is very nearly equal to the Columbia river chinook salmon, have to be added the cost of cans, cases, But it is now admitted, even by This is nothing new. Everybody who Democrats-Mr. Gorman heading knows anything about the sulmon industry and the competitions to which it is subjected knows that canners cannot pay striking fishermen know it, but dare not express themselves or exert their man-hood for fear of violence on the part of the few selfish leaders who have had everything to gain by the continuance of the strike, and everything to lose if the

> "Another thing, the canners can hold out till 'b-l freezes over,' whereas the fishermen, without a cent to keep them, with women and children to keep, can't remain on a strike very long. In fact, I think that the crisis is near at hand, and before long the poor devils will be fighting one another in their anxiety to accept the 4-cents-a-pound basis."
>
> To the question how the pack would come out this season, the speaker said

that if warm weather continued and the although, of course, it would be affected

The pack of 1895, of all the canneries operating on the Columbia, was 492,208

THE RESULT

Editor Astorian:-Well, Brothers, the campaign is over. You called us hard names. You called our candidate for congress a You said he would never get a hundred votes in this county. Don't you see that you were mistaken. You said you would take our names and if ever we came up for office you would knife us, secause we dared to vote for what we thought was right. Now, we will not take your names. We will not knife Bonator Sherman before the president was heard from on the subject. The Republicans have all the way through without us we are willing to sit on the fence and let you run the next campaign without us. How much do you think you would win.

s have peace. THE MAYOR OF MELVILLE. Melville, June Z.

WHEN THE SWALLOWS HOMEWARD

People begin to ask themselves, "Where People organ to be summer?" An ocean voyage, an inland jaunt, or a constwise trip, which shall it be? In either case, one of the mosst useful traveling comon of the mosst useful traveling companies. panions, one that never falls in an emergency to which it is adapted, is Hotetter's Stemach Bitters, which remedies sea sickness, nausea, headache, billous ness and malarial complaints. Dyspep-sia, rheumatism, nervousness and kidney trouble are also remedied by the great alterative and preventive. Tourists by sea and land, mariners, emigrants and western pioneers all testify to its de fensive and remedial efficacy. Bodily and mental fatigue are counteracted by No one should start on a summer outing without it. It is the most genial and reliable of summer tonics, and suits the most fastidious palate.

MADE IN A MUCH WORSE PLACE.
