New Astoria...

located at the terminus of the Astoria and Columbia River Railroad, at the mouth of the Columbia River.

It fronts on the deep water of the Columbia River Harbor, and being perfectly protected from wind and seas, affords the very best docks for ships on this bay; therefore, it is the exact spot for the seaport of the great Northwest.

These facts were recognized by the Astoria & Columbia River Railroad Co. when

New Astoria Was Selected as the Starting Point for their Railroad and the Location for the Terminals.

New Astoria is platted upon a plane high enough for perfect drainage, and well protected by a high ridge behind it.

Its streets and avenues are wide, and, in fact, it is laid out on modern plans.

Extensive street improvements are now under way.

An office has been opened by the proprietors one door east of the Crosby hardware store. Call, be shown the merits of this property, and invest.

One of the boats from a local cannery cast net opposite town yesterday, when it was borne down upon by a party of foreigners who shouted the most insulting names at the occupants, at the same time giving vent to warlike insinuations and vengeful threats, coming so close that the boom of their boat swept over the first one. The fishermen never flinched, however, and the bullies were discreet enough to finally draw off. The result of the catch was very encouraging and tomorrow will see more who dare to assert their rights.

THE CITY COUNCIL.

An Extended Meeting of that Body Held Yesterday.

The city council met last evening with Councilman McGregor in the chair during the absence of Mayor Taylor. Councilman Scherneckau was also absent. After the reading of the minutes and approval of the same, the following petitions were considered:

L. Anderson, and Megler & Wright for retail liquor license, referred to committee on health and police; Chas. Wirkkala for transfer of license to new location, referred to committee on health and police; Union Hose Company for two fire axes, referred to fire and water committee; various property owners for improvement of certain parts of 23rd street, Harrison avenue and 25th street, referred to street committee; property owners to improve 17th street from Franklin to Irving avenue, referred to street committee. A proposition from Geo. D. Barnard & Co., St. Louis, to furnish the city with a steel cabinet for books and papers, referred to committee on health and police.

A discussion arose concerning the various propositions of various bidders desiring to furnish the city with 2000 feet of fire hose. One proposition was to exchange a hose and cart for Engine No. 1 and city warrants. But as no price could be agreed upon, the proposition was turned down. The bids were then taken up on straight offers for 2000 feet of hose. Councilman Young in discussing the matter, said that he thought it was a shame he had not been offered 150 feet of garden hose for his vote by some of the bidders. Finally, when the ordinances were passed, the bids were taken up and contracts awarded as follows:

Fifteen hundred feet of Maltese Cross brand hose, at \$1 per foot, to the Gutta Percha and Rubber Company; and 500 feet Keystone brand to A. G. Long at 90 cents per foot.

The committee on fire and water was granted further time in which to consider a plan for remodeling the fire department. A writ of review was received from the circuit court, in the suit of F. J. Carney et al. vs. the city, enjoining and restraining the city officers from collecting further taxes on the Uppertown drain, and giving them until the 29th of June in which to answer.

The ways and means committee, in the matter of the Clatsop Mills accounts, called for duplicate bills and list of warrants paid between January 23d, and December 31st, 1895.

The petition of Smith Brothers for a redemption deed to Lot 12, Block 19, Shively's, sold under street assessment, was allowed upon payment of \$200 and interest.

The petition of Engine Co. No. 2 for reimbursement of losses incurred in discounting warrants, was not allowed. The committee on ways and means reported recommending that the application of city officials for reimbursement for discounting city warrants, be not allowed.

The proposition of the First National Bank to pay \$112 for a deed in redemption of property sold for taxes in 1892, was accepted.

The committee of ways and means reported as correct the May pay rolls of city officers, fire department, library and cemetery account, amounting to \$1220. The same committee reported upon the communication from the deputy district attorney, suggesting that the county be relieved from the responsibility for further city taxes on property purchased by the county at tax sales, and which the county may have to hold from year to year, favorably.

The city auditor and police judge was instructed to demand \$297.25 of the county sheriff, being the amount held by him as percentage for the collection of city taxes during '95 and '96. If the amount is not paid, the city attorney is instructed to bring suit for the same.

The report of the city attorney on the claims due the city as ex-parte report, was ordered placed on file.

The committee on health and police audited and approved the pay roll of

police department for May, amounting to \$475, and the claims of Jas. Petty, of \$11.50, Astor House, \$28.15.

The petition of John Hendrickson for a retail liquor license was not granted for the location asked for, as remonstrances were received from a large number of Uniontown residents. He was given permission to select another site.

Cole & Wright were not granted license for a retail liquor store, as they desired to withdraw their application.

Upon recommendation of the committee on streets and public ways, the council accepted the improvement of 10th street, between Commercial and Exchange.

The petition from the trustees of the Finnish M. E. Church for a reduction of assessment for improvements to 15th street, was denied.

The petition of R. R. Marlon for pay for excavations made in 1895, was refused.

The petition for vacating certain streets for the depot site, was referred to the proper committee and placed on file.

The petition of Morris Wise for refund of \$5.44, was allowed.

The petition of T. C. Trullinger and others for the ten-year plan of payment of assessments for the improvement of 14th street, was allowed.

The committee on streets and public ways recommended that the proposed improvements of 23d street, Harrison avenue, 25th street, and Irving avenue, should not be allowed, as the property would not stand the necessary assessments without too great a burden upon the city. The same committee recommended the payment of the claims of Griffin & Reed, \$1.50; H. F. Praet, \$2.75; G. A. Stinson, \$1.75; Astoria Box Co., \$22.15.

The fire and water committee recommended that an allowance of \$150 be made for the extension of the fire alarm system to the Union Hose Co.'s headquarters, Uniontown. The Alert Hook and Ladder Co. was denied any further monthly allowance.

The communication from the water commission notifying the council that ninety hydrants were ready for service and asking the city to pay \$2500 for the balance of this year for their use, was reported upon by the fire and water committee, acknowledging the receipt of six keys, and recommending a refusal to pay the money. The matter was referred back to the committee with instructions to confer with the water commission concerning said payment, and also with regard to the rates to consumers.

The following claims were allowed by the fire and water committee: Bremner & Holmes, \$3.25; Richard Cearns, \$3; Charles Justins, \$3; M. C. Crosby, \$5; Terry Coe, \$9; Watson Binder, \$2.50; Astoria Transfer Co., \$2.50; C. E. Foster, \$1.

The following ordinances were read first and second times: Vacating portions of streets 14, 16, 17, 18, 20, 21, 22, 23; authorizing the committee on fire and water to spend \$150 to extend the fire alarm system to Uniontown.

The following ordinances were read third time and passed: Authorizing the mayor and auditor to issue street bonds to \$8. Normile for the improvement of 19th street, \$1500.92; appropriating \$140 out of the general fund for S. Normile; authorizing the auditor to issue warrants for the collection of assessments remaining unpaid on the improvement of 18th street; appropriating \$38 from the general fund for J. S. Dellinger.

The requisition of Chief Green for two dozen hydrant keys was approved. A resolution to give notice to improve 17th street from Franklin avenue to Irving, was referred to the street committee. A resolution was adopted instructing the engineer to recommend grades for Irving avenue and Harrison avenue between 24th street and the claim line between Shively's and Adair's Astoria. The following resolutions were also adopted: Instructing the board of assessors to levy assessments for improvements on 19th street; giving notice for the improvement of Grand Avenue and 5th

street; giving notice to change the grade on Duane street, 15th to 23d inclusive; instructing the auditor to give notice of the re-establishment of grade on Jerome avenue between 17th and 18th.

Sundry claims were read and referred to the proper committees.

The council adjourned to meet at 7:30 p. m. Monday.

O. R. AND N. DOINGS.

The steamer Thompson yesterday morning brought down another detachment of the Oregon National Guard. A few men also came down on the Potter the day before.

The boys on the dock had a picnic yesterday morning, having worked all night in amassing, and billing the government freight brought over from Fort Canby by the two batteries. Just before the steamer left for San Francisco, Captain S. A. Day, senior in command at Fort Canby, said that his battery, M., would go to the Presidio, San Francisco, and Captain Lomia's battery, B., would be stationed at Alcatraz Island, on guard duty at the military prison. Captain Day himself will leave on July 2nd for a year's leave of absence. While waiting for the "Frisco" steamer, Captain Day told his men that since they had been closely confined for many months, they could paint the town if they wanted to, so long as they showed up for roll call before the boat left in the morning. Only two had to be sent for, and the captain thought that was a remarkably good record.

The steamer Potter did not arrive yesterday until after 4 o'clock, having been detained the night before by her Fort Canby trip.

Receiver E. McNeill has gone east on a business trip. It is supposed that he will look after re-organization affairs.

Use Webfoot Corn Cure. No cure no pay. For sale at Estes-Crain Drug Store.
