The Democracy has not a record or eraze that does not record heroic devotion to honest money. For the sixty years before its demoralization by civil war, it was the one party of the country that taught and maintained the gold standard of value, and gold as the money of the country, to which every other form of circulating medium must be subordinated. It yielded largely to the greenback craze, and later has been swept from its moorings in the South and West by the free silver fanaticism that is today organized against honest values, against the rights of property. and that embraces in its slimy ranks every shade of destructionists and rev-

If Chicago shall falter in the support of honest money, there will be but one party in the field that the friends of national honor and national credit can turn to, and all other questions must be subordinated to the supreme issue of maintaining public and private credit, thus assuring our commercial and industrial prosperity. There are great issues which should considered in this struggle, but which must be entirely overlooked until the credit of the nation shall be so securely established at home and abroad that it will command the absolute trust of every civilization.

Declaration of Principles

REPUBLICAN PARTY.

The Republicans of the United States, | can policy of discriminating duties for | complete system of harbor and seaassembled by their representatives in the up-building of our merchant marine coast defenses. For the first time since the Civil War the American people have witnessed the calamitous consequences of full and unrestrained Democratic control of the Government. It has been a record of unparalled incapacity, disionor and disaster. In administrative management it has ruthlessly sacrificed indispensible revenue, entailed an unceasing deficit, sked out ordinary urrent expenses with borrowed money, piled up the public debt by \$262,000,000 in time of peace, forced an adverse balance of trade, to a perpetual menace hanging over the redemption fund. sawned American credit to allen syndicates and reversed all the measures and results of successful Republican rule. In the broad effect of its policy it has precipitated panic, blighted industry and trade with prolonged depression, closed factories, reduced work and wages, halted enterprise and crippled American production while stimulating foreign production for the American market. Every consideration of oublic safety and individual interest demands that the government shall be rescued from the hands of those who have shown themselves incapable of conducting it without disaster at home and dishonor abroad, and shall be restored to the party which for thirty years administered it with unequaled success and prosperity.

A Protective Tariff.

We renew and emphasize our allegiance to the policy of protection as the bulwark of American industrial inde-Witt's Sarsaparilla purifies the blood, pendence and the foundation of Amercures Eruptions, Eczema, Scrofula and ican development and prosperity. The question of rates is a practical and we believe that the United States calling and uncompromising principle to an end. In Turkey, American resicountry demands a right settlement and then it wants rest.

Reciprocity With Other Nations.

We believe the repeal of the recirocity arrangements negotiated by the last Republican administration was a national calamity, and we demand angles to the east line of block 2, at 25 their renewal and extension on such terms as will equalize our trade with other nations, remove the restrictions which now obstruct the sale of Amerlean products in the ports of other to the southwest corner of block i, and countries and secure the enlarged mar-It isn't so much what we have to eat at right angles to south line of block 1, kets of our farms, forests and factories. Protection and reciprocity are twin measures of Republican policy, and go hand in hand. Democratic rule has recklessly struck down both, and both must be re-established. Protection for what we produce, free admission for the necessaries of life which we don't produce, reciprocal agreements of mutual interest which gain open markets for us in return for our open market to others. Protection builds up domestic industry and trade and secures our own market for ourselves. Reciprocity builds up foreign trade and finds an outlet for our surplus.

Protection to Sugar Producers.

We condemn the present administration for not keeping faith with the sugar producers of this country. The Republican party favors such protection as will lead to the production on American soil of all the sugar the American people use, and for which they pay other countries more than \$100,000,000 annually.

Wool and Woolens.

To all our products-to those of the give independence to the island. nine and the field, as well as to those of the shop and the factory-to hempto wool, the product of the great indus try of sheep husbandry, as well as to the finished woolens of the mill-we vercoats and winter wraps will be in promise the most ample protection.

Merchant Marine.

The Financial Issue.

"The Republican party is unreservedly for sound money. It caused the enactment of the law providing for the resumption of specie payments in 1879 since then every dollar has been as good as gold. We are unalterably opcosed to every measure calculated to deof our country. We are, therefore, opposed to the free coinage of sliver, exept by international agreement with the leading commercial nations of the world, which we pledge ourselves to promote, and until such agreement can be obtained we believe the existing gold standard must be preserved. All our silver and paper currency now in circulation must be maintained at a that such ballot shall be counted and parity with gold, and we favor all measures designed to maintain inviola ble the obligations of the United States, and all our money, whether coin or paper, at the present standard, the standard of the most enlightened na tions of the earth."

serve and should receive fair treatment and generous recognition. Whenever practicable they should be given the preference in the matter of employment, and they are entitled to the enactment of such laws as best calculated to secure the fulfillment of the pledges made to them in the dark days of the country's peril.
