New Astoria...

located at the terminus of the Astoria and Columbia River Railroad, at the mouth of the Columbia River.

It fronts on the deep water of the Columbia River Harbor, and being perfectly protected from wind and seas, affords the very best docks for ships on this bay; therefore, it is the exact spot for the seaport of the great Northwest.

These facts were recognized by the Astoria & Columbia River Railroad Co. when

New Astoria Was Selected as the Starting Point for their Railroad and the Location for the Terminals.

New Astoria is platted upon a plane high enough for perfect drainage, and well protected by a high ridge behind it.

Its streets and avenues are wide, and, in fact, it is laid out on modern plans. Extensive street improvements are now under way.

An office has been opened by the proprietors one door east of the Crosby hardware store. Call, to show the merits of this property, and invest.

Contractor Normie's graders are making decidedly noticeable headway on the Grand avenue hill. The earth deposited to make the new street has become compact by the constant tramping of horses' hoofs and indications of the street will soon be ready for travel. Presumably the same rate will apply to Seaside.

Mr. Henshaw, of the firm of Henshaw, Soule & Caverton, dealers in heavy machinery, Portland, is spending a few days in the city. Mr. Henshaw is one of the best known machinery men on the coast, and has just been all over the Sound country. He says that he finds the small \$29,000 lumber mill which so conducts its business as to utilize every inch of material is the best paying investment. One mill on the Sound, he says, makes lumber, sash, doors and blinds, pickets, mouldings, etc., and when a log goes through that mill there is not enough waste material to make a bath of. The mill is run by water power, but uses two small boilers for its dry kiln, and the proprietor told him that they did not have enough waste material to feed the boilers, but had to buy fuel. Those people are making money. Mr. Henshaw has his eye on the new Astoria, and says that he is satisfied there will be branches here of many Portland houses.

SCALDED TO DEATH.

Horrible Accident Which Befel a West Astoria Child.

John T. Rockala, the 15-months-old child of T. Rockala, a fisherman, residing in West Astoria, met with a terrible accident Sunday morning, resulting in the little fellow's death in the afternoon.

About 10 o'clock Mrs. Rockala was engaged in preparing a bath for the child, and after filling the tub half full of scalding water, left the room for a few minutes. Soon after she was started by the most agonizing cries and rushed into the house to find her boy in the bathtub, writhing in agony.

During the absence of the mother the little fellow had entered the room, and while playing around the tub, had fallen in. Mrs. Rockala snatched the child from the water, but not before his lower limbs had been frightfully scalded. The flesh on the legs was scalded so badly as to make it impossible to render the little sufferer any relief, and he died in the afternoon in great agony. The mother is nearly frantic with grief over the terrible affair. The father was out on the river fishing when the accident occurred. The funeral will take place today.

BOAT REPORTED MISSING.

Two Scandinavian Fishermen Thought to Have Been Drowned Yesterday.

News was brought to the Scandinavian Packing Company's cannery yesterday that one of its boats had been capsized in the breakers near the mouth of the river and the occupants drowned. The men who reported the affair say the boat was capsized and the men thrown into the boiling waters. There is a bare possibility the men might have made shore in safety, but it is not at all probable.

THE NEW MOON.

An old bachelor and a new woman were out promenading last night. "Isn't this a lovely moonlight night, Miss Freshley?" "Yes, and so romantic, Mr. Lovitt; see how the slim cloudy lines cross his majestic brow as though the man in the moon were angry at our being out so late." "And do you notice, Miss Freshley, how strangely fantastic those small trees on Coxcomb Hill seem to encircle the moon's face, making it appear as though he had grown side-whiskers since his last appearance?" "Ah, me, if Herman Wise could only see the grand moon," said the new woman; "I'm sure he would never go to sleep until he had put a poster on the moon advertising his special \$11.50 suit sale and the picnic he gives to his customers on the 25th of July."
