The silver men were not prepared for the announcement of the selection of Senator Hill for the position of temporary chairman by the national committee. They had counted confidently upon securing the co-operation of a sufficient number of the gold men on the committee to secure the recommendation of Senator Daniel. When the silver committee held its first meeting its members were congratulating themselves upon the probability of the selection of Senator Daniel. When they met again in the evening they showed plainly that they were disappointed, but they were not noticeably discouraged. They asserted more positively than ever their determination to secure control of the temporary organization regardless of the action of the committee. They took the position that the result was secured by open intimidation. An interview between Mr. Whitney and Committeeman Norris, of the District of Columbia, was referred to as a specimen of the gold men's tactics, and it was stated in the meeting that Whitney had even threatened to ruin Norris in his business if he should persist in his determination to support a silver man for temporary chairman. The plan of the silver men will now be to have a report prepared by the minority of the committee, presenting their choice for the position and to seat him at all hazards.

The Great Press Nine Goes Down in Defeat Before Them.

The Examiners, commonly referred to by papers represented in the Press nine as "The Kids," did all kinds of things to the Press team Sunday. They played at Smith's Point and quite a crowd, anticipating a hot game, was present.

The game was a good one. Tappin, the great, twirled the pigskin for the Press nine, and he was expected to fan the kids out in 1, 2, 3 order. Up to the fifth inning, the Examiners weren't in it, but after that they were. The score was 17 to 18 in favor of the kids, who did not bat in the ninth inning.

The Press team was supposed to be a crackjack one, but the boys yesterday played all around them. Bunting and Abercrombie, two of the best men in the Examiners' team, did not play, else the boys would have made more runs, as both are good batters. The Examiners have yet to suffer defeat. The team is composed entirely of boys, and have met entirely men's nine, demonstrating that they can play ball.

HILL NAMED FOR CHAIRMAN.

(Continued from First Page.)

eratic party expects to overcome the distrust which the present administration has earned for it, now is the time to prove its sincerity.

"There is a candidate upon whom the vote of all the friends of free silver can be united, if all those who have the cause at heart will yield something of their extreme partisanship and place the cause of silver first and complete party success second. He is a candidate who having given more than 20 years to a devoted struggle for this cause and for financial reform, has shown that he can put his devotion to his principles above all party ties or party success.

"To nominate a straight Democrat in a divided party, when millions of honest citizens stand ready to support a non-partisan candidate is a mere reckless experiment, not only an act of supreme folly in this hour, but a defiance to all prudence and cannot be construed as meaning that the Democratic party desires to conjure with the magic of the occasion and prefer defeat for the cause in a spirit of narrow partisanship than to succeed by the rational act of union upon a candidate who can certainly succeed. We feel confident that the people's party is willing to open a path to union upon Henry M. Teller, and if this radical patriotic opportunity for success is rejected by the Democratic convention in a determination to seek complete party success, regardless of an open path to victory, then we will call the true friends of the cause to witness that the responsibility rests on those who reject this opportunity. We are forced to say after an earnest endeavor to inform ourselves about the sentiment of the people's party of the country at large that the party cannot be induced to endorse a candidate for president who has not severed his affiliations with the old political parties."
