Movements on the water front were few and far between yesterday.

The British ship Brenhilds left up for Portland yesterday afternoon with the steel rails consigned to the O. R. and N. Company.

This year's sports at Wellington which are held as a Dominton Day celebration, far eclipse anything that has previously been held at that end of the Island. A noticeable feature in the program is that nearly every prize is given in cash, a sufficient guarantee that everything is genuine. With fespect to the bicycle races, the value of Mar which amounts to over \$500, the committee are offering inducements higher than has ever yet been attained in British Columbia, and probably on the May whole Pacific slope; the professional prizes running as high as \$100 first prize, while in the amateur class three value \$2,000 value \$1,000, of the races reach their limit, vis., \$25, value \$16,000, value \$16,000.

After the sacrifice of millions of dollars' worth of property and many lives, the Puget Sound shipping men have at last awakened to the fact that pilots are a necessity at the entrance to the straits, and they have at last established a service. The Press-Times has the following regarding it:

"The long-discussed pilot business off Cape Flattery is an assured fact. The schooner Eacret sailed today with pilots aboard, and will cruise out to sea from Cape Flattery in search of vessels needing some one aboard who knows how to bring a vessel in safely liquors and cigars always on hand. "There is a wide difference of opinion among scafaring men on the necessity for pilots off Cape Flattery. Some believe affirmatively, and others, just as serve closet to overflowing. wise and careful skippers, believe it is all tomfoolery to send out pilot boats from the cape. The straits are deep and wide, and the entrance clearly defined. The business at this time can only be reckoned as an experiment, and, as one of the skippers said today, who does not believe in it, 'We shall see how it turns out."

"There is no compulsory pilot law and incoming sea captains are altogether free to do as they please about taking a pillot aboard. It seems to be the opinion of nearly every one that American skippers-and especially coastwise seamen-do not need and will not take pilots aboard, but foreign skippers, in charge of costly craft and cargo, will to a man be giad to know Adolph Guoinage and Sam Meliandt that when they arrive off the cape they | were waylaid and murdered near Cathcan get a pilot.
