Protection and reciprocity are twin neasures of Republican policy, and go hand in hand. Democratic rule has recklessly struck down both, and both must be re-established. Protection for the necessaries of life which we don't produce, reciprocal agreements of mutual interest which gain open markets for us in return for our open market to others. Protection builds up domestic industry and trade and secures our own market for ourselves. Reciprocity builds up foreign trade and finds an outlet for our surplus.

### Protection to Sugar Producers.

We condemn the present administration for not keeping faith with the sugar producers of this country. The Republican party favors such protection as will lead to the production on American soil of all the sugar the American people use, and for which they pay other countries more than \$100,000,000 annually.
