New Astoria...

located at the terminus of the Astoria and Columbia River Railroad, at the mouth of the Columbia River.

It fronts on the deep water of the Columbia River Harbor, and being perfectly protected from wind and seas, affords the very best docks for ships on this bay; therefore, it is the exact spot for the seaport of the great Northwest.

These facts were recognized by the Astoria & Columbia River Railroad Co. when

New Astoria Was Selected as the Starting Point for their Railroad and the Location for the Terminals.

New Astoria is platted upon a plane high enough for perfect drainage, and well protected by a high ridge behind it. Its streets and avenues are wide, and, in fact, it is laid out on modern plans. Extensive street improvements are now under way.

An office has been opened by the proprietors one door east of the Crosby hardware store. Call, be shown the merits of this property, and invest.

"B. and S." will be a popular Democratic drink next November, for the letters not only stand for a mighty good "modest quencher," but for Bryan and Sewall.

Another large crowd assembled at the Louvre skating rink last evening. This innocent amusement is very well patronized. The afternoons, too, see large crowds.

The merchants were so busy yesterday that they could not find time to give the latest to the newsmongers. It is encouraging that while others are complaining of slowness, the general business of the town keeps up as it should.

If you want to see the latest in photography call on Snodgrass. He is making carbon copies of the best Portland galleries at one-half the usual price in order to introduce this very fine and absolutely permanent grade of work.

A number of property owners on 5th street who have signed a petition for the improvement of that thoroughfare

to Young's bay, have pledged themselves to pay cash for their work, and insist that their rights shall be recognized in the matter.

Mr. Joe Young, son of Hon. Ben. Young, will probably engage in the practice of law either in San Francisco or some larger Eastern city. If he does not select a large city he will hang his shingle in a small village and grow up with the town.

Alex. Gilbert's pavilion and grounds at Seaside may be had for use free by persons or societies that wish to give excursions to the beach. Both pavilion and grounds are in excellent condition, and those who wish to give picnics would greatly add to the attractions by accepting Mr. Gilbert's liberal offer.

Frank W. Bosworth, who for the past year has been with Mr. Charles Rogers, left on the steamer State this morning with his wife for San Francisco where he has accepted the management of a leading drugstore. The work on the pile driving along the water front is rapidly nearing completion. R. and N. dock, and soon Scow bay will be reached.

The first train on the A. and C. R. R. R. was run to Flavel yesterday morning. It was rumored last night that the tug Relief was fired upon early yesterday morning while sailing out of the river for the Sound. The story was that Capt. McCoy had run over a net or two, and that the fishermen fired upon him, but the rumor could be traced to no authentic source, and as the Relief proceeded to sea, it is probable that no serious damage was done.

It is a big thing to say, but nevertheless true, that a great multitude of people have crowned Simmons' Liver Regulator, the "King of Liver Medicines." There is nothing like it for Malaria, Rheumatism, Chills and Fever, Constipation, Biliousness, Sick Headache, Indigestion and all troubles arising from a sluggish or diseased liver. Simmons' Liver Regulator is the prevention and cure of these ailments.

At midnight a report was received that the United States cruiser Philadelphia was lying off the bar and would be in this morning. There was some little discussion amongst local pilots as to the necessity for Admiral Beardslee telegraphing to Portland for a pilot to take the war vessel up the river. It is claimed that there are eight or nine pilots in Astoria holding regular branches from the state who are perfectly competent to take the Philadelphia, Oregon, steamer, steamship, gunboat, or any other vessel up the Columbia river.

ANOTHER TRAGEDY.

At 1 o'clock yesterday morning when all was still save the beating of the waves against the shore, and when the night was the darkest, the Fort Canby Life Saving Crew were aroused by repeated cries of "Help, help." Making all possible haste the lifeboat was lowered into the water and the crew pulled with a will toward the direction in which the sound was last heard. No further signals were given, however, and the life crew cruised about until daylight without learning the cause of the distress calls. As the fog of the early morning lifted they pulled for the shore and there discovered a fishing boat lying on the beach bottom side up, and the contents of the boat scattered about. In a short time fur-

ther along was discovered the body of the captain of the boat, John Aronson. The boat was No. 14, owned by George & Barker, and the boat puller was a brother of the captain. The men were from Portland and while members of the Union, are behind in their dues. It is understood that there are six brothers of this family who were all fishing on the river yesterday. The unlucky occurrence caused much gloom in certain quarters yesterday.

George & Barker sent their launch for the boat yesterday afternoon, which returned to the city late in the evening.

BOLTING NEWSPAPERS.

JOHN P. IRISH ON TICKET AND PLATFORM.

Iowa City, July 15.—John P. Irish, of Oakland, Cal., naval officer at the port of San Francisco, is in this city. Mr. Irish was formerly editor of a San Francisco daily paper, and was a prominent Democrat years ago, having been his party's nominee for the governorship and for congress. He was once a delegate to the Chicago convention, but completely repudiates the alibit's acts. He said:

"The platform at every point antagonizes every principle held by the Democracy since 1861. It is a league with larceny and a covenant with murder. Jefferson's precepts concerning ratio and a standard were completely ignored. The candidate is a raw man who has achieved nothing in private life or public life to fit him for the place, a man who won his reputation delivering orations at country fairs and Populist picnics. I will not support the platform nor the candidates, because I am a Democrat, not a dynamiter. California will give 15,000 majority against the platform and the candidates."

CROPS IN GREAT BRITAIN.

London, July 16.—The Times publishes its initial report of the season of the crops in Great Britain, showing their condition to have been somewhat below the normal at the beginning of July, but well above that at the corresponding time of last year.

Taking 100 per cent as representing the average, the wheat crop works out 104 per cent; barley 89, and oats 85, as against 79, 85 and 76 per cent, respectively, in 1895.

Report of a Settlement of the Ownership of the Provinces of Tacna and Arica.

Buenos Ayres, Argentina, via Galveston, Tex., July 16.—From a wholly trustworthy source it is learned that a solution of the ownership of the disputed provinces of Tacna and Arica formerly Peruvian territory, has been proposed and will probably be ratified by the governments of Chili and Peru.

The provinces are to be surrendered again to Peru or Chili, under certain restrictions as to boundary lines, to be hereafter defined. The delimitation will be governed by the population in the provinces. This means, also, that Chili will cede a part on the Pacific coast to the republic of Bolivia. This will satisfy Bolivia for the division of the provinces to which she might have had claim.

Peru is to be absolved from the payment of \$10,000,000, imposed as indemnity upon her by the treaty of Ancón. It is reported that President Piorola has already agreed to the terms of the settlement.

TURKEY MOVING TROOPS.

Intigues Pointing to an Occupation of Crete by France at Russia's Instigation.

London, July 16.—A dispatch from Constantinople says that the Porte is about to send 6000 reinforcements to the Greek frontier.

The Westminster Gazette publishes a special dispatch from Athens saying that Russia is prompting France to occupy Crete and hold the island against Great Britain's tenure of Cyprus and Egypt. The Greek government has become alarmed at this and is endeavoring to induce the Cretons to accept the terms of the Porte. The British fleet has been so strengthened in Cretan waters as to almost blockade the island.
