The Republican national committee has resolved to establish not one but two campaign headquarters, at Chicago and at New York. There will be plenty of work for both of them, and If the forces of the committee are judiciously divided the double arrangement ought to work well. Mr. Hanna has pressed into the service, as his executive committee, some of the most experienced campaign workers of the party, and they ought not to lose any more time than necessary in getting ready for their campaign

Mr. Gorman complains that the Astorian has done him the injustice of representing that he is a packer of Columbia river salmon. He wishes it understood that he is not a packer of salmon, but only a handler of other imperfectly the head, as packers' salmon, which, it seems, he merely buys and puts on the market under the labels of which he is the owner. The Astorian cheerfully gives

Mr. Gorman the benefit of the publication of his explanation, but the fact that a newspaper printed right at the seat of the packing industry was so misled by the lithography of Mr. Gorman's labels as to charge him with being a packer of salmon, should suggest to his mind the advisability of such changes in the form of the brands would save him from the suspicion of being a salmon packer among other buyers of salmon.

For the first time since the Civil War the American people have witnessed the calamitous consequences of full and unrestrained Democratic control of the Government. It has been a record of unparalled incapacity, disoner and disaster. In administrative management it has ruthlessly sacrificed indispensible revenue, entailed an unceasing deficit, eked out ordinary purrent expenses with borrowed money, piled up the public debt by \$262,000,000 in time of peace, forced an adverse balnce of trade, to a perpetual menace hanging over the redemption fund, nawned American credit to allen syndicates and reversed all the measures and results of successful Republican One entire day a month spent in rule. Protection to Sugar Producers.

We condemn the present administration for not keeping faith with the sugar producers of this country. The Republican party favors such protection as will lead to the production on American soil of all the sugar the American people use, and for which they pay other countries more than \$100,000,000 annually.
